BOSTON, MASS.

CARTERS TESTED SEEDS.

THE CARTER MULTIPLE UNIT SYSTEM.

OUR CHIEF NOVELTY.

REGISTERED NUMBERS

For the convenience of our customers when ordering Seeds and checking our bills, and to expedite the execution of orders, we have allotted registered numbers to all Seeds offered in this Catalog, as it is much easier to write "No. 6—20 cents," than "one ounce Carters Crimson Ball Beet—20 cents." We therefore urgently request our customers to order by number and price only.

CONTENTS OF PACKETS.

All Vegetable and Flower Seeds are offered by weight, measure, or number of Seeds, according to circumstances, packets containing unstated quantities being practically eliminated.
Large Seeds, such as Peas, Beans, Corn, etc., are offered by the ¼ pint, ½ pint, pint, and quart. Small Seeds by the 1/16 oz., ⅛ oz., ¼ oz., ⅓ oz., ½ oz., 1 oz., ¼ lb.. and 1 lb. Flower seeds and very choice Vegetable Seeds are offered by number of seeds.

THE CARTER MULTIPLE UNIT SYSTEM FROM THE BUYER'S POINT OF VIEW.

By packing and offering our Seeds as above, our customers can buy as many seeds as they require, an innovation which we believe will be very popular, and much appreciated.

THE CARTER MULTIPLE UNIT SYSTEM AND ITS EFFECT ON EVEN SOWING.

It is very difficult to sow small Seeds evenly. We when sowing our crops always divide the ground and seed up in equal portions, and as we propose to supply our Seeds in small units if requested, our customers will be able to adopt the same principle.

HOW THE CARTER MULTIPLE UNIT SYSTEM FAVOURS CO-OPERATIVE BUYING.

Friends, neighbors, clubs, societies, schools, etc., who wish to buy several packets of the same varieties can, by combining their orders, purchase Carters Tested Seeds packed in individual packets at the quantity rate, and so make a substantial saving, provided such orders are marked "Club Orders."

THE QUALITY OF CARTERS TESTED SEEDS.

Carters Tested Seeds have been extensively grown in the United States of America and the Dominion of Canada for nearly a century, and the fact that we have supplied the Royal and Noble Houses of Great Britain for this period is proof conclusive that Carters Tested Seeds are the best.

ORIGIN OF CARTERS TESTED SEEDS.

All Seeds offered by Carters Tested Seeds, Inc., are grown, tested, packed, and sealed at the Royal Seed Establishment at Raynes Park, London, England, with the exception of purely American-grown stocks, which we obtain from growers of repute and integrity.

CASH DISCOUNT OF 5 PER CENT.

A discount of 5 per cent. will be allowed on all Vegetable and Flower Seed orders of the value of 1.00 or more, when accompanied by cash. We make this offer in order to reduce our bookkeeping and billing expenses. (It does not apply to charge orders or to any other goods.)

CARTERS MULTIPLE UNIT SYSTEM IS AN ECONOMICAL SYSTEM.

The smallest quantity of Seeds offered of all varieties are scientifically calculated to give a good sowing and supply a good plant, or stand under ordinary conditions, and although some packets may seem to contain a great many Seeds, one must make allowance for the vagaries of the weather, the size of the seeds, and the destruction done by insects of all sorts.
The Carter Multiple Unit System is an economical system, and we cannot undertake to break away from it and supply half-packets, nor can we agree to take any packets back opened or unopened.

DELIVERIES AND SERVICE.

Our new system of offering and selling Seeds has worked smoothly and efficiently during the past season. We guarantee that **all orders will be executed without delay.**

SPECIAL NOTICE. Owing to the very unsteady market on all Seeds and Fertilizers, etc. our prices are subject to change without notice.

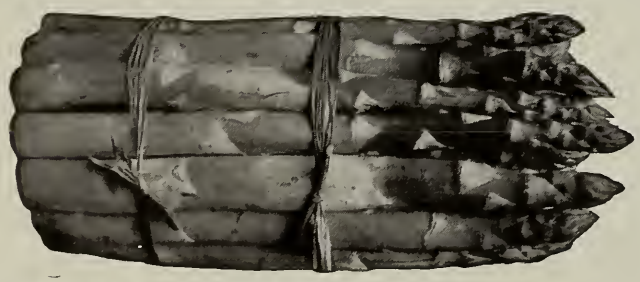
CARTERS TESTED VEGETABLE SEEDS.

ARTICHOKE.—*The Cultivation of Artichoke.* — The scales and bottom of the flower-head are eaten either boiled or raw as a salad. The young suckers are sometimes tied together and blanched, and served in manner the same as Asparagus. Sow the seeds early in April or May, and when large enough transplant in rows 4 ft. apart with 2 ft. between each plant. They will yield well the second year if they are well protected from the cold throughout the winter by earthing up and mulching. The Artichoke may be also treated as an annual, sowing the seeds under glass and keeping the seedlings growing vigorously until May, when they should be set out in a rich soil. By this treatment they will produce fine heads the first season. 1 oz. of seed will sow 35 ft. of drill.

No.
1231 **Crown Artichoke, Earliest Drumhead.**—The finest strain in cultivation.
1234 **Green Globe.**—Very popular; delicious flavour.

	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ lb.
Price of the above	.15	.25	.40	.75	2.25

ASPARAGUS.—*The Cultivation of Asparagus.* — Sow the seeds thinly in drills about 1 ft. apart and 1 in. deep. Any good, loamy, not too weedy soil is good for growing the plants, and the seed can be sown as early as the ground can be cultivated in the spring. When the plants have made a showing thin out to 2 or 3 in. apart. For the permanent bed deep, warm, rich loamy soil is required. Use stable manures and fertilizers freely. Make trenches 6 to 8 ft. apart and 8 to 10 in. deep. Set the one or two year old roots about 2 ft. apart in the trench and cover lightly at first, gradually filling in with soil and old compost. Every fall a liberal dressing of coarse manure should be spread over the rows after the tops have been cut, and this should be forked or spaded in in the spring. Keep well cultivated. 1 oz. of seed will produce about 200 plants; 4 to 5 lb. to the acre.



1217 **Carters Mammoth Emperor.**—Superior in size.
1218 **Batavian.**—Rich flavour; largely grown.
1219 **Conover's Colossal.**—Large; very popular.
1220 **Reading Giant.**—Rich, nutty flavour.

	¼ oz.	1 oz.	¼ lb.	1 lb.
Price of the above ..	.05	.15	.40	1.50

Asparagus Roots, 2 years old, 1.25 per 100, 10.00 per 1,000, F.O.B.

☞ *Kindly order by Number and Price only.*

BEANS.—When ordering Beans to be sent by mail add postage at zone rate. Average weight, 1 pt. equals 1 lb.; 1 qt. equals 2 lb.

ENGLISH BROAD WINDSOR.

No.
56 **Carters New Colossal Windsor.**—This immense Bean is, both in pod and seed, by far the largest Broad Bean ever raised. It was selected at our testing grounds, being the result of a cross made in 1905 between the old-fashioned *Harlington Windsor* and *Carters Leviathan*, and is a certain prize-winner. The seed is of abnormal size. Stock very limited.

	¼ pint.	½ pint.	1 pint.
Price ..	.25	.40	.75

57 **Carters Improved Broad Windsor.**—Large and productive, bushy habit; well podded from top to bottom of stem.

70 **Carters Green Windsor.**—A distinct and valuable green selection.

	¼ pint.	½ pint	1 pint	1 quart
Price of the above	.15	.25	.40	.75

ENGLISH DWARF OR BUSH.—*The Cultivation of Bush Beans.*—Seed can be planted from the beginning of May until August, but not until the soil becomes sufficiently warm, as they are particularly sensitive to cold. Plant in drills 1½ ft. apart, covering the seed about 2 in. Keep the soil well cultivated, using care to do so only at times when it is quite dry, as earth scattered on moist foliage creates rust.

French Beans for forcing may be sown in pots under glass from December to April or in the open ground from May 15th on through to August 1st. These plants should be thinned to about 1 ft. apart. 1 qt. of Bush Beans will plant 100 ft. of drill. They are rather delicate, and should not be sown out of doors until the warm weather sets in.

BEANS—*Continued.* **ENGLISH DWARF OR BUSH**—*Continued.*

No. 89 *Carters Magpie.*

No. 85 *Carters Perpetual*

No. 86 *Carters Sunrise.*

No. 89 **NOVELTY.** **Carters Magpie** (the new Longstanding variety).—This remarkably fine Dwarf Bean, which has attracted such favourable attention, was raised in France by an expert grower, who considered it the finest Bean of its class. We have re-selected it and grown it on for some years, until it has become equally good here in all seasons, producing heavy crops when other varieties are damaged or fail. It is also an excellent forcer. In habit it somewhat resembles our celebrated *Perpetual* but is a heavier cropper, the pods also being larger and longer.

86 **NOVELTY.** **Carters Sunrise.**—For forcing or outdoors. A distinct and valuable first early Dwarf French Bean raised at our grounds from the result of a cross between *Ne Plus Ultra* and *Carters Perpetual. Carters Sunrise* is a most valuable addition, for it not only possesses the good forcing quality of the *Ne Plus Ultra*, but is a much better cropper, and produces larger and superior pods. Very compact growth and remarkably early. Award of Merit, R.H.S., 1913, and confirmed by the Society, July, 1914.

	¼ pint.	½ pint.	pint.
Price of the above ..	.30	.50	.90

83 **NOVELTY.** **Carters White Model.**—The earliest of all the white-seeded varieties. The result of a cross between *Carters Sunrise* and *Improved Longsword*. Habit compact, pods long, straight, and excellent quality, a remarkable good forcing variety, and a truly refined Bean. A great improvement on *White Advancer.*

	¼ pint.	½ pint.	1 pint
Price ..	.35	.60	1.00

No. 85 **Carters Perpetual.**—F. C. Certificate, R.H.S.; Award of Merit, R.H.S. This remarkable Bean is strongly recommended as being in every way a great acquisition. It is of very compact growth, the foliage of an attractive dark green, and the pods are of medium size. The most important features are the prolonged period this variety continues to bear, and its remarkable quality for withstanding hot and dry seasons. Pods were picked in our Testing Grounds at Raynes Park earlier than other varieties, and young tender Beans were gathered after most other sorts were quite finished.

87 **Carters Stringless Dwarf French Bean, Holborn Wonder.**—The great success which has attended our introduction of the first stringless Green-podded Bean, *Carters Canadian Glory*, has encouraged us to pursue our efforts in selecting Stringless Beans for general use. Our *Holborn Wonder* will be found to be free from threads, is quite distinct and very prolific, and we confidently recommend it.

88 **Carters Stringless Dwarf French Bean, Canadian Glory.**—An extra Early Dwarf Green-podded French Bean, possessing the invaluable quality of bearing pods absolutely without strings or threads. It is equally valuable eaten as a *Flageolet* or *Haricot.*

90 **Carters Canadian Wonder.**—We were one of the first to make the merits of this fine Dwarf Bean known, and its popularity to-day is probably unequalled. Our stock is the finest obtainable, and produces an abundance of very long fleshy pods, making it a great favourite both for table and exhibition.

	¼ pint.	½ pint.	pint.	quart.
Price of the above ..	.25	.40	.70	1.25

No. 87 *Carters Holborn Wonder*

91 **Carters Longsword, Re-selected Stock.**—This variety has been improved and re-selected, and as now offered is one of the largest podded French Beans on the market. The pods are produced in great profusion.

97 **Ne Plus Ultra.**—Well-known variety; good for general use.

101 **Bountiful.**—A six-weeks Bean with a flat pod. Very prolific. Stringless and extra early.

	¼ pint.	½ pint.	pint.	quart.
Price of the above ..	.20	.35	.60	1.00

137 **Masterpiece** (Suttons); one of the best forcing or main crop Green string Bean.

	¼ pint.	½ pint.	pint.
Price of the above ..	.30	.50	.90

"Vegetable Seed bought from you last spring has proved most satisfactory. In fact, so is everything bought from your house. This will most likely bring you many new orders next season, as we have told all our friends of the results obtained from your seed."—F. H. Atwater, Petaluma, Cal.

No. 88 *Carters Canadian Glory*

BEANS—*Continued.*

AMERICAN DWARF OR BUSH.

No.
138 **Black Valentine.**—A standard sort; pods long, round, and straight. A good market variety.

139 **Carters Dwarf Horticultural.**—A distinct improvement on the old horticultural Bean, and wonderfully productive.

140 **Goddard, or Boston Favourite.**—A snap Bean when young, and a good shell Bean later.

141 **Low's Champion.**—A large, flat, stringless Bean, used as a snap or shell Bean; known as the *Dwarf Red Cranberry.*

146 **Early Mohawk.**—Very early and hardy. Flat podded variety, of excellent quality.

142 **Red Kidney.**—The old-fashioned baking Bean; excellent also as a shell Bean.

143 **Refugee or 1,000 to 1.**—A late planting variety, with large, handsome, tender pods. The best for pickling.

144 **Prolific Tree Pea Bean.**—A small, white, baking variety known as the white Pea Bean. Very productive.

145 **Stringless Green Pod.**—Absolutely stringless, and very early; very crisp and tender.

147 **Improved Yellow Eye.**—Extremely productive, and is profitable as a field Bean, and extensively used as a baking Bean.

148 **White Kidney.**—An excellent string or shell variety and unsurpassed as a baking Bean.

	¼ pint.	½ pint.	pint.	quart.
Price of the above ..	.15	.25	.45	.80

AMERICAN WAX PODDED OR BUTTER.

No. 156 *R. P. Golden Wax.*

No. 153 *Davis Kidney Wax.*

153 **Davis Kidney Wax.**—A very hardy, well-shaped, tender, white-seeded Bean. A great favourite.

154 **Hodson Wax.**—One of the best all-round garden varieties. Tender and stringless.

155 **Improved Prolific Black Wax.**—A perfectly stringless, round, thick-podded Bean, of excellent flavour.

156 **Improved Rust-proof Golden Wax.**—A remarkably productive Bean, practically free from rust. This variety is perhaps the most popular sort in cultivation.

157 **Stringless White Wax.**—A great improvement over the old White Wax Beans, as it is perfectly stringless and does not rust easily. The pods are a clear waxy white, of medium size.

158 **Wardwell's Kidney Wax.**—This is an early, long, flat-podded variety, of excellent quality. It is stringless and brittle, and will produce a very heavy crop.

159 **Golden Eyed Wax.**—One of the best wax varieties and a heavy cropper.

	¼ pint.	½ pint.	pint.	quart.
Price of the above ..	.15	.25	.45	.80

AMERICAN DWARF OR BUSH LIMA.—*The Cultivation of Bush Lima Beans.*—Select soil that is warm, rich, and well supplied with vegetable matter or humus. Plant as early as soil can be worked in the spring. Prepare the rows 2 ft. apart, and allow each plant a space of 6 in. in the row. As these beans are very slothful in growth, a top-dressing of well-rotted manure or some good fertilizer or compost around the plants will aid greatly in hastening maturity, besides increasing the yield.

No.
164 **Dreer's Bush Lima.**—A dwarf form of *Dreer's Pole Lima Bean,* and it possesses every good feature of that well-known variety. They grow close together in the pods, producing 4 to 5 sweet, succulent beans to the pod.

165 **Forhook Bush Lima.**—A perfect bush Lima Bean, of a strong, upright growth, protecting the pods from contact with the soil, thus preventing rust and rot. Considered superior to any other variety.

166 **Burpee's Bush Lima.**—A dwarf form of the *Large White Lima* Very early and of good quality.

167 **Henderson's Bush Lima.**—Exceedingly productive. Valuable also for the fact that it matures two or three weeks earlier than any of the other varieties of Lima Bean.

	¼ pint.	½ pint.	pint.	quart.
Price of the above	.20	.35	.60	1.00

POLE BEANS.—*The Cultivation of Pole Beans.*—Pole Beans, especially Lima Beans, show better results from a warm and very rich loamy soil. The seed should be planted when the soil has become thoroughly warmed through in the spring. Should the ground be cold or soggy, the seed will rot. Poles should be set in rows 4 ft. apart and 3½ to 4 ft. between the poles. Plant 4 to 6 beans around each pole, and as the plants make a showing thin out to 3 plants to the pole. Cultivate freely, and if possible top-dress around each hill with a quantity of well-rotted manure compost or some good fertilizer. When hoeing, work this well into the soil. Climbing varieties of French Beans may be sown under glass whenever desired, in pots large enough to allow staking. Be cautious in sowing the French varieties out of doors until quite sure that the warm season is well established. 1 quart of pole Beans will plant 200 hills. 1 quart of pole Lima Beans will plant 100 hills.

POLE LIMA BEANS.

173 **Dreer's Improved.**—An early variety of excellent qualities and great productiveness.

	¼ pint.	½ pint.	pint.	quart.
Price of the above ..	.20	.30	.50	.90

BEANS—*Continued.*

POLE LIMA BEANS—*Continued.*

No.
174 **Large White.**—It is considered one of the most tender and delicious Beans grown.

175 **King of the Garden.**—A vigorous grower, bearing large pods varying in length from 5 to 6 in.

176 **Sieva or Small Lima.**—A very productive and hardy Bean, the earliest of the pole Limas.

	¼ pint.	½ pint.	pint.	quart.
Price of the above ..	.20	.30	.50	.90

POLE BEANS, WAX-PODDED.

182 **Carters Golden Cluster.**—This is a wonderful improvement on the ordinary *Golden Cluster* Bean, and it produces a surprisingly wonderful growth of long, yellow, fleshy pods, which hang in clusters. It is an early variety.

183 **Golden Cluster, American Variety.**—This variety produces an abundance of clear golden pods of long duration; always tender.

126 **Mont d'Or or Golden Butter.**—This is perhaps the earliest Wax Pole Bean grown, and the result shows a vigorous growth of plump, meaty pods, 6 to 8 in. in length.

184 **Indian Chief or Black Wax Pole Beans.**—A long, white, stringless Bean. Very popular.

	¼ pint.	½ pint.	pint.	quart
Price of the above ..	.20	.35	.60	1.00

FRENCH POLE BEANS, GREEN-PODDED.

107 **Carters July Climbing, with stringless pods.**—We had the pleasure to bring to the notice of our customers a climbing stringless variety, which we strongly recommended, and we have no reason to alter the opinion expressed then. It bears round pods so freely produced that we have counted as many as 40 on a stalk. It holds well to the sticks, and is the earliest Bean we know.

109 **Carters Re-selected Climbing French Beans.**—A highly selected stock, being more prolific and of very robust habit.

	¼ pint.	½ pint.	pint.	quart.
Price of the above ..	.25	.40	.70	1.25

AMERICAN POLE BEANS, GREEN-PODDED.

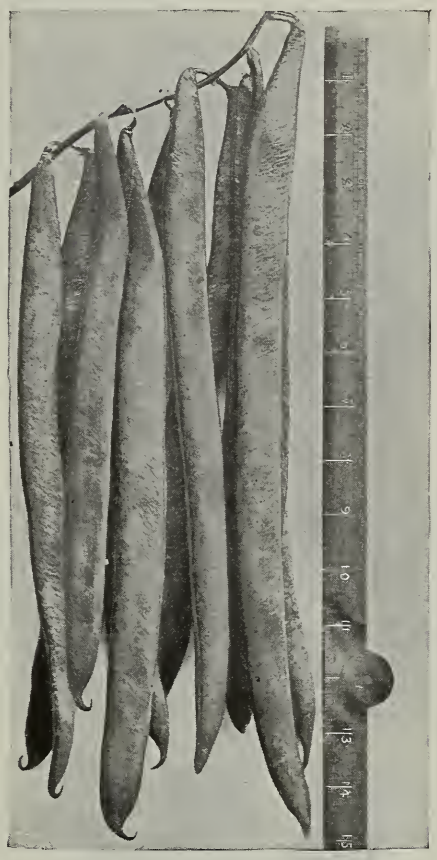
190 **Horticultural or Speckled Cranberry.**—The best pole shell Bean grown, although it can also be used as a snap Bean. It has a pale-green pod, but becomes streaked with red when mature.

191 **Kentucky Wonder or Old Homestead.**—A long, green-podded sort. The vines make a very vigorous growth and produce quantities of large pods, which grow in great clusters and are of fine quality.

192 **Lazy Wife.**—An excellent flavoured, white-seeded Bean. It is a late sort, and is one of the largest pole Beans raised.

	¼ pint.	½ pint.	pint.	quart.
Price of the above ..	.15	.25	.45	.80

ENGLISH POLE BEANS, SMOOTH PODDED.



No. 117 *Carters Scarlet Emperor.*

No.
117 **Carters Scarlet Emperor** (The Long Smooth-podded Scarlet Runner).—Fully maintains its great reputation, and its popularity still increases, as our sales strikingly show. Reports, and our customers' appreciation of this striking Bean, still endorse the experts' opinion previously issued. At the Exhibitions *Scarlet Emperor* is still the favourite Runner Bean, and our record of first prizes gained all over the country confirms the first season's report as being the finest Scarlet Runner introduced. Not only is this Bean of the utmost importance as a prize winner, but its smooth and tender texture places it far above all other Scarlet Runners. Its long handsome pods, often measuring 15½ in., hang in great clusters, and it has been estimated that the produce from *Carters Scarlet Emperor* is twice as great in bulk as may be expected from the ordinary type of Scarlet Runner, and all of the most refined quality. 598 First Prizes reported.

	¼ pint.	½ pint.	pint.	quart.
Price	.20	.35	.60	1.00

124 **Carters Jubilee Runner** (The Largest Podded White-seeded Runner Bean Grown).—This extraordinary Bean still remains one of the best. *Carters Jubilee Runner* produces an enormous crop of immense pods, which are thick and unusually fleshy, the flavour being all that is desired. 165 First Prizes reported by customers.

132 **Dutch Case Knife.**—A very productive and excellent Bean, very suitable for using either as a green or dry Bean.

	¼ pint.	½ pint.	pint.	quart.
Price	.25	.45	.80	1.50

"First of all, I must thank you for the promptness in sending our seeds this summer. We never tried your seeds before, but the seeds all came up so well and are yielding so splendidly, that we will deal with you for the whole garden."—Mrs. C. Lewis, Plainfield, N.J.

"My order for seeds has been filled, and received in a very satisfactory condition. Accept my thanks for attention given."—M. Patterson, 4047 Ogden, Jr., Philadelphia.

BEET.—*The Cultivation of Beets.*—The seed should be sown from as soon as the ground can be worked in spring until July 1st, in soil that has been well trenched and manured. Let the rows be about 18 in. apart, thin them to allow about 9 in. between the plants, and keep the soil well cultivated during the summer. 1 oz. of seed will sow 50 ft. of drill, 5 to 6 lb. per acre.

No.

6 **Carters Crimson Ball.**—Awarded the First Class Certificate of the Royal Horticultural Society. A round summer variety. The roots are ready for use in the summer salads. Round Beets are of the greatest value on account of earliness. The roots can be lifted during the height of the summer season when salads are in demand; and the fresh taste imparted by the highly-coloured slices is considered preferable to that from stored roots. The old-fashioned flat types were never in favour with cooks, because of their weak colour and stringy texture. In *Carters Crimson Ball* these defects have been remedied. Fine specimens of this variety have been exhibited in Gold Medal Collections, and during the past few seasons 65 First Prizes have been reported.

7 **Carters Dainty.**—This is a small-growing variety of more than ordinary merit. It has long tender roots of a splendid deep crimson colour, and of the finest flavour possible. In naming it *Dainty*, we wish to convey the extremely refined quality of this variety; it does not attain to the size of our *Perfection*. Included in seven Gold Medal Exhibits during the past two years.

Price of the above ..	¼ oz.	½ oz.	1 oz.	¼ lb.	1 lb.
	.10	.15	.25	.90	3.25

No.

12 **Carters Perfection.**—We continue to re-select this fine Beet, which is now a perfect and refined root. The best long Beet in cultivation; medium size, rich crimson lake colour, and splendid flavour; foliage shining and dark. *Carters Perfection* is a magnificent show variety and figures prominently in all the principal vegetable exhibits throughout the country. Included in three Gold Medal Exhibits. 87 First Prizes were reported from customers.

27 **Carters Selected Stock, Crosby's Egyptian.**—This well-known Beet is recognised by beet growers in general as the standard of the early varieties. The roots are round and run very uniform in size and shape, the flesh being a rich red in colour and very sweet.

Price of the above ..	¼ oz.	½ oz.	1 oz.	¼ lb.	1 lb.
	.10	.15	.25	.90	3.25

13 **Carters Blood Red.**—A very fine long variety, with well-shaped roots of splendid deep colour and of good flavour.

14 **Carters Improved Dark Red.**—A splendid long Beet of excellent quality.

29 **Edmand's Early Blood.**—A fine dark round Beet for main and late crops.

31 **Detroit Dark Red.**—One of the very best for home or market garden and for canning purposes. Roots uniformly smooth, of medium size, and globe shaped; skin, dark red; flesh, solid vermilion red. Our special stock of this variety shows little, if any, white zones. Tops small, upright, dark green shaded red.

22 **Cheltenham Green Top.**—Green leaves, with fine bright long red roots.

28 **Swiss Chard.**—An improved type of a delicious vegetable, in reality a Beet in which cultivation has developed the leaves instead of the root. It is sown at the same season as Beetroot in rows about 1½ ft. apart, and the plants thinned out to 1 ft. apart.

Price of the above ..	¼ oz.	1 oz.	¼ lb.	1 lb.
	.10	.25	.85	3.00

FIELD BEETS OR MANGEL WURZEL.

1628 **Carters Improved Mammoth Long Red.**—The largest and most productive of all the long red sorts. It is smooth skinned and fine grained, and very regular in size. During the very dry summer of 1911 this variety did particularly well on all soils when shallower-rooted varieties mostly failed.

1625 **Carters Red Emperor.**—A heavy cropping intermediate variety, with high feeding value, density of flesh, digestible solids, and keeping qualities. Its rich, solid flesh renders *Carters Red Emperor* a valuable Mangel for fat stock raisers who require the maximum bulk of feed with the maximum of digestive food solids.

1627 **Carters Dreadnought.**—This is a fine type of the intermediate oval-shaped Yellow Mangel, possessing a small top and fine shoulder. It withstands the drought, and from its peculiar habit this variety may be set closer in rows than other sorts of Mangel.

Price of the above..	1 oz.	¼ lb.	1 lb.	10 lbs. and upwards
	.15	.40	1.25	1.15 per lb.

FIELD BEET—*Continued.*

For Illustrations see colored insert.

No.

1624 **Carters Windsor.**—A big improvement on any of the yellow-flesh Globe Mangels. It grows such a clean root, free from fangs, and with a small top, that the crop is easily pulled. This Mangel is capable of producing from 90 to 120 tons per acre. We recommend it as the best all-round variety where only one sort is grown.

The Best All-Round Mangel.

Carters Windsor is well-known to be the best Yellow Globe Mangel in cultivation because it is the

Labour Saver.

The *Windsor* saves in the labour bill. It grows such a clean root, free from fangs and with a small top, that the crop is easily pulled, and the roots can often be pushed out of the ground with atouch of the boot. This ease with which the crop of *Windsor* Mangel can be lifted is not the least advantage of this popular variety (For illustration see colored insert.)

Lord Warden.—A deep orange Globe Mangel which grows to an immense size, is extremely hardy, very suitable for cold soils and will produce enormous crops.

1632 **Long Yellow.**—Similar to *Long Red*, except in colour.

1626 **Golden Tankard.**—A bright yellow-fleshed intermediate sort.

SUGAR BEETS

1630 **Carters Improved White Sugar Beet.**—A superior variety of the Continental Sugar Beet.

1631 **Klein Wanzleben.**—For the production of sugar or for cattle feeding this variety stands unsurpassed.

Price of the above ..	1 oz.	¼ lb.	1 lb.	10 lb. and upwards
	.15	.40	1.25	1.15 per lb.

BORECOLE OR KALE.—

The Cultivation of Kale.—Sow the seed early in the spring, covering the seeds thinly and evenly. Transplant in June, and cultivate the same as Cabbage, leaving a space of 2 ft. between the plants. For an early spring crop plant seed in September and protect with straw during winter. 1 oz. of seed will produce 5,000 plants.

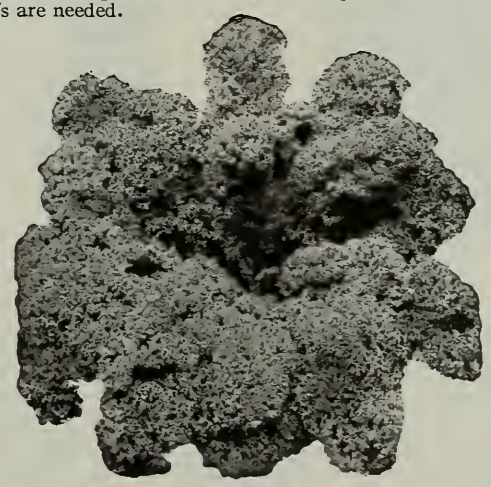
No.

198 **Carters Russian Kale** (*Chou de Russie*).—Award of Merit and First Class Certificate after trial at Wisley. A distinct and extremely hardy variety. The leaves are very curious, in form somewhat resembling a deer's antler, of singularly thick substance, and of a peculiarly green colour. When cooked this is the most delicious variety of Kale which we have ever tried, the young shoots sepecially being particularly delicate in flavour.

199 **Carters Welsh Kale.**—A hardy variety of very handsome appearance; of medium height. The leaves are long and densely curled, but are more narrow than our *Half Tall Scotch* variety. The flavour is particularly good.

201 **Carters Half Tall Scotch Kale.**—A fitting companion to our well-known *Dwarf Extra Curled* type. The leaves are very dense and moss curled. Stands the coldest weather, and the greater the frost the more delicate the leaves eat. If the leaves at the top are cut during the early part of the winter, it will greatly encourage the growth of the young shoots upon the stem.

204 **Carters Mammoth Tall Scotch Kale.**—A very robust variety, suitable for large establishments where quantities of winter greenstuffs are needed.



200 **Carters Dwarf Extra Curled Kale.**—Award of Merit R. H. S., after trial at Wisley. A re-selected and crested form of the Early Kale. It will resist the most intense frost, and makes a delicious winter dish.

202 **Carters Drumhead Kale.**—A valuable winter vegetable with a solid, cabbage-like head. Quite delicious when cooked. Award of Merit, Royal Horticultural Society.

Price of the above ..	¼ oz.	1 oz.	¼ lb.	1 lb.
	.10	.30	.85	3.00

BROCCOLI.—*The Cultivation of Broccoli.*—This vegetable resembles Cauliflower, and is much hardier. The seed should be planted in hotbeds during March and April for an early crop. Transplant during May or June in rows 3 to 4 ft. apart, and the plants about 2 ft. apart in the row. For a late crop sow in June in hills or beds, covering seed to the depth of ½ in. A good, deep, well-manured soil is required for success. 1 oz. of seed will produce about 2,000 plants.

No.
235 **Veitch's Self-protecting.**—Early variety, with good hearting quality.

	¼ oz.	½ oz.	1 oz.	¼ lb.
Price	.15	.25	40	1.25

282 **White Cape**—A distinct variety of a creamy-white colour.

	1/16 oz.	⅛ oz.	¼ oz.	½ oz.	1 oz.
Price	.10	.15	.25	.45	.85

BRUSSELS SPROUTS.—*The Cultivation of Brussels Sprouts.*—Sow the seed early in May, in seed beds, and the plants afterwards can be transplanted into rows about 2 ft. apart and cultivated like Cabbage. The crop will be ready for use in the late autumn after the early frosts. 1 oz. of seeds will produce 1,500 plants.

No. 221 *Carters Holborn.*

No. 223 *Carters Perfection.*

221 **Carters Holborn Exhibition.**—A very fine strain, the result of many years' careful selection. Its points for size, colour, and productiveness are good all round. Besides being largely grown in private gardens, it is a special favourite with many of the best known market growers. It is of medium height with large solid sprouts. The Royal Horticultural Society's report reads:—"CARTERS NEW EXHIBITION.—Plants 2 ft. high, sturdy, producing a mass of medium-sized hard sprouts from base to crown."

223 **Carters Perfection.**—Perfection in every way. A standard variety for general use, producing large and firm sprouts in great abundance. As a late Sprout it is much appreciated. It is a taller growing variety than our *Exhibition* strain.

224 **Aigburth.**—Medium height; sprouts of good size and colour.

225 **Fresh Imported.**—Small, close, compact sprouts.

	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ lb.
Price of the above ..	.10	.15	.25	.45	1.50

CABBAGE.—*The Cultivation of Cabbage.*—For plants of the early varieties sow the seed in January or February, under glass, and prick out into flats or frames about 2 in. apart each way. Transplant to the open ground as soon in the spring as the land can be properly prepared. The plants should be placed from 1½ ft. to 2 ft. apart in rows, which should be at least 2 ft. apart. They should be kept well cultivated, and during drought should be thoroughly irrigated if this is possible. The plants do best in a rich, warm, fibrous soil. The seed of the late Cabbage should be sown in drills in the open ground during April and May and transplanted in June or July, leaving more room between the plants than was allowed for the early sorts. 1 oz. of Cabbage seed will produce about 3,000 heads. 4 oz. will plant an acre.

No.
289 **Carters Early Heartwell.**—An early Marrow Cabbage of refined quality and delicate flavour; without doubt one of the best varieties in cultivation. 112 First Prizes reported and included in 3 Gold Medal Exhibits.

304 **Carters Mammoth Beefheart Cabbage.**—The finest autumn garden Cabbage grown. It is some years since we introduced this variety, but each season it becomes more popular, and we confidently recommend this highly selected strain as being not only the largest, but one with the least tendency to bolt. It is much more robust and hardy than many of the small varieties now recommended for early summer use. No less than 48 First Prizes were reported to us by our customers last season.

330 **Copenhagen Market.**—This sort is the earliest and largest of any ball or round head type grown. The heads weigh 10 to 12 lb. and are very solid and of excellent quality. We heartily recommend this type to those contemplating the growth of an early Cabbage.

	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ lb.
Price of the above	.10	.15	.25	.45	1.50

CABBAGE—*Continued.*

No.
329 **Warren's Stonemason.**—A popular variety in this vicinity. The heads are very large and round and slightly flattened; very solid and crisp, with a fine flavour. As a keeper it cannot be surpassed.

331 **Danish Ball Head.**—An extra hard heading variety originated in Denmark. It is a medium-late sort, but is sown mostly for winter use, because of its fine keeping qualities.

Price of the above ..	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ lb.
	.10	.15	.25	.45	1.50

306 **Christmas Drumhead.**—A small solid-hearted variety largely grown by market gardeners. Owing to its compact habit this variety can be grown close together. Remains in season over a very long period.

291 **Carters Early York.**—Of dwarf compact habit, small heads, and quick growth.

No. 296 Carters Model.

No. 294 Carters Pioneer.

296 **Carters Model.**—As a succession to *Carters Heartwell* this is a useful variety. Its heads are firm and compact, and come close to the ground.

294 **Carters Pioneer.**—A valuable early Cabbage rather larger than our *Springtide*, maturing a few weeks later and forming a valuable succession to that variety. An excellent type for main crop where medium size and first-class quality are desired. Included in a Gold Medal Exhibit at York.

288 **Carters Springtide.**—A dwarf variety maturing in April or even earlier in favourable seasons, when Cabbage forms such a valuable addition to the table. The hearts are of perfect form and flavour. This choice little variety is practically all heart. There being few outside leaves, almost the whole plant can be used for culinary purposes.

Price of the above	¼ oz.	½ oz.	1 oz.	¼ lb.
	.15	.25	.40	1.25

No.
312 **Carters Summer.**—One of the largest headed varieties; very white hearts, good flavour.

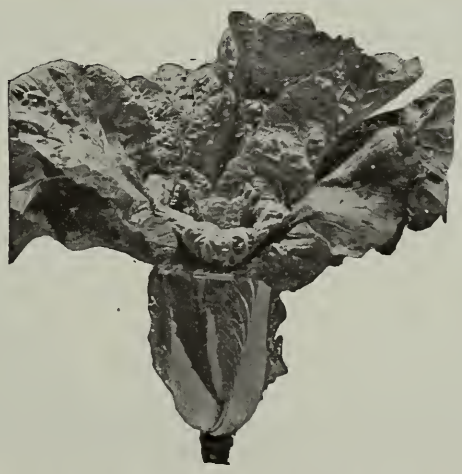
332 **Early Jersey Wakefield.**—An early conical-shaped Cabbage of fine quality; very popular.

333 **Early Winningstadt.**—Adapted for light soils. Pointed head, early to medium.

310 **Carters Red Pickling.**—This is the most perfect type of Red Cabbage; the hearts being very hard and compact and of a rich deep crimson, the colour also of the outer leaves being much darker than any other variety we know. We were awarded 2 Gold Medals for Vegetable Exhibits containing this Cabbage.

Price of the above ..	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ lb.
	.10	.15	.25	.45	1.50

CHINESE CABBAGE.



334 **Chefoo Pe Tsai Cabbage.**—Very rapid in growth; habit similar to *Romaine Lettuce*; heads large and tender.

335 **Chinese Pe Tsai Cabbage.**—Similar to the *Chefoo*, but the heads are more round in shape.

Price of the above ...	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ lb.
	.10	.15	.25	.45	1.50

CABBAGE—*Continued.*

SAVOY CABBAGE.

No. 339 **NOVELTY** **Cartercone.**—This small perfectly-shaped Savoy was very favourably commented upon when included in our exhibit of Brassicas at the Royal Horticultural Society's Hall, autumn, 1913, and the Vegetable Committee recommended it for further trial at Wisley. The heart is a perfect cone in shape, whilst its absolute freedom from coarseness ensures its success for table use. *Cartercone* is a very refined type. Although maturing early, it stands over a very long period and is not liable to burst, as are many of the ordinary types.

Price of the above ..	⅛ oz.	¼ oz.	1 oz.	¼ lb.
	.15	.25	.75	2.50

343 **Carters Giant Green.**—An improved type of Savoy with crimped foliage; the individual leaves are very large, but retain their tender properties longer than any other variety.

340 **Carters Drumhead.**—Good stock; large hearting variety.

341 **Dwarf Green Curled.**—Very compact and hardy; one of the best for general use.

Price of the above ..	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ lb.
	.10	.15	.25	.45	1.50

"Enclosed please receive P.O. for 9.60 to cover the cost of seeds in the accompanying list. Will let you know later in the season the results. We had a splendid show last year from what you sent here."—W. Owen, 2037, Alta Ave., Louisville, Ky.

"We were more than pleased with the results secured from seed ordered of you last spring."—Mrs. Charles H. Sisson, Telluride, Colo.

CARROTS—*The Cultviation of Carrots.*—This vegetable does its best in a warm, deep, rather light, and fairly fertile soil that is well supplied with humus. Sow the seed from April to July in drills 1 ft. apart, covering the seed ½ in. in depth. As the young plants appear thin out to from 3 to 5 in. apart, according to the size of the expected variety. Keep the soil well cultivated, as weeds are a sure death to young carrot plants. Keep irrigated during droughts if it be possible. 1 oz. of seed will plant 100 ft. of drill, 3 to 4 lb. to the acre.

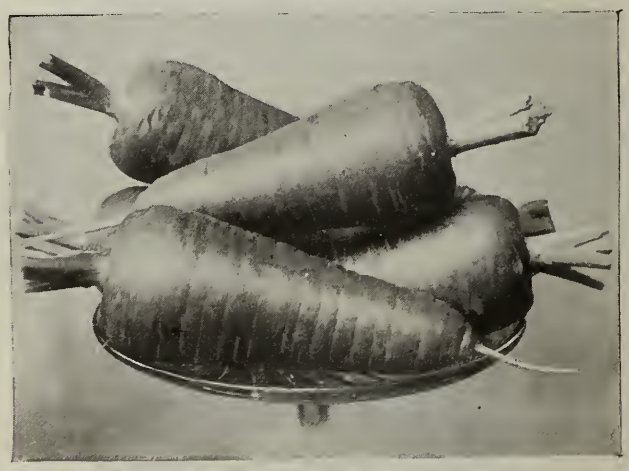
No. 362 Carters Golden Ball.

No. 363 Carters Improved Early Horn. *No. 366 Carters Early Market.* *No. 365 Carters Long Forcing.*

No. 362 **Carters Golden Ball.**—A most distinct and small early variety, specially adapted for forcing and frame work. The roots are almost as round as a turnip, flavour excellent and melting. Awarded First Prize as the best early Carrot, R.H.S. Great Autumn Exhibition, included in 4 Gold Medal Exhibits.

363 **Carters Improved Early Horn.**—A perfect type of stump-rooted Carrot, of excellent flavour. Our Gold Medal Display of Vegetables contained splendid specimens of this fine type.

365 **Carters Long Forcing.**—A handsome long Carrot, with the same depth of colour and firmness of texture in its earliest stages as other Carrots possess in their later growth. "This forcing Carrot is one of the most distinct and valuable that we possess, and when better known it is sure to be extensively grown. It is the quickest variety that I know of, and makes but very little top, and the quality is excellent. As a Carrot coming into use early in the year, and for exhibition, it is an acquisition."



366 **Carters Early Market.**—Fine early variety of good colour, quick in growth, valuable alike for market gardeners or private use. Splendid specimens were exhibited in our Gold Medal Exhibits at Chelsea and Leamington; Gold Medal awarded at York Gala Show.

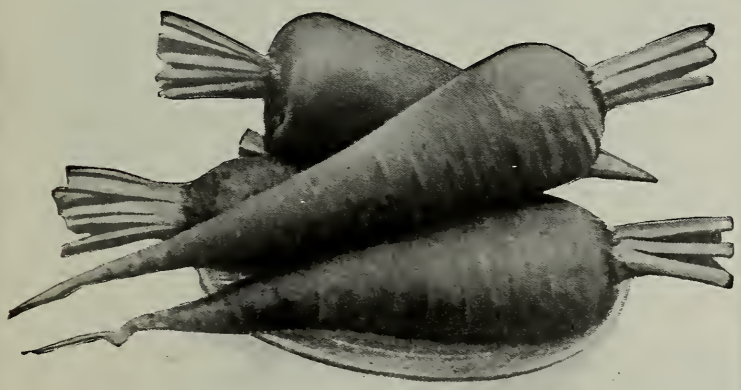
376 **Carters Summer Favourite.**—Awarded Royal Horticultural Society's Silver Medal. A splendid half-long, producing handsome, well-grown, bright cochineal-scarlet Carrots very early in the season. The quality is superb, and as an exhibition variety coming into use early it will be found invaluable for showing in the summer months. 67 First Prizes reported in one season. 3 Gold Medals awarded to Exhibits containing *Summer Favourite.*

Price of the above ..	⅛ oz.	½ oz.	1 oz.	¼ lb.	1 lb.
	.10	.25	.40	1.25	4.50

CARROTS—*Continued.*

No.
377 **Carters Red Elephant.**—A veritable giant, both in length and rotundity. Specimens have been exhibited at our establishment measuring 2½ ft. in length (30 in.). It has been brought to this high standard of perfection by one of the best professional gardeners, from whom we originally acquired the whole stock. A remarkable variety, and one which has already become prominent in first-class gardens and on the exhibition table.

387 **Carters Re-selected Danvers Half Long.**—This superior strain of seed is the result of years of careful study, and by rigorous selection under the well-known "Carter" method. By continual re-selection we are this spring able to offer to our customers the heaviest cropping, best sized and shaped strain of the *Danvers Half Long* Carrot ever placed before the public.



379 **Carters Scarlet Perfection.**—Awarded a Special Certificate of Merit at the Vegetable Conference of the Royal Horticultural Society and awarded First Prize, R.H.S. Great Autumn Exhibition, 1905; included in the Champion Exhibit of Vegetables (open to the world), and, also in the large Gold Medal Exhibit, Shrewsbury, 1912. A distinct and greatly improved form of Garden Carrot. Flesh is solid, crisp, and fine flavoured.

370 **Nantes.**—Stump-rooted. A medium-sized mid-season variety of excellent quality.

Price of the above ..	¼ oz.	½ oz.	1 oz.	¼ lb.	1 lb.
	.10	.20	.35	1.20	4.00

382 **Carters Long Scarlet.**—Splendid long stock of good colour.

384 **Carters Orange Giant.**—Yellow Carrot of large size.

378 **Carters Selected Intermediate.**—The best type of *Intermediate* Carrot.

Price of the above	¼ oz.	1 oz.	¼ lb.	1 lb.
	.10	.25	.85	2.75

CAULIFLOWER.—*The Cultivation of Cauliflower.*—For the earliest Cauliflower sow the seed in hotbeds or greenhouse during February or March and transplant to flats or cold frames 2 or 3 in. apart each way. Set in the open ground as early in the spring as the ground can be properly worked. Plants should be 2½ ft. apart each way. The soil should be warm, very rich, and fibrous, with an abundance of humus and moisture. A copious supply of water during the dry spells, especially during the heading period, will help. For late Cauliflower start plants in the open ground and treat as late Cabbage. When the heads have formed they should be blanched by drawing the leaves together and tying. 1 oz. of Cauliflower seed will produce 3,000 plants.

No.
393 **Carters Forerunner.**—The quickest Cauliflower ever grown. Ten days earlier than others. Large white head, solid, and good size. Sow in middle of February, transplant when first leaves drop, under glass, plant in open ground end of May, and the first heads will be ready by the middle of June. The leaves protect the head from the summer sun. Included in the First Prize and Champion Exhibit of Vegetables, Shrewsbury, 1912, and also a feature of the Large Gold Medal Exhibit at the same critical meeting. Staged in five Gold Medal Exhibits during 1914.

395 **Carters Defiance Forcing.**—This superb variety is, without doubt, one of the finest forcing varieties ever introduced; produces fine solid heads. In perfection during early summer.

Price of the above ..	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ lb.
	.30	1.00	1.75	3.25	12.00

399 **Dry Weather** (*Danish Giant*).—One of the very best varieties; especially adapted for growing in dry locations.

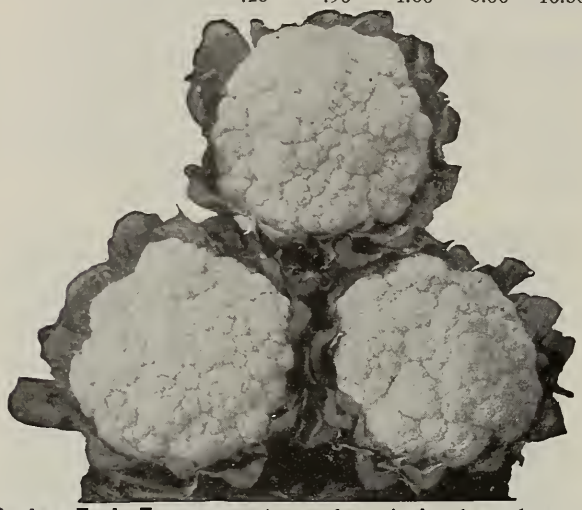
404 **Carters Extra Early Autumn Giant.**—This magnificent Cauliflower is more dwarf, considerably earlier, and in every respect better than the old *Autumn Giant*. It produces enormous snow-white heads, and is admitted to be the largest and the earliest of the giant forms that are of such value during September and October. We have records of 332 First Prizes having been won by customers.

Price of the above ..	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ lb.
	.25	.90	1.50	2.75	8.50

CAULIFLOWER.—*Continued.*

No.
398 **Snowball.**—This is an old, well-known variety which we can strongly recommend to the American gardener. It is valuable for forcing under glass for a winter crop, and equally valuable for outdoor work, and consequently much esteemed by both private and market growers. It has a compact, upright habit, and forms fine white, hard heads. Sow under glass in February, transplant after frost for cutting in June, or sow out of doors in the third week in May and transplant in July.

Price of the above ..	1/16 oz.	1/4 oz.	1/2 oz.	1 oz.	1/4 lb.
	.25	.90	1.60	3.00	10.50



394 **Carters Early Emperor.**—A superb strain for the early summer. A giant Cauliflower for outdoor work, coming in midway between *Carters Forerunner* and *Carters Autumn Giant.* The Royal Horticultural Society's report reads:—"CARTERS EARLY EMPEROR. —Plants dwarf, sturdy, with semi-protecting foliage; heads medium to large in size, firm, and of excellent shape."

405 **Carters Mont Blanc.**—Magnificent snow-white heads, well-protected by the leaves; one of the best for soils of a heavy or retentive nature.

410 **Extra Selected Early Dwarf Erfurt.**—The finest strain of the Erfurt Cauliflower; almost as early as the *Snowball,* producing very solid, pure white heads of the very finest quality; seldom fails to form a good sized head.

Price of the above ..	1/16 oz.	1/4 oz.	1/2 oz.	1 oz.	1/4 lb.
	.20	.60	1.00	1.75	6.00

415 **Autumn Giant.**—Well known. One of the most popular Cauliflowers in cultivation, succeeding immediately our *Extra Early Autumn Giant.* Heads of enormous size and fine texture.

418 **Walcheren.**—A splendid mid-season variety, with solid large white heads.

Price of the above	1/16 oz.	1/4 oz.	1/2 oz.	1 oz.	1/4 lb.
	.15	.45	.75	1.25	4.50

CELERY.—*The Cultivation of Celery.*—For earliest crop sow in February under glass or on a mild hotbed. Prick out on bottom heat when ready and transfer to trenches in May or June. For main crop sow in March or April, and in June or July, when plants are large enough, transplant to trenches, preparing the same by bottoming with good rich loam. Water liberally during July and August; earth up gradually during August and September. Lift late in November, and for winter storage place upright on damp soil in a cellar or root house. Pack closely. 1 oz. of seed will produce 3,000 plants.

No. **WHITE CELERY,**

424 **Carters Solid Ivory.**—One of the most remarkable features of *Carters Solid Ivory* Celery is its extreme dwarf compact habit and beautiful white colour. If the heads are tied with a little rough matting, the same as with Cos Lettuces, it will assist not only in keeping the Celery perfect, but also to exclude superabundant moisture. We have records of no less than 411 First Prizes awarded this variety during the past few seasons in open competition.

434 **Golden Self Blanching.**—The best early variety, largely grown for early market. Stalks solid and crisp, with a nutty flavour.

Price of the above	1/16 oz.	1/4 oz.	1/2 oz.	1 oz.	1/4 lb.
	.15	.45	.75	1.25	4.50

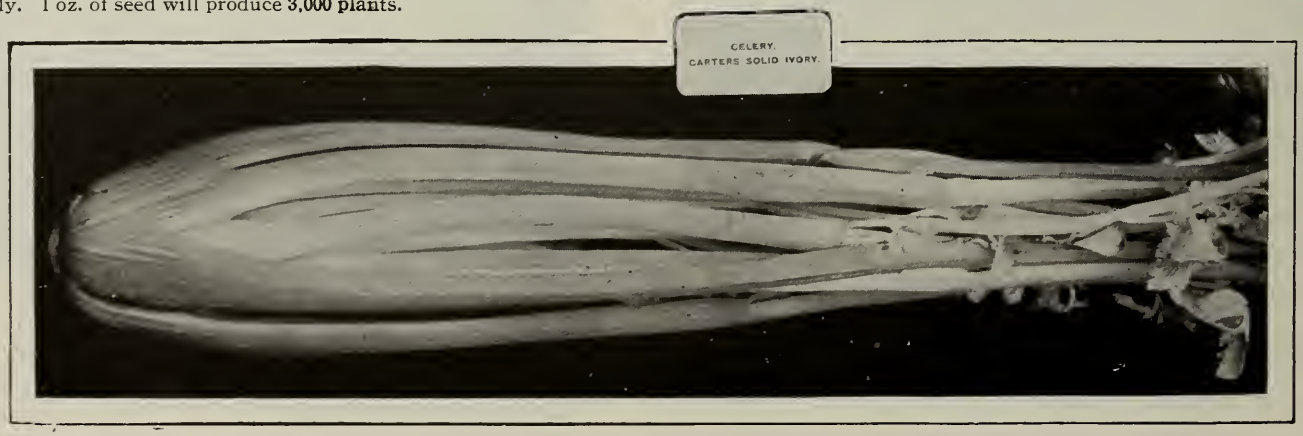
425 **Carters Incomparable Dwarf White.**—Useful variety; stiff compact habit.

433 **Boston Market.**—The finest flavoured variety in cultivation. Blanching pure white, crisp, and solid. A splendid keeper.

429 **Henderson's White Plume.**—Inner leaves being naturally white, little blanching is required.

431 **Wright's Grove Giant White.**—Useful for general cultivation; sweet and juicy.

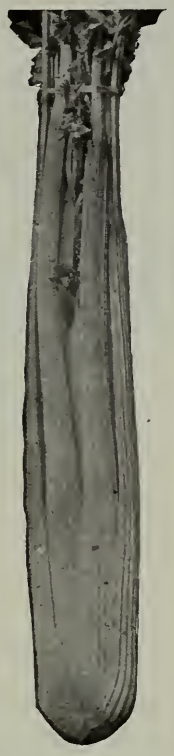
Price of the above ..	1/16 oz.	1/4 oz.	1/2 oz.	1 oz.	1/4 lb.
	.10	.30	.50	.75	2.50



No. 424 Carters Solid Ivory Celery (described above).

CELERY.—*Continued.*

RED VARIETIES.



No. 440 Carters Incomparable.

No. 442 Carters Giant Pink.

No.

440 **Carters Incomparable Crimson.**—A dwarf-growing rich-coloured Celery, of clean and refined appearance, very crisp eating, and of delicious flavour. 241 First Prizes reported during the past few seasons. This fine variety was exhibited in no less than 4 Gold Medal Exhibits of Carters Vegetables during 1913.

442 **Carters Giant Pink.**—A superb large-growing variety specially recommended for exhibition. Heads of this variety formed part of the Champion Exhibit of Vegetables (open to the world), Shrewsbury, 1912, and it is also included in the large Gold Medal Exhibit at the same Show, being greatly admired. During 1913 it was included in 3 separate Gold Medal Exhibits of Carters Vegetables.

451 **Winter Queen.**—Of medium height, broad, light green stalks; very solid and crisp; blanches well.

452 **Giant Pascal.**—A large green-leaved variety, and one of the very best for winter use; stalks of medium height, very thick, and blanches beautiful yellowish-white.

Price of the above ..	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ lb.
	.15	.25	.45	.80	3.00

432 **Celeriac, Carters Improved** (*or Turnip-rooted Celery*).—Pure white root, refined flavour. It is becoming popular in this country, owing to the more frequent contact nowadays of the American people with French dishes. Seeds should be sown in pans in March, and the plants set out in narrow trenches to mature.

Price of the above ..	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ lb.
	.10	.15	.25	.40	1.25

450 **Celery Seed** for flavouring soups ..	⅛ oz.	1 oz.	¼ lb.	1 lb.
	.05	.10	.35	1.00

SWEET CORN.—

When ordering to be sent by mail add postage at zone rate. Average weight, 1 pint equals 1 lb.; 1 quart equals 2 lb.

The Cultivation of Sweet Corn.—Plant in a rich, warm soil, in rows 3 ft. apart for early sorts and 4 ft. apart for the late sorts. Place hills 2 to 3 ft. apart in the rows. The seed is liable to rot if planted in wet or cold ground. Yet, if we have an early warm period in spring it often pays to take some risks, as the plants, when once up, will often escape injury from belated frosts. May 15th is early enough to plant for seasonable crops. For succession plant every two weeks to July 15th. 1 quart of seed will plant 200 hills 8 to 10 quarts to an acre.

No. 501 Burpee's Golden Bantam.

No.

501 **Burpee's Golden Bantam.**—An extremely early variety, of a rich golden colour and delicious flavour; of excellent quality. No garden is complete without this sort.

Price of the above	¼ pint.	½ pint.	1 pint.	1 quart
	.15	.25	.40	.75

502 **Peep o' Day.**—This Corn is at least 10 days earlier than any other sort, bearing ears of fine quality, averaging 6 in. in length. Stalks are small, and can be grown close together.

503 **Quincy Market.**—An early variety, of superior quality. The ear is very large and full. It is a 12-rowed variety.

506 **Early White Cory.**—Similar to the Red Cory, but with white kernels.

507 **Mammoth White Cory.**—Quite as early as the other Cory Corns, with ears twice the size. Is sugary and in great demand.

508 **Black Mexican.**—The sweetest Corn in cultivation. When ripe this Corn is almost black, but is almost white when ready for the table. Ripens medium early.

No. 500 Carters Improved.

No. 504 Early Crosby.

500 **Carters Improved Sweet Corn.**—An extra early variety. Good white cob closely filled with deliciously flavoured grains. Ht. 4 to 5 ft.

504 **Early Crosby.**—This variety continues to satisfy year after year and is quite unrivalled when ripened ears are compared.

509 **Potter's Excelsior.**—Considered the best main crop Corn grown. The ears are medium in size, and well filled with white, juicy kernels. A 12-rowed sort, and very productive.

510 **Country Gentleman.**—Of all late varieties this is the richest flavoured. Has a deep grain and small cob; the kernels are large, tender, and milky, and lie in irregular rows on the cob.

511 **Stowell's Evergreen.**—A very handsome, tender, and sugary sort. The standard late variety, with very large ears of 12 to 16 rows, which remain fit for use longer than any other Corn grown.

512 **Late Mammoth Sugar.**—Produces very thick mammoth ears, with rows of large, broad kernels, of excellent texture. It follows *Stowell's Evergreen* into maturity.

Price of the above ..	½ pint.	pint.	quart.	peck.
	.15	.35	.60	4.00

FIELD CORN.—*The Cultivation of Field Corn.*—For field varieties, when planted in hills 2 ft. apart, use 10 to 12 qts. to the acre; for fodder and ensilage, when planted in hills use 1½ bushels per acre. When planting Corn for soiling purposes plant at the rate of 3 to 4 bushels broadcast.

No.
516 **Angel of Midnight.**—An 8-rowed yellow flint, of excellent type. Ears long, kernels long and deep glossy yellow.

514 **Brewer's Yellow Dent.**—A valuable new dent variety. Has excellent general qualities; is a splendid ensilage sort, and well suited to southern New England.

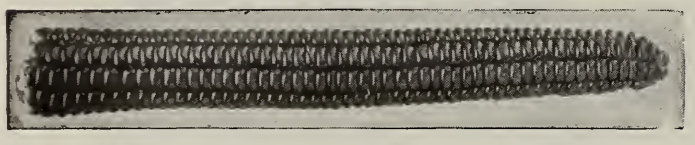
515 **Early Yellow Canada.**—An early 8-rowed flint variety, with deep kernel and small cob. Rarely failing to produce a good crop.

516 **Early Mastodon.**—The earliest large-eared dent variety known, will ripen in 95 to 100 days; a heavy yielder of extra quality; very hardy, of medium height, and a strong grower.

517 **Improved Leaming.**—An early heavy long-eared sort, maturing in 100 to 120 days. Habit medium tall foliage, heavy; a splendid ensilage variety, and much relished by stock. Cob small and red; kernels deep and bright yellow.

518 **Eureka Ensilage.**—A tall-growing variety, and extensively grown for ensilage and fodder.

519 **Early Sandford.**—A New England standard variety. Medium size ears, about 10 in. long, 8-rowed, with large broad kernels of a white flint colour. A splendid fodder and ensilage variety.



520 **Longfellow.**—A yellow flint 8-rowed variety, kernels large and broad, small cob; a very heavy yielder, and especially adapted to New England.

521 **Pride of the North.**—Very early dent, maturing in 90 to 100 days, and can be absolutely relied upon. It can be grown with great success in the north. Ears of good size, kernels long, colour deep yellow, 12 to 16 rowed.

522 **Sweet Fodder**—Very succulent and nutritious as green fodder, and very useful for soiling or ensilage.

523 **White Southern.**—A standard ensilage and fodder corn, and in much demand in southern New England.

Price of the above ..	quart	½-peck.	peck.	bushel.
	.30	1.00	1.75	6.50

CRESS.—*The Cultivation of Cress and Mustard.*—Two of the most popular salad plants in cultivation. Easily grown during the winter on the greenhouse bench, in frames, pots, or boxes. Sow the seed very thickly in rows 3 to 6 in. apart, under glass for summer use; the rows should be 1 ft. apart in the open ground. Make successive sowings. 1 oz. of cress will sow 100 ft. of drill. 1 oz. of mustard 40 ft. of drill.

539 **Plain or Common.**—For early salads.

540 **Curled or Pepper Grass.**—Ordinary stock

541 **American or Upland Cress.**—A perennial sort, with a taste similar to Watercress.

Price of the above	¼ oz.	1 oz.	¼ lb.	1 lb.
	.05	.15	.45	1.50

542 **Watercress.**—Watercress may be successfully grown from seed if sown in a shaded border and kept well watered when started.

Price of the above ..	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ lb.
	.15	.25	.40	.70	2.50

CUCUMBER.—*The Cultivation of Indoor Cucumber.*—English Forcing or Frame varieties for winter use must be started under glass early in September, in pots or pans, keeping the seed pans shaded from strong light until the seedlings appear. When established, transplant to the permanent position in hotbeds or greenhouse, in a well-prepared soil, and supply freely with lukewarm water and light liquid manures; or sow in a pot or pan during February or March in heat for summer use, keeping the seed-pan shaded from strong light until the seedlings appear, then transplant to well-prepared hot-bed or other position, when the plants are sufficiently established. If intended for cold-frame culture the plants must not be put out until all danger of frost is past.

ENGLISH FORCING OR FRAME.

456 **Carters Model.**—One of the handsomest Cucumbers grown, embodying the fine form and general characteristics of *Tender and True* with the prolific habit and strong constitution of the *Telegraph*. Perfect in outline, with scarcely any neck, and of fine flavour, this variety has become popular both for exhibition and table purposes. Splendid specimens of this fine Cucumber were conspicuous in the First and Champion Prize Exhibit of Carters Vegetables (open to the world) at Shrewsbury Show, 1912. The Large Gold Medal Exhibit at the same Exhibition also contained some remarkable fruit of this variety. 229 First Prizes reported by customers during the past few seasons.

CUCUMBER, ENGLISH FORCING—*Continued*

No. 456 Carters Model Cucumber, described in previous column.

457 **Carters Improved Telegraph.**—Our highly-selected stock is the finest available of this popular variety. Unquestionably one of the best winter Cucumbers; indispensable for forcing, and a great cropper.

459 **Carters Ideal.**—Raised by that champion cultivator, Mr. E. Beckett, head gardener to the Hon. Vicary Gibbs. It is quite an aristocratic variety, in colour, shape, and flavour. It gained a Cultural Commendation after growth at Wisley. 12 First Prizes reported by customers during 1914.

The seeds of these very choice varieties are saved with great care from plants sown under glass.

Price of the above ...	10 seeds.	25 seeds.
	.25	.50

OUTDOOR VARIETIES.

The Cultivation of Outdoor Cucumber.—For early use sow April 1st in hotbeds, upon inverted grass sods, so that they can be readily transplanted to the open ground in rich soil when all danger of frost is past. For outdoor cultivation sow the seed when the weather becomes settled and warm, in hills from 4 to 6 ft. apart each way. Thin out to four of the strongest plants to a hill after danger from insects is over. These plants exist best in a warm, moist, rich, loamy soil. Continue planting at intervals for a succession. Cucumbers should be gathered when large enough for use, whether required or not, because if left to ripen they spoil the productiveness of the plant. For pickles plant in June and July. 1 oz. of seed will plant 50 hills, 2 lb. to the acre.

487 **Improved Early White Spine.**—An excellent variety, which produces an early crop of crisp, tender, well-flavoured Cucumbers. They are a light green in colour, with white spines of a medium size.

Price ...	⅛ oz.	1 oz.	¼ lb.	1 lb.
	.10	.25	.75	2.50

CUCUMBER, OUTDOOR—*Continued.*

No.
480 **Carters Outdoor.**—The longest hardy Cucumber. Fruit of a good shape and colour, and of fine flavour.

492 **Davis Perfect.**—Excellent variety, of good habit; colour dark green. 10 to 12 in. long.

488 **Arlington White Spine.**—A strain of *White Spine* that has been improved through careful selection with a few of use for starting in hothouse or frames.

489 **Japanese Climbing.**—Can be grown on a trellis for decoration; very prolific.

491 **Improved Long Green.**—This is a late sort, of great length, and the fruit is very crisp and tender.

483 **Carters Prickly Ridge.**—A hardy variety, of easy culture

485 **Gherkin.**—Very extensively used for pickling.

490 **Everbearing.**—Of medium size, good shape, early and productive.

482 **Carters Miniature Cluster.**—The best for pickling or salad.

493 **Paris Pickling.**—Fruit very long, prickly, and a deep rich green in colour.

494 **Chicago Pickling.**—Very crisp and tender.

Price of the above	⅓ oz.	1 oz.	¼ lb.	1 lb.

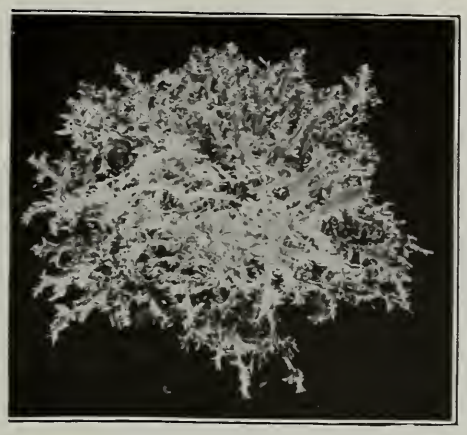
Order Carters Tested Seeds by Number and Price only.

ENDIVE.—Two First Class Certificates awarded by the Royal Horticultural Society for our stocks of Endive.

The Cultivation of Endive.—Sow for early crops in middle of April, and for succession to beginning of August; thin out to about 10 in. apart. A simple method of blanching is to put an inverted pot over each plant and cover it with leaves or straw. 1 oz. of seed will sow 150 ft. of drill.

555 **Carters Model.**—The most beautiful and perfect form of Curled Endive yet introduced. It is exceedingly ornamental, of a distinct colour, and bleaches admirably. *Carters Model* Endive was greatly admired in our Gold Medal Collection of Vegetables at the Royal Horticultural Society's Exhibition in Chelsea Gardens, May, 1913.

Price of the above ..	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ lb.
	.10	.15	.25	.45	1.50



No. 559 Carters Green Curled.

No.
559 **Carters Green Curled.**—Dwarf, and beautifully curled.

556 **Carters White Endive.**—Superbly curled and laciniated; easily blanched, very tender.

OVAL OR PLAIN-LEAVED.

567 **Carters Round-leaved Batavian.**—Very compact and hardy; forms good heart.

568 **Green Batavian or Escarolle.**—Tender broad leaves, crisp; of good flavour.

Price of the above ..	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ lb.
	.10	.15	.25	.45	1.50

EGG PLANT.—*The Cultivation of Egg Plant.*—Sow in gentle heat early in April, transplant towards the middle of June, setting the plants 3 ft. apart each way. 1 oz. of seed produces about 1,500 plants.

574 **Black Beauty.**—Fruit jet black; good form and solid.

575 **N. Y. Improved.**— A splendid market variety; fruit large.

576 **White Egg.**—The small white variety; of good flavour.

Price of the above	⅛ oz.	¼ oz.	½ oz.	1 oz.
	.15	.25	.40	.75

KOHL RABI or **KNOL KHOL.** A useful vegetable, not nearly so much cultivated in this country in gardens as it would be were its merits known. Used as a substitute for Turnips, especially in hot dry seasons. The bulb grows entirely out of the ground. Included in our Gold Medal Exhibit at York Gala Show, 1914.

The Cultivation of Kohl Rabi.—Prepare a breadth of good, well-manured soil. Drill the seeds in rows, about 15 in. apart, in May, and thin out to about 9 in. apart. They are ready for use when they attain the size of a small Turnip. 1 oz. of seed will sow 150 ft. of drill.

Varieties.—There are two varieties in general cultivation, the white and the purple.

582 **Carters Earliest White.**—Garden Kohl Rabi.

583 **Carters Earliest Purple.**—Garden Kohl Rabi.

Price of the above ..	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ lb.
	.10	.15	.25	.45	1.50

LEEK.—*The Cultivation of Leek.*—Sow early in April, and transplant early in July into trenches of well-manured soil, say 1 ft. in depth, and 1 ft. 8 in. between the plants. In warm weather liberal dressings of liquid manure will be of service, and the plants should be afterwards carefully earthed up to blanch the stems. For exhibition, sow in January in boxes under glass, and transplant as early as the ground can be worked into rich soil. 1 oz. of seed will sow 100 ft. of drill.

No.
637 **Carters Holborn Model.**—The best both for exhibition and table. The stems are remarkably solid, not quite so long as *Carters Selected Musselburgh*, of the clearest white colour, whilst the flavour is exceedingly delicate. It was a conspicuous feature in the First Prize and Champion Exhibit of Vegetables (open to the world), Shrewsbury, 1912; and also included in the Large Gold Medal Exhibit at the same show. Since then it has been conspicuous in many Gold Medal Collections throughout the country. 375 First Prizes reported by customers.

638 **Carters Selected Musselburgh.**—A splendid selection of this well-known and popular variety; grows to large size, and is recommended for exhibition.

639 **The Lyon Leek.**—A very popular large variety; widely grown and takes many of the leading prizes each year.

641 **Carters London or Broad Flag.**—Quick growing; for early use.

643 **Henry's Prize.**—Late variety; of large size; very hardy.

Price of the above	¼ oz. .15	½ oz. .25	1 oz. .40	¼ lb. 1.50

Order Carters Tested Seeds by Number and Price only. This will save you time and expedite your order.

LETTUCE.—*Cultivation of Lettuce.*—Sow the seed in hot beds during February or early March. As the seedlings appear prick them into flats or cold frames, leaving several inches between the plants for growth. As soon as a nice, rich warm spot can be worked in the open, transplant the sturdiest plants in rows 1 ft. apart and leaving 8 to 12 in. between the plants in the rows. For a succession of growths sow the seeds very lightly in open ground and thin the plants to 6 in. or more apart. Do this as often as one bed is rid of its result. Some varieties will do very well during the winter in a cool forcing house. 1 oz. of seed will produce 3,000 plants.

CABBAGE-HEADED VARIETIES.

588 **Carters Butter Ball.**—A new and excellent variety, suitable for the open ground, producing heads of large size and very solid. When fully matured the heart is blanched to a clear white. Strongly recommended.

Price ...	⅛ oz. .10	¼ oz. .15	½ oz. .20	1 oz. .35	¼ lb. 1.25

LETTUCE, CABBAGE-HEADED VARIETIES— *Continued.*

No.
589 **Carters Holborn Standard.**—A Lettuce of extraordinary size and duration. It forms well-developed heads in its early stages, and is one of the very last to start for seed. Its leaves are crumpled and crisp, whilst it is very tender and of excellent flavour, and will provide an abundance of salad during the hottest summer. 161 First Prizes reported during the past few seasons. The Royal Horticultural Society, reporting its trials at Wisley, says:—"CARTERS HOLBORN STANDARD.—Hearts large, solid, crisp, good flavour, with crumpled outer leaves tinged with brown. This variety stood the drought well without running to seed." Our *Holborn Standard* was included in 6 Gold Medal collections at important Exhibitions.

598 **Carters Perpetual.**—Award of Merit, R.H.S. This is a large handsome Cabbage Lettuce equally suitable for forcing and for open ground. Its great attraction to us is its resistance to drought. It produces very fine heads of a lively green colour, and retains its crisp and tender flavour to the last, its deeply crumpled leaves giving it great substance. 23 First Prizes reported last season. The Royal Horticultural Society, reporting its trials at Wisley, says:—CARTERS PERPETUAL.—Foliage beautifully curled; a fine stock." Some very fine specimens of this variety were contained in the 4 Gold Medal Exhibits of Carters Vegetables during 1913 and 3 Gold Medal Exhibits in 1914.

615 **Belmont Forcing (or Hothouse).**—Largely grown as a forcing sort in the East, and is not suited to outdoor culture. Similar to *White-seeded Tennisball*, but is decidedly larger; a duller green in colour and a trifle later.

Price of the above ..	⅛ oz. .10	¼ oz. .15	½ oz. .25	1 oz. .40	¼ lb. 1.50

LETTUCE, CABBAGE-HEADED—*Continued*

No.
593 **Carters All the Year Round.**—This is a superb stock, the heads being very solid, white and crisp, and slow to run to seed.

608 **Big Boston.**—Very large, tender heads, splendid for both indoor or outdoor culture.

591 **Carters Green-fringed.**—Of a very delicate and peculiar shade of green, inner parts of the leaves being white; the edges are prettily fringed and serrated, the appearance being very striking and pleasing. Useful summer variety. Exhibited in the Gold Medal Exhibit (all Carters Vegetables), R.H.S. Holland House Show, 1913.

609 **May King.**—Heads of globular shape, firm and close; colour light green, ribs delicate, and waved centre is of a light yellow and very tender.

592 **Carters Round-leaved.**—A hardy flat-shaped variety that can be sown at almost any season. The heads are very compact and firm, solid, and white; slow to run to seed. In our own trials we have repeatedly seen this variety standing firm when others have bolted. This fine variety was included in 3 Gold Medal Exhibits during 1913.

591 **Carters Green Fringed.**—A delicate and very crisp inner leaves; white and of excellent flavor.

596 **Continuity.**—Distinct brown-tinged variety; useful for hot dry seasons.

597 **Early Paris Market.**—Quick growing; for framework is one of the best; distinct tinted edge.

603 **Improved Drumhead.**—Grows to large size; colour light green.

612 **Grand Rapids.**—An open cabbaging type, producing a large quantity of leaves, which can be used for salads in a very early stage before hearting varieties are ready.

610 **Black Seeded Tennisball.**—A standard sort of excellent form, being tender, crisp, and compact.

611 **White Seeded Tennisball.**—Very early; a good forcer; tender and crisp, free from bitterness.

613 **Iceberg.**—A large solid-headed very crisp kind, the hearts of which under moderate cultivation weigh from 2 to 3 lb.

	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ b.
Price of the above ..	.10	.15	.25	.40	1.25

COS OR ROMAINE VARIETIES.

617 **Carters Giant White Cos.**—This remarkably fine Lettuce becomes more popular every season, and is without doubt the best and finest flavoured Cos Lettuce in cultivation. Owing to the self-folding habit it possesses, no tying is required. The heads are very solid and crisp eating. It does not run to seed as quickly as other Cos varieties. 57 First Prizes reported by customers during one season. Awarded 4 Gold Medals and a Silver Cup, and this fine Lettuce was staged in 2 Gold Medal Exhibits during 1914.

No. 624 Carters Jumbo Cos, described in next column.

	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ lb.
Price of the above ..	.10	.15	.25	.40	1.25

LETTUCE, COS VARIETIES—*Continued.*

No.
624 **Carters Jumbo Cos.**—A distinct summer Lettuce of enormous size. During the hottest period of the year we have seen this Lettuce standing as firm as a rock, and many of the heads when fit to eat weighed from 5 to 6 lbs. each. The Royal Horticultural Society, reporting its trials at Wisley, says:— "Foliage deep green; hearts immense; solid. Excellent flavour. Stood the drought well. Ready July 1st. The largest Lettuce in the collection (39 varieties)." 49 First Prizes were reported by our customers in 1914 Awarded 3 Gold Medals.

627 **Paris White Cos.**—Fine useful summer variety, good solid white hearts.

629 **Superb White Cos.**—Fine large-hearting variety, blanches well, very crisp.

Price of the above ..	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ lb.
	.10	.15	.25	40	1.25

MELON.— *The Cultviation of Melon.*—Sow for first crop in January, and plant when ready into pits or on slabs filled with good maiden loam and well-rotted manure, adding a dressing of fine soil to the surface and bringing the plants as near the light and glass as possible. It is essential that a regular temperature be secured rather than a high degree of heat. Keep a moist buoyant atmosphere during growth, and give air freely when fruit is ripening, checking the supply of water to develop flavour The frame varieties are sown later, and kept under glass until the season is sufficiently advanced for them to be put out on a warm heap of soil in the frame.

ENGLISH FORCING OR FRAME VARIETIES.

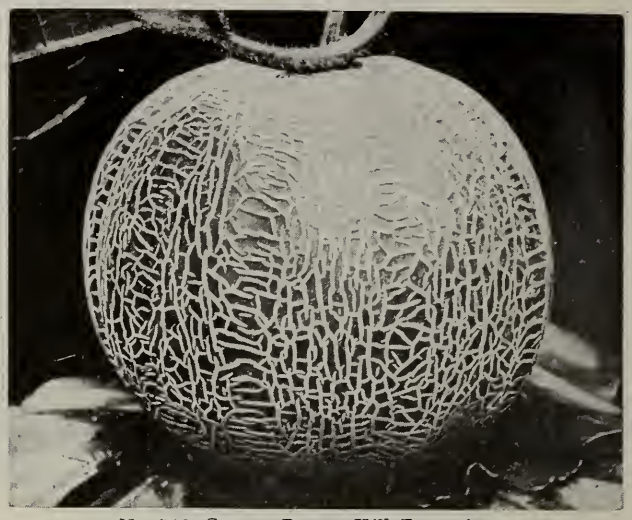
No.
702 **NOVELTY** **Carters Godden Green Queen** (*Photograph above*).—NEW GREENFLESHED MELON. Raised by Mr. F. Woodward, gardener to Mrs. Hudson, Godden Green, Sevenoaks. This fine new variety is a decided acquisition to the green-fleshed Melons. In addition to having an exceedingly handsome appearance it is of remarkable flavour, and has found favour wherever grown. The photograph shows its general appearance, but the delicacy of the netting is more intense. It has all the good qualities of a first-class variety, being a free and easy setter.

703 **NOVELTY** **Carters Delicatesse.**—A new green-fleshed round variety. This superb new Melon was sent out by us for trial during the season 1912 as *King George V.* It has, however, been renamed to prevent confusion with a variety having a similar title. From all quarters we have received most favourable reports, remarking on the excellent constitution of the plants and the delicious flavour of its freely produced and handsomely netted fruits.

712 **King George.**—A new scarlet-fleshed variety, green skin, finely netted large fruits on strong plants.

Price of the above	10 seeds.	25 seeds.
	.25	50

MELON, ENGLISH VARIETIES—*Continued.*



No. 710 Carters Barnet Hill Favourite.

710 **Carters Barnett Hill Favourite.**—A superb white-fleshed Melon. The many gratifying reports received from our customers have amply proved our confidence in introducing this grand Melon, and the demand is equally confirmatory of its merits. It is superbly netted, orange-yellow in colour with white flesh and a splendid flavour; it is free setting and a perfect exhibition variety. The raiser, Mr. A. Mitchelson, states that the Melon has a strong constitution, is a free setter, juicy and splendid flavour, above the average size, with a rich orange colour, handsomely netted, and is a grand exhibition variety.

705 **Carters British Queen.**—This grand cream-flesh Melon is a cross between *Hero of Lockinge* and *Royal Ascot*, and was awarded the First Class Certificate of the Royal Horticultural Society. Pronounced by the Committee to be the very best flavoured white-flesh Melon ever submitted. Also awarded a Gold Medal, Royal Caledonian Horticultural Society, in association with other fruit exhibited from the Royal Gardens, Windsor.

No. 704 Carters Blenheim Orange

No.
704 **Carters Blenheim Orange.**—The best scarlet-fleshed Melon. Awarded the First Class Certificate of the Royal Horticultural Society. The finest flavoured and most popular scarlet-flesh Melon in cultivation. Remarkably prolific, has a grand constitution, is a very fine setter, and may be described as a perpetual bearer, ripening in a short space of time. The fruit is superbly netted, the flesh deep and solid, and a special and distinctive feature is the evenly-defined and thin rind.

Price of the above	10 seeds.	25 seeds.
	.25	.50

The seeds of the above very choice varieties are saved with great care from plants grown under glass.

MUSK MELON. — *Cultivation of Musk and Water Melon.*—Melons succeed the best in a light, rich, sandy soil. Seed should be planted about the first week in May. Plant in hills about 5 or 6 ft. apart each way for Musk Melon, and 8 to 10 ft. apart each way for Water Melon. Each hill should have at least a peck of well-rotted manure mixed thoroughly with the soil previous to planting. Plant 10 seeds to the hill, and when the plants have made a good showing thin out to three or four of the best plants to the hill. 1 oz. of seed will plant 50 hills; 2 to 3 lb. of seed in hills to the acre.

724 **Carters Re-selected Netted Gem or Rocky Ford.**—An oblong, second early sort, very popular. The melons average about 5 in. in length, are of a delicious flavour. Flesh light green.

725 **Emerald Gem.**—An extra early sort. In shape it is round, with a salmon-coloured flesh and an exceptionally fine flavour. The exterior is a dark green.

726 **Miller's Cream or Osage.**—Fruit round and large, with a green netted skin. Salmon flesh. Very tasty.

727 **Extra Early Hackensack.**—Flesh green, very sweet, large size.

732 **Honey Dew.** A very excellent melon, flesh green, with a delicious honey flavor.

729 **Montreal Nutmeg.**—The largest nutmeg sort grown. A fine Melon for either exhibition or home use.

730 **Burrell's Gem.**—Deep orange; otherwise similar to *Rocky Ford.*

731 **Bush Musk Melon.**—Light-green flesh.

Price of the above	¼ oz.	1 oz.	¼ lb.	1 lb.
	.10	.25	.75	2.25

WATER MELON.

737 **Cole's Early.**—A medium-sized very early sort, with a large heart and deep-red flesh of fine texture. Does well in northern gardens.

738 **Mountain Sweet.**—A large, oblong sort, with a dark-green coloured skin and very solid red flesh. This is an early sort and very popular.

739 **Ice Cream.**—This is a round melon, with mottled gray skin and a flesh-pink flesh. Very crisp.

740 **Cuban Queen.**—One of the largest round varieties, with a bright-red flesh. Very melting and sweet.

736—**Sweetheart**—One of the best varieties grown.

741 **Carters Improved Kleckley Sweets.**—The melons measure about 1 ft. 6 in. in length by about 10 in. in diameter. The flesh is bright scarlet, very thick, crisp, and melting. It is an early variety and most suitable for home growing.

742 **Citron.**—Excellent for preserving.

Price of the above	¼ oz.	1 oz.	¼ lb.	1 lb.
	.05	.15	.45	1 25

MUSTARD. — *See Cress for Cultivation Notes.*

649 **Carters Finest White Mustard.**—Very popular for salads.

650 **Brown.**—Very pungent; the seed largely used for grinding.

651 **Chinese.**—Black-seeded; fine pungent flavour.

Price of the above	¼ oz.	1 oz.	¼ lb.	1 lb.
	.05	.15	.45	1.50

SPECIAL NOTICE.

An efficient and practical gardener is as essential to successful gardening as are our tested seeds.

We desire you to know that we are in the position to secure for you the services of the most efficient and practical gardeners, suitable either as superintendents, head gardeners, or assistant gardeners.

Upon receiving information that you are in want of such a man, we will at once put you in touch with the Service Bureau of the National Association of Gardeners, which is maintained for the special purpose of providing opportunities for qualified gardeners. It aims to place in vacant positions men who are fully capable of meeting all the necessary requirements.

Carters Tested Seeds, Inc., and the National Association of Gardeners make no charge for services rendered you through this Service Bureau.

We earnestly invite your confidence and co-operation in this matter.

WC/D CARTERS TESTED SEEDS, Inc

MUSHROOM SPAWN.—*Cultural Hints.*—To grow Mushrooms successfully, the following requirements are essential: Procure fresh stable manure (straw litter manure, not peat litter), shake out well, leaving as little straw as possible; the better the manure the better the bed will bear. After shaking out, stack your short manure closely, as for the preparation of a hotbed, and there let it remain for a week to have a good heating, then turn it over and place what has been outside the heap into the centre. Repeat this turning at intervals of three days (four turnings should be sufficient), and if dry, use water enough to moisten it gradually at each turning; this will get the material into right condition for the beds, as moisture is one of the most important points to study and the right texture of the material depends almost entirely upon this proper state of moisture. If you get your material right in this respect, whatever shape you make your beds, whether flat beds or ridges, you will not be likely to experience any trouble afterwards. The ideal temperature is 55° to 60°, but Mushrooms do come at a much lower temperature; a higher temperature than 60° should be avoided if possible.

After the beds are ready the bricks are each broken into about ten pieces of about equal size. These pieces should be inserted about 2 in. below the surface and about 10 in. apart; the bed should then be gently stamped or compressed. In about 15 days the spawn should have run entirely through the bed. The whole surface should be then covered with about 2 in. of loam and over this place a few inches of straw. Under these conditions the mushrooms should appear in about six weeks and continue to come for a month. One brick of spawn will lay in 9 sq. ft. of bed.

Carters Special "Milltrack" Brand.

No. 690 **CARTERS MUSHROOM SPAWN.**

	1 brick.	4 bricks.	12 bricks.	100 bricks.
Price	.25	.85	1.75	14.00

ONION.—*The Cultivation of Onion.*—The ground cannot well be too rich for this crop, nor the soil in too fine a condition. Sow the seed as early as the soil can be worked though the weather be yet damp and cold. The soil must be made firm before the operation is undertaken in either beds or drills. The seed should be sown thinly and covered lightly, the drills 1 ft. apart, and the young Onions thinned out to about 6 in. apart, according to the variety. In very dry weather a good watering is very beneficial. Growers of Onions for exhibition generally transplant, and this is also a sure means of checking the onion grub, so troublesome in some districts. 1 oz. of seed will sow 100 ft. of drill; 4 to 5 lb. to an acre.

No. 747 **Carters Holborn.**—Equally valuable for exhibition and for table purposes. Perfect in shape, it grows to a large size, and is distinct in colour of skin from other globe varieties. It is a capital keeper, and the delicate flavour approaches that of the imported Spanish Onions sold by grocers and fruiterers.

	⅛ oz.	½ oz.	1 oz.	¼ lb.
Price of the above	.20	.50	.90	3.00

Carters Holborn.
Reduced Photograph.

No. 752 **Carters Selected Ailsa Craig.**—We offer a very fine strain of this popular Onion, which, on account of its enormous size, is in great demand amongst exhibitors of vegetables. It is a good keeper, and is much liked.

753 **Carters Record.**—Continues to hold its prominent position in public favour as the largest globe-shaped Onion in cultivation. It shows a disposition to vary in colour in a small percentage.

763 **Cranston's Excelsior.**—A fine variety, of good shape; suitable for exhibition purposes.

	⅛ oz.	½ oz.	1 oz.	¼ lb.
Price of the above	.20	.50	.90	3.00

749 **Carters Silver Ball.**—A pretty, medium-sized white globe Onion of fine texture and mild flavour. It makes a nice contrast on the exhibition table. Included in our Gold Medal and Silver Cup Exhibit of Vegetables at the Bristol Royal Show, 1913.

750 **Carters Early Wonder.**—A small globe Onion, maturing with great rapidity, thus leaving the ground vacant very early for the next crop; its keeping qualities are also remarkable. Awarded 4 Gold Medals with our other Vegetable Exhibits in two years.

763 **Cranston's Excelsior.**—A fine variety, of good shape; suitable for exhibition purposes.

782 **Carters Golden Globe Tripoli.**—A large variety, similar in size to the *Giant Rocca*. The skin is of a transparent golden-straw colour, and it will be found invaluable in exhibition collections.

783 **Carters Giant White Tripoli.**—Especially suitable for culinary purposes and exhibition; a rather tender Onion on heavy soils; ripens very early.

781 **Carters White Emperor or Improved Italian.**—Unquestionably the finest form of flat Onion in cultivation, with silvery-white skin, and flesh of a most agreeable mild flavour. Included in the Champion Gold Medal Collection of Vegetables Shrewsbury, 1912.

	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ lb.
Price of the above ..	.15	.25	.45	.75	2.50

748 *Carters Long Keeper Onion*

792 *Carters Yellow Globe Danvers*

84 First Prizes reported during the past two seasons

No. 752
Carters Selected Ailsa Craig Onion

Carters Selected Ailsa Craig *(see Photograph above)*.—We offer a very fine strain of this popular Onion, which, on account of its enormous size, is in great demand amongst exhibitors of vegetables. It is a good keeper and is much liked and recommended on account of its acceptable delicate and pungent flavour.

Price of the above ..	⅛ oz. .20	½ oz. .50	1 oz. .90	¼ lb. 3.00

ONION—*Continued.*

No.
755 **Carters Blood Red.**—Splendid deep blood-red colour, of medium size.

754 **Carters White Spanish—A Re-selected Stock.**—Our stock of this popular variety has been carefully selected by us, and is offered as the most perfect form of the Banbury type it is possible to procure. It grows to a very large size, is of a pale yellow colour, and good flavour.

790 **Silver Skin or White Queen.**—Standard white onion for market use—very mild.

780 **Carters Autumn Giant.**—A very large, white-skinned Onion; mild and agreeable flavour.

748 **Carters Long Keeper.**—Will remain sound the year round if properly kept. "I am sending some examples of your Long-keeping Onion, grown in 1900, and it is now October 5th, 1901. Gardeners about here hardly believe it."—J. L., Blackheath.

764 **Carters Pearl Pickler.**—This is the genuine miniature Onion that is preserved in white vingear, and found on the tables at the leading hotels

792 **Carters Selected Yellow Globe Danvers.**—Our stock of this very popular variety has been carefully selected by us from numerous tests in regard to its size, shape, colour, solidity, and flavour, by the Carter method, and we are pleased to say this strain of seed is the most perfect form of a Yellow Globe Onion ever produced. No vegetable garden should be without this Onion.

796 **Prizetaker.**—A large mild white-fleshed Onion. It keeps well and can be used almost all the year round.

794 **Southport Yellow Globe.**—A variety of excellent flavour and good keeping qualities.

Price of the above ..	⅛ oz.	¼ oz.	1 oz.	¼ lb.	1 lb.
	.15	.25	.60	2.00	7.50

793 **Red Wethersfield.**—A variety of exceptional quality and flavour, and a good keeper.

OKRA OR GUMBO.

—*The Cultivation of Okra.*—Early in May the seed should be sown in rows about 3 ft. apart and 2 in. deep. As the plants appear thin to about 1 ft. apart. 1 oz. of seed will plant 40 ft. of drill.

No.
806 **Dwarf Green.**—A very early and tender sort.

807 **Tall Green.**—A heavy producing variety.

Price of the above ..	¼ oz.	½ oz.	1 oz.	¼ lb.
	.10	.15	.25	.85

PARSLEY.

—*The Cultivation of Parsley.*—Sow the seeds thinly in beds any time from February until the end of June. In dry seasons it is an advantage to water the beds, as the seeds will sometimes lie a long while dormant. 1 oz. of seed will sow 150 ft. of drill.

814 **Carters Crested Bouquet, Re-selected.**—This superb variety has again been re-selected and improved by us, and our stock is now without question the most perfect type of Parsley ever offered. Numerous visitors to our Trial Grounds at Raynes Park have freely endorsed our opinion. It is of dwarf, compact habit, the exquisite curl of the leaves giving it a very attractive crested appearance.

Prices	¼ oz.	½ oz.	1 oz.	¼ lb.
	15	.25	.45	1.50

816 **Carters Champion Moss Curled Parsley.**—A very close, handsome variety; both useful and ornamental.

819 **Carters Curled.**—Compact and hardy; beautifully curled.

815 **Carters Emerald Green.**—Award of Merit, R.H.S. This excellent stock of Parsley is becoming very popular, and was picked out by the Committee of the Royal Horticultural Society as being worthy of an Award of Merit. The colour is a very rich deep green; habit taller and more branching than our celebrated *Champion Moss Curled*; it is also very quick in developing, and should prove of great value to market growers.

817 **Carters Perpetual Parsley.**—This splendid variety was introduced by us some years ago and has attained a large sale on account of its excellent quality and its characteristic of being remarkably slow to run to seed. It is rather taller and more branching in growth than our *Crested Bouquet.*

818 **Carters Fern-leaved Parsley.**—Exquisitely perfect in form and colour; quite fern-like, and highly ornamental; for garnishing purposes it is ideal.

824 **Turnip-rooted Parsley.**—Edible roots; esteemed for flavouring soups.

GARDEN PEAS.— *The Cultivation of the Garden Pea.*—The smooth round-seeded extra early varieties of Peas are generally the very first to be sown in spring, and should be sown as soon as the ground is fit to be worked. The wrinkled sorts are not so hardy, and should not be planted before the ground has warmed up to a certain degree. The tall varieties require brush or other suitable support, but by selecting sorts that do not grow over 2 ft. the necessity of providing brush may be eliminated. A careful selection of varieties and a frequent planting for succession will insure a continuous crop of peas from June until the early frosts. The seed should be sown in rows 3 ft. apart and 3 in. deep, and should be planted at the rate of 1 qt. of the smoother sorts to 100 ft. of drill and 1 qt. of the wrinkled varieties to 80 running feet. Cultivate similarly to corn or beans. The taller sorts may be planted in double drills and brush placed between for a support. For best results all garden peas require good, fertile soil and abundant moisture Much success has been attained by the use of only the very earliest dwarf peas by making plantings ten days apart from early spring until the last of July.

When ordering Peas to be sent by mail add postage at zone rates. Average weight, 1 pt. equals 1 lb.; 1 qt. equals 2 lb.

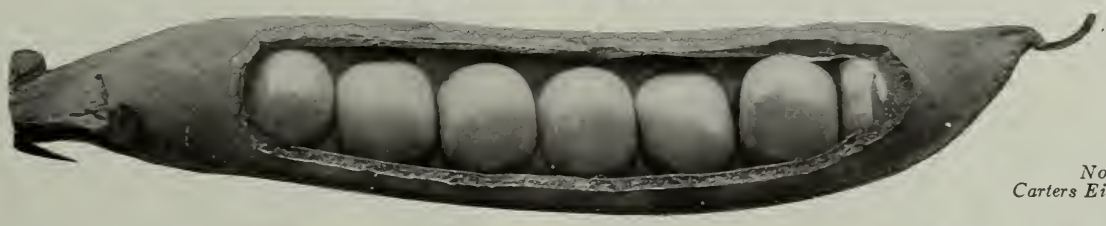
FOR FORCING OR BORDER WORK.

No. 872 **Carters Eight Weeks** (*Green Round.* Ht. 1¼ ft.).—THIS IS THE EARLIEST DWARF PEA IN THE WORLD, proved not only from our own trials, but from the expert reports we receive from time to time. A very hardy Marrowfat, possessing all the good points of the best type *American Wonder*, which was one of its parents. As both a forcing and an early border variety it has become a boon to gardeners whose demands are heavy early in the season.

No. 873 **Carters Forcing Pea** (*Wrinkled Marrowfat.* Ht. 1 ft.).—A valuable Marrowfat Pea for under-glass culture. Its stocky growth is rarely more than 1 ft. in height. It commends itself not only to professional gardeners who are required to produce peas nearly all the year round, but also to amateurs having a greenhouse or vinery doing practically nothing during the winter months, and who can, with this sturdy Pea, raise supplies for their table very early in the year.

	¼ pint	½ pint	pint	quart.
Price of the above	.20	.30	.50	.90

EARLIEST GARDEN PEAS.



No. 872
Carters Eight Weeks.

886 **NOVELTY.**

Blue Express + Duke of Albany
Early Duke

Carters Early Duke (*Wrinkled Marrowfat.* Ht. 3 ft.).—A new and absolutely distinct first early. This unique variety, selected from a cross as shown above, is offered after several seasons' tests both at Raynes Park, and the grounds of the leading growers throughout the country. For quality it is uuequalled, the foliage and pods being of an exceptionally deep rich green, being fit to pick about the same time as *Carters Early Morn.*

881 Daisy + William Hurst
Carters Mayflower

Carters Mayflower (*Wrinkled Marrowfat.* Ht. 1½ ft.).—A superb dwarf first early Marrowfat Pea. A cross between *Daisy* and *William Hurst.* This is a fine variety' with long pointed pods twice the size of *William Hurst* and much more freely produced; being one of the most prolific dwarf peas grown. The vine is robust, possessing the same healthy character as its most famous parent, *Daisy*, with pods of similar character to that variety. Seed wrinkled. Everyone should try this fine introduction, which is most suitable for forcing.

	¼ pint	½ pint	pint	quart.
Price of the above	.25	.40	.60	1.00

No. 886
Carters Early Duke.

No. 899
Carters Snowdrop

899 Early Morning + Express
Carters Snowdrop

Carters Snowdrop (*Wrinkled Marrowfat.* Ht. 4 ft.).—Award of Merit, R.H.S. A cross between *Early Morn* and *Express* (Seedling No. 208). This first early Pea can best be described as an early *Ne Plus Ultra*, having pods similar in shape and colour to that variety. It is a few days later than our *Early Morn*, growing rather taller.

887 **Carters Daffodil** (*Winkled Marrowfat.* Ht. 1½ ft.).—A dwarf and very prolific Marrowfat Pea with the highest possible commendations, being of the rich deep colour of the *Stratagem* type. It is a first early of bushy habit about 1½ ft., obviating the necessity for sticks and rendering it serviceable for borders. Its pods are larger than most of the well-known Peas of the early dwarf class, while the quality and flavour of the pea is delicious. **Supply limited.**

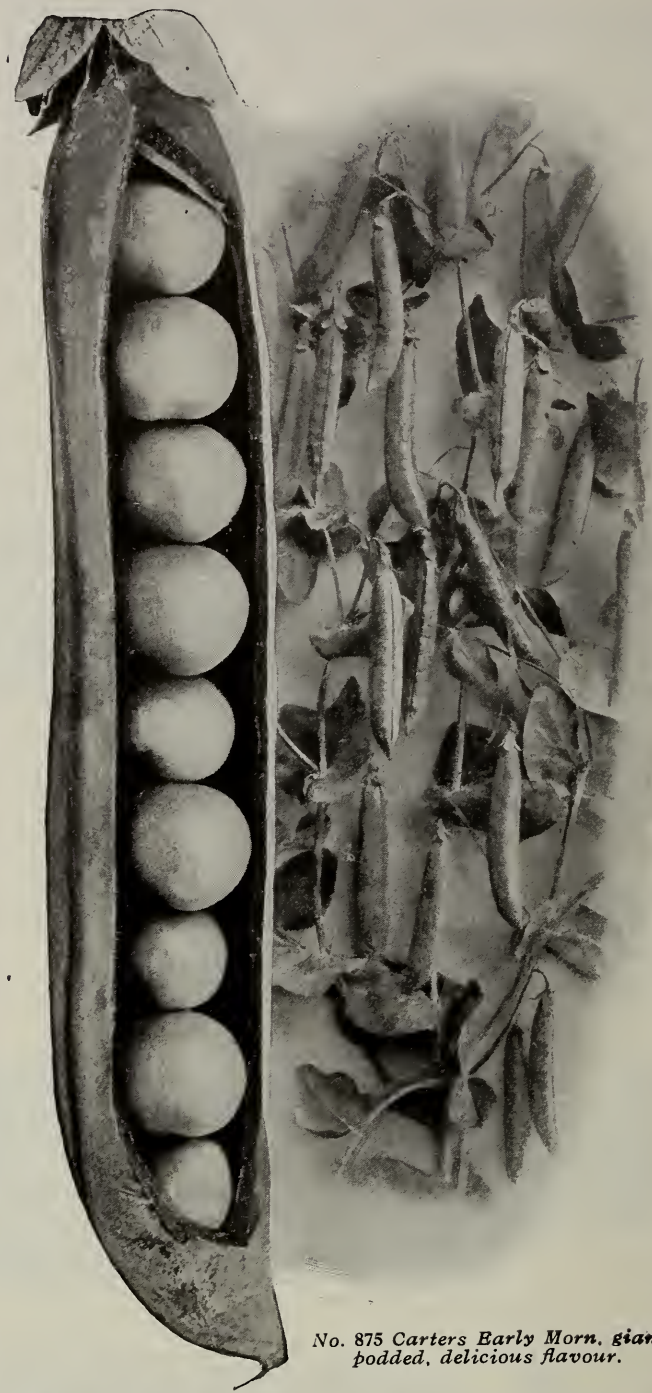
No 898 Little Marvel, Carters Re-selected



No. 875 Carters Early Morn, giant podded, delicious flavour.

No.
898 **Little Marvel, Carters Re-selected** (*Wrinkled Marrowfat.* Ht. 1½ ft.).—One of the best and most popular amongst the early dwarf Peas, bearing a very heavy crop of blunt-ended dark pods, tightly filled with large peas of excellent flavour. An improvement upon the *English Wonder* class. First early green wrinkled.

876 **Laxtonian, Carters Re-selected** (*Wrinkled Marrowfat.* Ht. 1½ ft.).—This fine new Pea has been highly selected by us, and the stock we now offer is saved from deep-green giant-podded plants only. It is very early, closely following *Eight Weeks.* Its deep-green pods are long and curved, and of most excellent flavour; an excellent forcing Pea.

No.
875 **Carters Early Morn** (*see Photograph*) (*Wrinkled Marrowfat.* Ht. 3 ft.).—A Superb First Early Giant Marrowfat. This grand introduction maintains its position as one of the best early Marrowfat Peas ever raised. Although very early, the seed should not be sown until the soil is in a fit state to receive it, as it is a rapid grower. The pods are very large and well filled, and are often ready to pick during June.

"I promised you early in the season to let you know the results obtained in the garden from your Seeds. It is a great pleasure for me, in redeeming my promise, to be able to tell you that there is not a failure to report. The garden—both the vegetables and flowers—has given entire satisfaction: thanks to your Seeds."—W. Owen.

Price of the above	¼ pint.	½ pint.	pint.	quart
	.20	.30	.50	.90

"I am enclosing a small order for Iris, and thought you might be interested to know some of the results obtained from your seeds. From one packet of your *Little Marvel* Peas, planted early this spring, I picked 21 quarts of excellent green Peas. Although my seed requirements are small I always look forward with pleasure to the receipt of your catalogue."—Ray W. Scott, 1215 Presque Isle Avenue Marquette, Michigan.

EARLIEST GARDEN PEAS — *Continued.*

No.
874 **Carters Giant Lightning** (*White Round.* Ht. 3 to 4 ft.).—The new large-podded early white round Pea; hardy.

880 **Carters Giant Blue Express** (*Blue Round.* Ht. 3 to 4 ft.).—Identical in size with *Giant Lightning.* The new large-podded early blue round Pea.

885 **The Pilot, Carters Re-selected** (*Round Seeded.* Ht. 3 ft.).—This well-known variety has been carefully selected by us, and is without question the most perfect stock on the market; it produces large, well-filled, deep-coloured pods, about the size of *Gradus.*

888 **Gradus** (*Wrinkled Marrowfat.* Ht. 4 ft.).—An early large-podded Marrow Pea. Large deep-green pods, good flavour.

883 **Carters Lightning** (*Round Seeded.* Ht. 2½ ft.).—A reselected stock of the earliest white round-seeded Pea.

884 **Carters American Wonder, Re-selected** (*Wrinkled Marrowfat.* Ht. 1½ ft.).—An early dwarf Marrow. Our stock of this variety is highly selected, and is in every way far superior to the older stock, having pods nearly as large again; handsome in appearance with Peas of very fine flavour.

905 **English Wonder** (*Wrinkled.* Ht. 1 ft.).—A popular early Marrow, very prolific; deep green pods; compact.

902 **Earliest of All or Alaska** (*Blue Round.* Ht. 2 ft.).—A well-known extra early round blue Pea, which produces Peas in great quantity. The seed can be planted as soon as the ground is fit to work in spring time.

912 **Notts Excelsior** (*Wrinkled.* Ht. 1½ ft.).—An improved type of *Little Gem,* being as early and pods decidedly larger, and containing 7 to 9 large solid Peas of fine quality.

913 **Excelsior, Carters Dwarf Improved** (*Wrinkled.* Ht. 1½ ft.).—Very early and prolific, producing an abundance of broad pods well filled with Peas of an unsurpassed flavour. Of so hardy a nature that this sort can be planted without fear at the same time as the smooth round varieties. The haulm is very stout, and all in all this is a very near all-round Pea for any garden.

Price of the above	¼ pint.	½ pint.	pint.	quart.
	.15	25	.45	.80

SECOND EARLY GARDEN PEAS.

924 **Carters Daisy** (*Wrinkled.* Ht. 1¼ ft.).—The most famous second early Marrowfat in cultivation. First Class Certificate, R.H.S. This grand dwarf Marrowfat Pea has been before the public for some years, and still stands at the head, as confirmed by the great independent trial of Peas conducted by the Royal Horticultural Society. Their experiment comprised over 80 varieties, and *Carters Daisy* gained the First Class Certificate given by the Society. *Carters Daisy* Pea is an early maincrop, growing about 1¼ ft. high. The haulm is very robust, and the crop of giant, well-filled pods of good colour is enormous. Visitors to Leamington Show in 1913 will remember the very fine pods of this remarkable Pea contained in our Exhibit of Vegetables, which was awarded the Gold Medal. An excellent forcing Pea.

961 **Carters Buttercup** (*Round Blue.* Ht. 1½ to 2 ft.).—A hardy type of *Daisy* Pea. May be described as an early maincrop; fine robust habit, long well-filled pods, produced in pairs, averaging 10 Peas in each; remarkably free bearing. The large deep-green seed, which is almost round, retains the sweet marrowfat flavour when cooked. This fine Pea was much admired at Bristol Royal Show, where we were awarded a Gold Medal and Silver Cup.

936 **Horsford's Market Garden.**—A very productive sort, much used by canners. Pods medium size, and produced near top of vine. Quality high. Ht. 2½ ft.

933 **Dwarf Champion, Rice's Improved.**—A very fine second early Pea of highest quality. Ht. 2½ ft.

932 **Thomas Laxton.**—Similar to *Gradus,* but with blunt rather than pointed pods. Hardy and productive. Ht. 3 ft.

Price of the above	¼ pint.	½ pint.	pint.	quart.
	.20	.30	.50	.90

FRENCH PEAS.

No.
944 **Carters Petit Pois (Delicatesse).**—This Pea has gained a great renown among the Continental connoisseurs, who regard it as a delicacy. It is a second early wrinkled, with haulm about 3 ft.; very prolific; long curved pods hanging in pairs.

Price	¼ pint.	½ pint.	pint.	quart.
	.15	.25	.40	.75

MAINCROP GARDEN PEAS.

CARTERS "QUITE CONTENT" MARROWFAT PEA.

A GIANT PODDED MAINCROP.

Pods longer and larger than any other Pea in cultivation.

951 **Carters Quite Content** (*Maincrop Marrowfat.* Ht. 5 to 6 ft.)—This grand Pea, which has caused such a stir in the horticultural world, is the outcome of a cross between *Alderman* and *Edwin Beckett.* In general character it resembles the former, but the pods are considerably larger than either parent. In our own trials it has amply demonstrated its wonderful superiority, and when exhibited in the open class at Shrewsbury it easily secured the First Prize, and was pronounced by leading experts to be without doubt the finest Pea ever seen. It is exceedingly prolific, and the pods hang mostly in pairs. Supply limited.

Price	¼ pint.	½ pint.	pint.	quart.
	.25	.45	.80	1.50

"We had most excellent success with Messrs. Carters seeds last year, which were obtained direct from London, but we hope to do even better this year. The *Quite Content* Marrowfat Pea is without a peer in this district, and if we get as good results this year we hope to exhibit a few locally."

Mr. F. L. LEE, Kamloops, B.C.

"I have great pleasure in sending, under separate cover, one dozen peas grown from your seed named *Quite Content,* and the name is right. I have had an immense crop. The show of peas was so great that I had the row photographed. The rest of the seeds did well."—Mr. S. NORFOLK, Haileybury, Ont.

See page 86 for Carters White Clover Perfume.

"I was very pleased with the seeds I had from you. Out of the common are Broad Beans, and the *Quite Content* Pea, some of which measure 5 and 6 in. in length. All are greatly admired here in the West; sprouts and savoys, &c., seem quite unknown. I am sure your seeds cannot be beaten."

Mr. H. J. COOTE, Humboldt, Sask.

963 **Alderman** (*Wrinkled Marrowfat.* Ht. 5 ft.).—Very fine Pea of splendid quality; large deep-green pods.

987 **Carters Danby Stratagem, Re-selected Stock** (*Wrinkled Marrowfat.* Ht. 2½ ft.).—Award of Merit, R.H.S. A distinct improvement on the original *Stratagem,* having longer, straighter, and broader pods very freely produced. The haulm, is very robust, and extends to a height of 2½ ft., bearing a profusion of immense pods, many 6 in. in length, and frequently containing 10 large full-flavoured Marrow peas.

992 **Carters Champion of England** (*Wrinkled.* Ht. 5 ft.).—Prolific and hardy; small pod.

962 **Carters Commonwealth** (*Wrinkled Marrowfat.* Ht. 2 ft.)—We have a most perfect re-selected stock of this popular maincrop Pea. It is a strong grower and a prolific bearer of large exhibition pods of a fine deep colour, besides being a first-class table Pea. Strongly recommended.

998 **Stratagem** (*Wrinkled Marrowfat.* Ht. 1½ to 2 ft.).—Original stock of this fine dark-green podded Pea, which was introduced by us several years ago, and still holds a world-wide reputation.

954 **Carters Model Telephone** (*Wrinkled Marrowfat.* Ht. 5 ft.).—A re-selection for robustness and delicacy of flavour from *Telephone,* a maincrop wrinkled Marrow, which bears to-day a world-wide reputation. It is remarkably prolific, bearing large pods of very attractive appearance. For soils of a light nature we strongly recommend this variety. Peas wrinkled, 9 to 11 in. a pod; delicious when cooked.

974 **Telephone** (*Wrinkled.* Ht. 5 ft.).—Large pods, prolific; suitable for light soils.

Carters Model Telegraph.—5 ft. a selection from our original telegraph and very valuable as a table pea; is a fine size and produces a well filled deep green pod.

Price of the above .. except *Quite Content*	¼ pint.	½ pint.	pint.	quart.

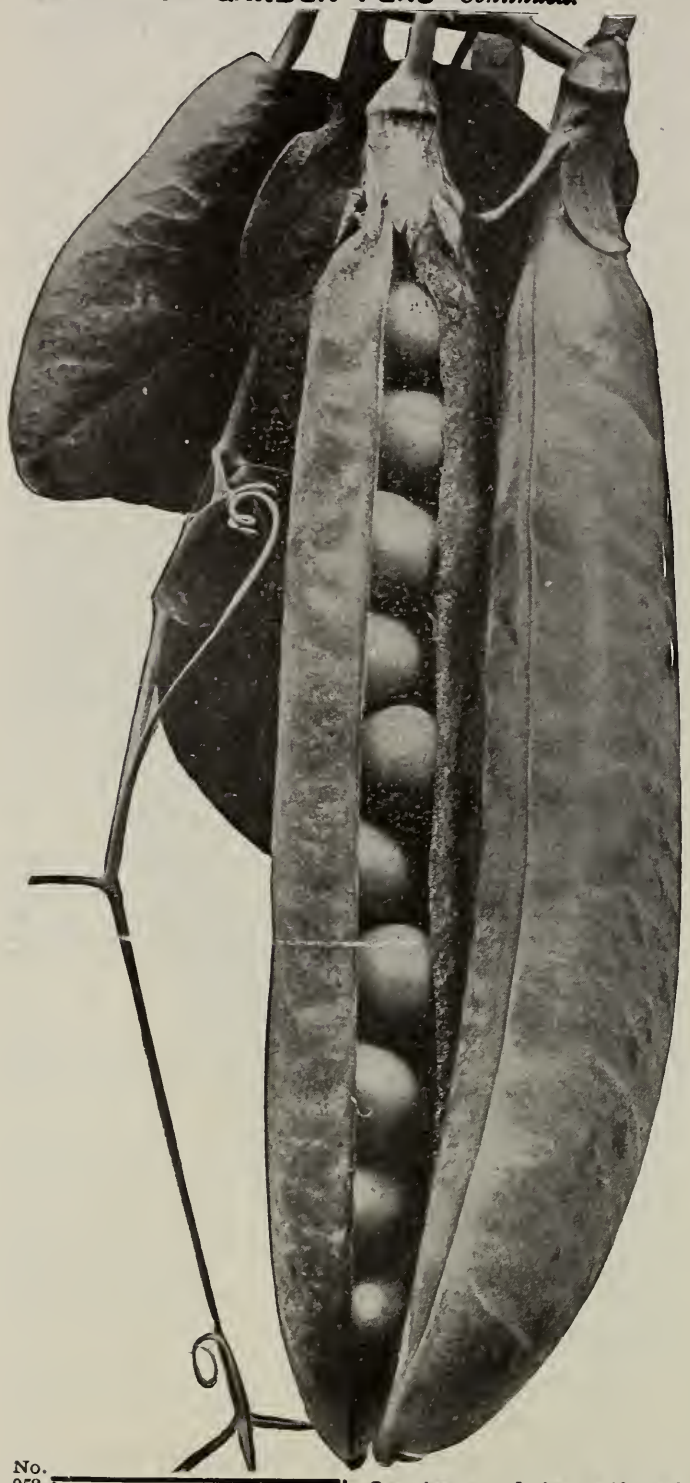
1023 **4 Pints,** in 4 best sorts, for succession—our selection, 2.00

MAINCROP GARDEN PEAS—*Continued.*



No. 952

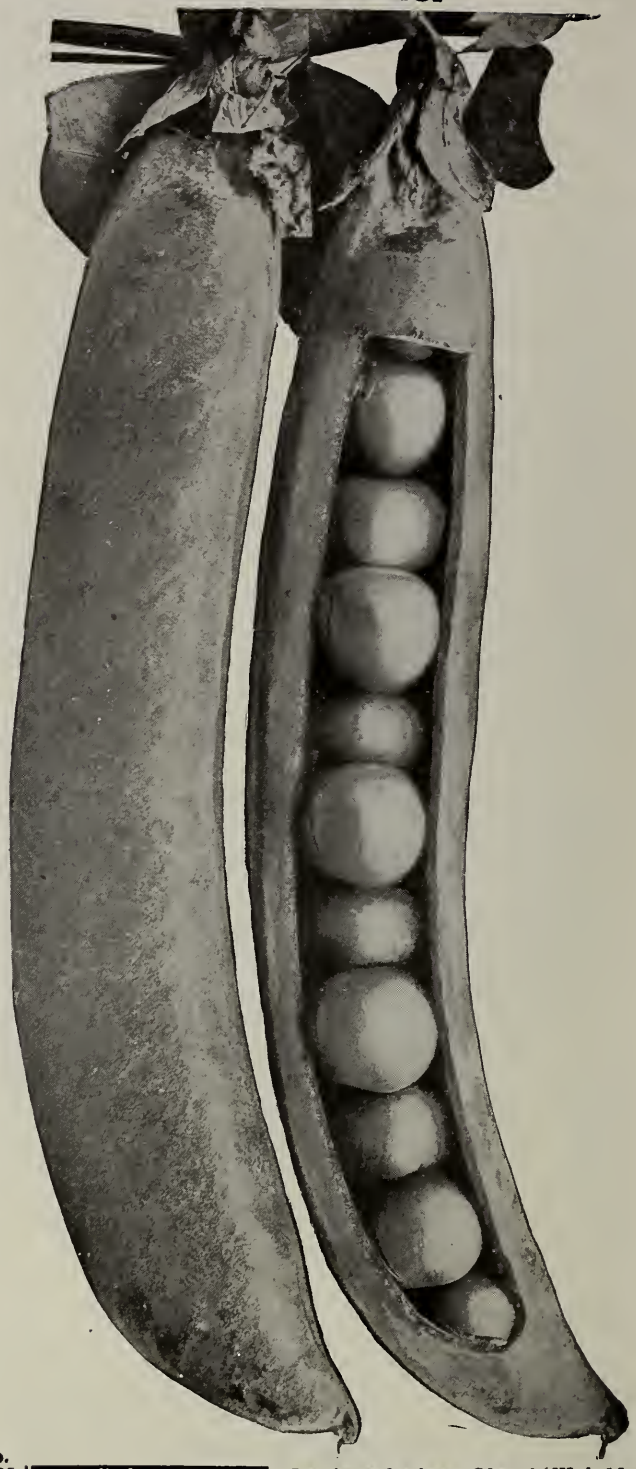
NEW.

Early Morn + Duke of Albany

Carters International

Carters International (*Wrinkled Marrowfat.* Ht. 5 to 6 ft.).—Award of Merit, R.H.S., 1908.—This magnificent Pea is quite distinct, both in shape of pod and habit; the pods are of a rich deep green, containing 11 peas of excellent size and flavour. This is undoubtedly the largest curved pod Marrowfat Pea at present offered to the public; it is quickly becoming the most famous early maincrop. Pods of this variety (under Seedling No. 211) were exhibited at the Royal Agricultural Society's Show at Newcastle, and awarded a large Gold Medal with our other vegetables.

LATE GARDEN PEAS.



No. 1005

NEW.

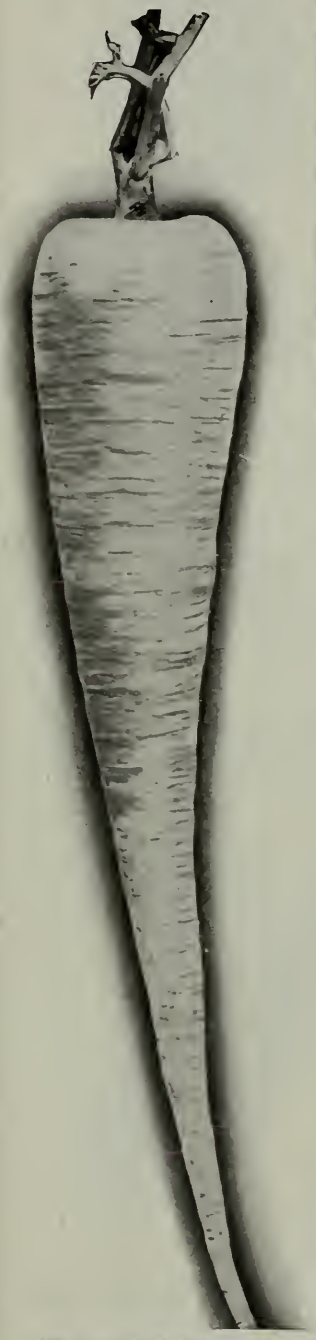
Gladstone + Exhibition

Carters Latest Giant

Carters Latest Giant (*Wrinkled Marrowfat.* Ht. 4 ft.).—This splendid late Marrowfat Pea is the outcome of a cross between *Gladstone* and *Exhibition* in 1903, and has been exhibited in our testing grounds and at various Royal Horticultural Society Shows under Seedling No. 241. It is an all-round grand selection, possessing the free podding and strong habit of *Gladstone*, but bearing handsome, well-filled pods, very much larger than that excellent variety. The pods invariably contain 11 large deep-coloured Peas. It is fit for exhibition and unequalled for market. It is well described by the name *Latest Giant.*

	¼ pint.	½ pint.	pint.	quart.
Price of the above ..	.20	.35	.60	1.00

PARSNIP.—*The Cultivation of Parsnip.*—Sow the seed early in March as soon as the season will permit. The ground should be well manured and deeply trenched, the drills about 1½ ft. apart and the plants thinned out the same distance apart. The quality of the roots is improved by allowing them to winter in the ground for spring use. 1 oz. of seed will plant 100 ft. of drill; 5 lb. to the acre.



No.
832 **Carters Holborn Marrow** (*Photograph above*).—A sweet delicate-fleshed variety. A truly refined Parsnip. When lifted it leaves the ground clean, smooth, and well-shaped. It is not so large in growth as our *Maltese*, but its flavour is unusually marrow-like and delicate. Our picture very inadequately depicts its merits. The Royal Horticultural Society, reporting its trials at the Experimental Grounds, says:—"Roots thick, handsome, and not too large, but just the size and shape a Parsnip should be."

"Parsnip *Holborn Marrow* is an excellent variety for table or exhibition, producing well-shaped clean roots, which, when cooked, are very tender and of a delicious flavour."—Mr. G. Phillips, Head Gardener to the Hon. H. B. Portman.

"Parsnip Holborn Marrow.—This is first class for exhibition and table."—Mr. J. Lock, Head Gardener to S. P. Emanuel, Esq.

830 **Carters Maltese.**—A superb giant Parsnip for exhibition or table use. We hold records of 578 First Prizes having been taken during the past few seasons for this fine Parsnip, which was also included in the First and Champion Prize Exhibit of Vegetables, Shrewsbury, 1912, and also the Large Gold Medal Exhibit at the same Show. We are confident this highly-selected strain cannot be surpassed either for size or flavour; the roots, which attain to a very large size, being quite as tender and sweet flavoured as most varieties which do not reach one-half the size.

831 **Carters Long Parsnip.**—Fine variety, of splendid flavour.

833 **Hollow Crown.**—An old favourite.

835 **The Student.**—Extremely delicate flavour.

Price of the above ..	¼ oz.	1 oz.	½ lb.	1 lb.
	.10	.25	.75	2.50

PEPPERS.—*The Cultivation of Peppers.*—Sow in hotbed or greenhouse in March or April, and transplant to the open ground when all danger of frost is over. Plant in rows 3 ft. apart and 1½ ft. between the plants; cover the seed when sowing with about ¼ in. of soil.

No.
841. **Bell or Bull.**—A large bright and early variety of mild flavour.
842 **Chinese Giant.**—A dwarf well-branched early variety, producing immense brilliant glossy scarlet fruits.
843 **Large Squash.**—A tomato-shaped medium-sized thick-fleshed fruit.
844 **Ruby King.**—Plants grow 2 ft. high, and bear freely large scarlet thick-fleshed mild sweet fruits.

Price of the above ..	⅛ oz.	¼ oz.	½ oz.	1 oz.	¼ lb.
	.10	.20	.35	.60	2.00

845 **Small Red Chili.**—Small slender bright scarlet fruits; very hot.
846 **Long Red.**—Long red fruits; very hot and pungent.
847 **Neapolitan.**—A large very early Pepper; fruits sweet, mild, and solid.
849 **Sweet Mountain.**—An improved bullnose, the fruits of which are large thick fleshed, mild and bright red when ripe.
851 **Sweet Spanish.**—Large conical shaped fruit, 4 in. long, 3 in. in diameter. Very early, sweet, and mild.

Price of the above ..	⅛ oz.	½ oz.	1 oz.	¼ lb.	1 lb.
	.10	.30	.50	1.75	5.00

POTATOES.—*The Cultivation of Potatoes.*—Under the right climatic conditions any good fibrous soil will produce Potatoes, but a better quality will result from a production in a good sandy loam. Make furrows of good depth, about 3 ft. apart, apply a good dressing of commercial fertlizer or well-decayed stable manure to each drill; cover this slightly and plant good-sized pieces of the potatoes, each containing two or three eyes, 1½ ft. apart in the furrows. Then cover the seed to the depth of 2 in. Begin to cultivate when the plants are up, and at each hoeing thereafter bring additional soil about the plants.

Beauty of Hebron	**Irish Cobbler.**	**New Queen.**
Early Norther.	**Green Mountain.**	**Delaware.**
Early Rose.	**Carman No. 3.**	

Price of the above ..	Peck.	Bushel	Sack of 2¾ bushels.
	.75	2.50	6.50

Prices F. O. B. Boston. All subject to the market changes. We also remind our customers that as Potatoes are of a perishable nature we can assume no responsibility, and ship only at purchaser's risk. We of course exercise great care in packing and shipping.

Potato Seed Balls.

858 **Potato Seeds.** Hybridized. This strain produces many different varieties of high grade potatoes. Price per packet .10.

PUMPKIN.—*The Cultivation of Pumpkins.*—After all danger of severe frosts has passed the seed may be sown in hills 8 ft. apart each way, or in the corn field, using 3 or 4 seeds with that of the corn in every fourth or fifth hill. Do not plant different varieties of Pumpkin together, as they are very apt to become mixed, although they do not easily hybridise with squash or other vines. 1 oz. will plant 25 hills; 3 lb. will plant an acre.

No.
861 **Connecticut Field.**—Unrivalled for stock-feeding, and produces wonderfully well.
862 **Large Cheese.**—This is a fine sort for either stock or table purposes. Colour creamy buff, flavour very sweet, shape flat, and very productive.
863 **Mammoth King.**—Often produces a Pumpkin weighing over 100 lb. It is a fine keeper, and is used in winter as a figure in displays of a rustic nature. It is a fine stock-feeding variety.

864 **Sweet or Sugar.**—An unsurpassed variety for making pies. The pumpkins are small, but they are very sweet, fine grained, and of the best quality. The skin is a deep orange in colour.
865 **Winter Luxury.**—A smooth, yellow-skinned, round Pumpkin, with a thick flesh of excellent flavour. It is a splendid keeper, with a russet-yellow coloured skin.
866 **Japanese Pie.**—Thick, solid, fine-grained flesh, dry and sweet, ripens early.

Price of the above	⅛ oz.	1 oz	¼ lb.	1 lb.
	.10	.20	.50	1.75

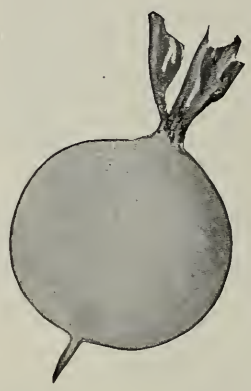
RADISH.—*The Cultivation of Radish.*—Sow on a moderate hotbed in January, February, and March, also every ten days during the spring and summer in well-prepared places in the open. The Radish thrives best when quickly grown in a rich, deep, moist soil, kept well watered during the hot weather. Winter varieties should be planted about the middle of July; store the roots during the winter in a cool pit or cellar and cover them well with earth. 1 oz. of seed will sow 100 ft. of drill; 10 lb. will plant an acre.

No. 1037.
Carters 16 Days.

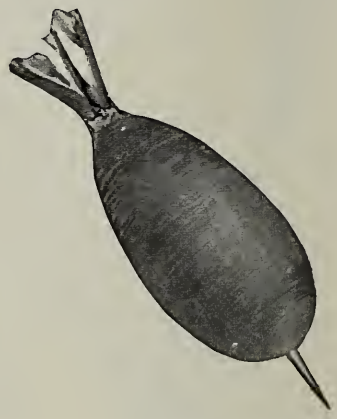
No. 1040.
Carters Extra Early Scarlet Round.

No.
1037 **NOVELTY.** **Carters 16 Days.**—A new and remarkably pretty introduction. For quality and forcing it has no equal; being fit to pull in 16 days from date of sowing. Small and oval in shape, bright crimson colour with ivory white tip.

1040 **Carters Extra Early Scarlet Round.**—The most rapid growing and perfect shaped scarlet turnip Radish. Small topped and perfect quality. Sown with *Carters Lightning White* makes a perfect combination.



No. 1043.
Carters Lightning White Round.



No. 1044.
Carters Rosy Gem.

1043 **NOVELTY.** **Carters Lightning White Round.**—A small white marble Radish of lightning growth; excellent quality, extremely small topped, the quickest Radish ever introduced. Sown in frames or on a warm border it is fit for the table in 14 days.

1044 **NOVELTY.** **Carters Rosy Gem.**—Extra early for forcing or general work, quite distinct; a charming delicate rosy-pink colour. The shape is almost oval; it is one of the most attractive and delicate-flavoured Radishes in cultivation. Remarkably quick in growth, closely following *Carters White Round.*

Price of the above	¼	1 oz	¼ lb.	1 lb.
	.10	.30	1.00	3.50

RADISH—*Continued*

No. 1038
Carters Extra Early Round, white tipped.

No. 1046
Carters Delicatesse.

No.
1038 **Carters Extra Early Round White Tipped.**—An exceedingly attractive Radish, crimson scarlet with white base. Is very quick in growth; produces small top, and flesh is of the finest quality.

1046 **Carters Delicatesse.**—An attractive breakfast dish. Its peculiar shape, crisp flesh, and nutty flavour give this fine selection a distinct advantage. Suitable for forcing.

1045 **Carters Extra Early White Olive.**—This Radish has been specially selected for its crisp texture and fine flavour. It produces very little top and matures with remarkable rapidity.

1041 **Carters Icicle.**—So named because of its unique transparent whiteness, attractive appearance, and freshness early in the season. The earliest long white Radish, of extraordinary crispness and tenderness. We offer this as a companion to our *Long Forcing Scarlet* Radish.

Price of the above	¼ oz.	1 oz.	¼ lb.	1 lb.
	.10	.30	1.00	3.00

No. 1039
Carters Crimson Forcing Olive.

No. 1045
Carters Extra Early White Olive.

1039 **Carters Crimson Forcing Olive.**—Splendid rich colour, very rich growing, having small top; flavour sweet and delicate.

1048 **Carters Mixed Early Olive.**—This special mixture of all the quickest growing olive Radishes makes a most attractive dish and is becoming much in demand. When pulled the different colours make quite a charming effect for the table.

1047 **Carters Long Forcing Scarlet.**—A great advance on the old varieties. The very best long scarlet Radish for early work. Flesh crisp and tender.

1065 **Carters French Breakfast.**—There are so many inferior strains of this very popular Radish (introduced by our house from Paris years ago) that we recommend all connoisseurs of a fine appetising breakfast dish to grow only the real original type.

1069 **Carters Scarlet Olive Shaped.**—Of bright attractive appearance and good flavour.

1072 **Carters White Olive Shaped.**—Fine flavour.

WINTER VARIETIES.

1080 **Long Black Spanish.**—For autumn sowing; large and distinct.

1081 **China Rose, Oval Shaped.**

Price of the above	½ oz.	1 oz.	¼ lb.	1 lb.
	.10	.25	.75	2.50

SPINACH.—*The Cultivation of Spinach.*—Sow Round Spinach in succession from April to June, and Prickly or Winter Spinach during August and September to stand the winter. These plants should be well mulched and protected from the first approach of severe weather. Sow New Zealand Spinach in March in heat and transplant about the end of May, setting the plants about 3 ft. apart. This seed should be well soaked in hot water before sowing. 1 oz. of ordinary Spinach seed will plant 100 ft. of drill; 12 lb. to the acre in drills. 1 oz. of New Zealand Spinach will plant 50 ft. of drill.

No.
1095 **The Carter Spinach.**—A superb long-stander, with rich deep-green leaves. This fine Spinach was sent for trial to the Royal Horticultural Society, and was given an Award of Merit. The leaves are remarkably thick and solid; and the whole plant, which is very fine in colour, is of far greater duration than ordinary Spinach. Awarded 5 Large Gold Medals with Carters other vegetables.

1099 **Carters Long-Standing.**—Stands well when others run to seed.

1096 **Carters Market Favourite.**—A well-known variety with leaves of great substance.

1100 **Carters Summer.**—Thick leaves of great substance; stands longer than most others.

1101 **Perpetual Spinach or Spinach Beet.**—Leaves used in autumn as a substitute for Spinach.

1104 **Thick-leaved Round.**—Improvement on the old round variety.

1097 **New Zealand.**—One planting on rich soil will give masses of healthy green foliage to last through the summer season.

Price of the above ..	⅓ oz.	½ oz.	1 oz.	¼ lb.	1 lb.
	.10	.15	.25	.60	2.00

1098 **Carters Giant-leaved Winter.**—A large thick-leaved form of the hardy prickly Spinach. Useful on cold backward soils.

1102 **Prickly or Winter.**—For winter or spring use; very hardy.

Price	½ oz.	1 oz.	¼ lb.	1 lb.
	.10	.15	.45	1.50

SQUASH— *The Cultivation of Squash and Vegetable Marrow.*—Never sow the seed in the spring until lasting warm weather is an absolute certainty A warm, mellow, well-manured soil suits them best. The seed should be planted in hills about 4 ft. apart each way for the bush varieties and marrows, and 10 to 12 ft. apart each way for the running varieties. Plant 12 to 15 seeds in each hill so as to offset the loss by insects and weakness. When all danger of such losses is past, thin to three or four plants to the hill. Winter sorts may be planted with corn, using four or five seeds in every fourth or fifth hill at the same time as the corn is planted. 1 oz. of seed will plant 50 hills of the early sorts, and 30 hills of the later varieties; 5 to 6 lb. to the acre.

EARLY AMERICAN BUSH VARIETIES.

No.
676 **Giant Summer Crookneck.**—Without a doubt this is the most popular summer Squash grown. The flesh is thick, yellow, and of splendid quality.

677 **Early Mammoth White Bush.**—A superb sort for early use, and is considered the best scalloped Squash produced.

678 **Golden Custard.**—A fine, large, yellow Squash, similar in shape to the *Mammoth White Bush.*

Price of the above ..	¼ oz.	1 oz.	¼ lb.	1 lb.
	.10	.25	.75	2.50

AMERICAN RUNNING VARIETIES FOR AUTUMN AND WINTER CROPS.

680 **Boston Marrow.**—A fine, reddish-yellow skinned autumn variety. The flesh is well flavoured, of a deep orange colour, and well grained, with fine keeping qualities.

679 **Delicious.**—A winter Squash, considered by squash raisers to be a very superior sort, even surpassing the *Hubbard* in its finished qualities. Its colour is an even shade of green, and the flesh is a deep orange; it ripens off with a compact grain, dry throughout, and with a very sweet, tasty flavour.

Price of the above	⅓ oz.	1 oz.	¼ lb.	1 lb.
	.10	.25	.75	2.50

682 **Improved Hubbard.**—This is the most popular and reliable old-time winter Squash raised. The skin is coloured a dark green, with a fine grained, dry, very rich bright orange flesh of a fine flavour. Averages in weight from 10 to 20 lb., and keeps well. The shell is very hard.

681 **Essex Hybrid or Hard Shell Turban.**—A result of the hybridising of *American Turban* and *Hubbard*, combining all the excellent qualities of both these superior sorts. It has sweet flesh of a very fine grain and rich, tasty flavour. The skin and flesh are both of a richly coloured orange. Considered a fine keeper.

Price	⅓ oz.	1 oz.	¼ lb.	1 lb.
	.10	.20	.60	2.00

No.
683 **Golden Hubbard.**—Very similar to the *Improved Hubbard*, except in colour, which is a reddish yellow.

684 **Mammoth Warted Hubbard.**—A strong-growing vine, producing a great number of dark green warted Squashes similar in every other way to the *Improved Hubbard* and very much larger

Price of the above	⅓ oz.	1 oz.	¼ lb.	1 lb.
	.10	.20	.60	2.00

ENGLISH VEGETABLE MARROW.

The Vegetable Marrow Squashes are of an English production but should be more generally used in this country as they are far superior in every way to our summer Squash. They will grow well anywhere with just a little care, and the results are more than satisfying. When the fruit is from half to three quarters grown prepare similarly to Squash or slice and fry, like Egg Plant, and the superiority in both cases is remarkable. All the varieties of Marrows that we offer for planting in America this year were planted with great results last year, and we predict a great future for this vegetable here, judging from the remarks of satisfaction on all sides.

Carters Long Green Striped.

Carters Trailing White.

664 **Carters Long Green Striped.**—A giant prolific variety, the very best for gardens that lie in a bleak and exposed position.

658 **Carters Trailing White.**—One of the quickest-growing varieties we know of. The fruit will extend to a great length whilst retaining all the tenderness of small young Marrows.

659 **Muir's Prolific.**—A distinct variety, with small globular fruit creamy-white in colour, and solid flesh.

660 **Pen-y-byd** *(The Best in the World).*—A round fruiting Marrow, creamy-white in colour; very superior.

661 **Moore's Vegetable Cream.**—Very fine variety, of creamy colour and delicious flavour.

662 **Moore's Green Striped.**—A small green Marrow, of excellent flavour.

666 **Bush or Cluster.**—A useful variety in small gardens.

667 **Large Cream.**—Cream-coloured fruit, growing to large size.

Price of the above	¼ oz.	1 oz.	¼ lb.	1 lb.
	.10	.30	1.00	3.50

TOMATO—ENGLISH VARIETIES.

The Cultivation of Tomatoes—February or March is the proper time for starting seasonable plants. The plants can be started in greenhouses, hotbeds, window boxes, or most any sunny spot where the temperature is never below 60 degrees. Sow the seed lightly in rows, and when the plants have reached a height of 2 in. transplant to hotbeds or boxes, setting the plants 4 or 5 in. apart each way. May 15th until June 1st is a good period for the transplanting to the open ground. Set the plants deeply 4 ft. apart, mixing a good shovelful of well-rotted manure with the hilling soil of each plant; water freely at this time and protect for a few days from the sun during midday. A clearer-coloured, better-flavoured, and larger fruit will be obtained by training the plants to a trellis. Tomatoes are rapidly growing in favour as a greenhouse vegetable, and the forcing varieties do well and produce wonderful results. The seeds should be started late in August for a midwinter crop. 1 oz. of seed will produce 2,000 to 3,000 plants.

No. 1147 Carters Golden Sunrise.
Awarded First Class Certificate of the Royal Horticultural Society, 1916.

No. 1147 **NOVELTY. Yellow Variety.**

Carters Golden Sunrise.—As in the case of its famous prototype, *Carters Red Sunrise*, this splendid yellow variety has been awarded the First Class Certificate by the Royal Horticultural Society during 1916—true evidence of its superior qualities. We believe this kind has a great future before it; it is a heavy cropper of handsome medium-sized fruits. The flavour is remarkably good, being slightly more acid than red varieties.

Price	250 seeds.	500 seeds.	1,000 seeds.
	.25	.45	.75

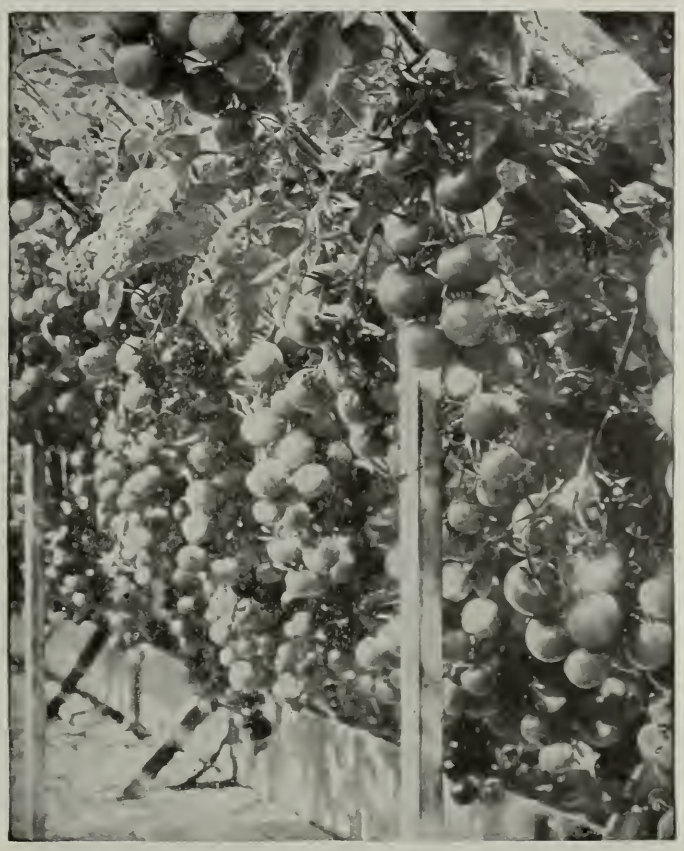
1111 **Carters Sunrise.**—The finest Tomato for indoor or outdoor cultivation. Awarded First Class Certificate, R.H.S.—indoor cultivation. F.C.C. confirmed as Outdoor variety after growth at Wisley. During 1905 an extensive trial of Tomatoes was made by the Royal Horticultural Society, 71 varieties being sent in by the leading houses. The only First Class Certificate was given to *Carters Sunrise*, and the following note is attached to the report:—"Tomatoes have reached such perfection that it is now very difficult to raise a variety superior to those already in commerce. In this trial only one stood out as being of exceptional value, viz., *Sunrise*." It is some time since such a high honour has been granted to a Tomato.

THE CHIEF POINTS IN "SUNRISE" ARE—

ITS EARLINESS.—It ripens several days earlier than most varieties.
ITS CROPPING PROPERTIES.—*See Photographs and Testimonials.*
ITS HEALTHY AND ROBUST CONSTITUTION.—No trace of disease.
ITS PROLIFIC CHARACTER.—*See Photographs.*
ITS SOLID BUT DELICATE FLESH.—Contains very few seeds.
ITS EVENNESS OF SIZE as a dessert fruit.
ITS BRIGHT SCARLET COLOUR and rich acid flavour.
ITS EQUAL VALUE FOR INDOOR OR OUTDOOR CULTIVATION.
GOLD MEDAL, Bristol, 1913; Leamington, 1913; Shrewsbury, 1912.

THE BEST AND EARLIEST.—"I grew your *Sunrise* Tomato this year, and wish to say that it is the best and earliest Tomato I have ever grown. The seeds were sown the same day with four other varieties and all treated alike, and I was picking splendid, well-formed ripe fruit from your *Sunrise* plants fifteen days earlier than any of the other varieties."—ALEXANDER MICHIE, Plymouth, Mass.

CARTERS SUNRISE TOMATO—*Continued.*



QUALITY IS UNSURPASSED.—"I have grown your *Sunrise* Tomato since first it came out, and I consider it the best Tomato ever sent out. It is earlier than most, no trouble to set, nice even size, and very heavy cropper. Above all, the quality is unsurpassed."—Mr. H. W. BLAKE, Head Gardener to the Right Honorable, the Earl of Onslow.

Awarded First Class Certificate, R. H. S.

Carters Sunrise—actual size of fruit.

Carters Sunrise.—The finest Tomato for indoor or outdoor cultivation.

Price	$\frac{1}{16}$ oz.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.	$\frac{1}{2}$ oz.	1 oz.
	.25	.45	.75	1.30	2.25

TOMATO—*Continued.*

1112 **Carters Duke of York.**—Awarded the First Class Certificate of the R.H.S.; included in Three Gold Medal Collections during 1914. This grand variety still holds a very high position in public favour. Colour rich scarlet, splendid cropper, almost globular in shape; flesh very firm, fine flavour. A leading feature of this superb variety is that it ripens its fruit with the most pronounced uniformity, whilst the profusion of clusters, averaging six and ten evenly-formed fruit each, makes it conspicuously handsome. These clusters contain variously sized fruits, large and medium, both for the table and exhibition. It can be grown in the open, but does not ripen so quickly as our *Outdoor* variety. Invaluable as an exhibition variety, as for private growers and market purposes. 32 First Prizes reported last season.

"*Carters Duke of York* Tomato has been grown by us for several years, and we have won many prizes with it, and consider it the Tomato for all purposes."—Mr. W. L. BASTIN, Head Gardener to Sir Alex. Henderson, Bt.

1137 **Lister's Prolific.**—A splendid forcing variety, of excellent cropping qualities, with good form, colour, and flavour.

Carters Perfection.

1115 **Carters Perfection.**—Quite distinct from any other variety named *Perfection*. It is very handsome in form, distinct in colour, and exceedingly prolific, and of exquisite flavour. 138 First Prizes reported.

1127 **Comet.**—This is a very popular sort, for growing indoors or out, with a medium-sized fruit, almost round, and of a rich scarlet colour. One of the best forcing Tomatoes.

Price of the above	1/16 oz.	1/8 oz.	1/4 oz.	1/2 oz.	1 oz.	1/4 lb.
	.10	.15	.25	.40	.75	2.50

The seeds of all the above very choice varieties are saved with great care from plants grown under glass.

1118 **Carters Coreless.**—We were quite impressed by the habit and quality of this main crop variety at our grounds at Raynes Park. It is a good, bright-red variety, almost round, and solid and free from green core.

1134 **Earliana.**—A very early, large, bright red Tomato, which runs very uniform in size and shape. It is very hardy and can be set out early.

1121 **Carters Red Cherry.**—A very prolific variety, about the size of a cherry.

1122 **Carters Red Plum.**—Plum shaped, of prolific habit and good flavour.

1123 **Carters Peach.**

1151 **Carters Yellow Plum.**—A very popular and most prolific variety.

Price of the above..	1/8 oz.	1/4 oz.	1/2 oz.	1 oz.	1/4 lb.	1 lb.
	10	.15	.30	.50	1.50	5.00

No.

1135 **Chalk's Early Jewel.**—One of the best early Tomatoes, of medium size and very productive. The colour is a bright red, and it is almost seedless.

1136 **Dwarf Stone.**—These plants are very dwarf and sturdy, and produce a very large-sized fruit which resembles *Livingston's Stone Tomato* very closely.

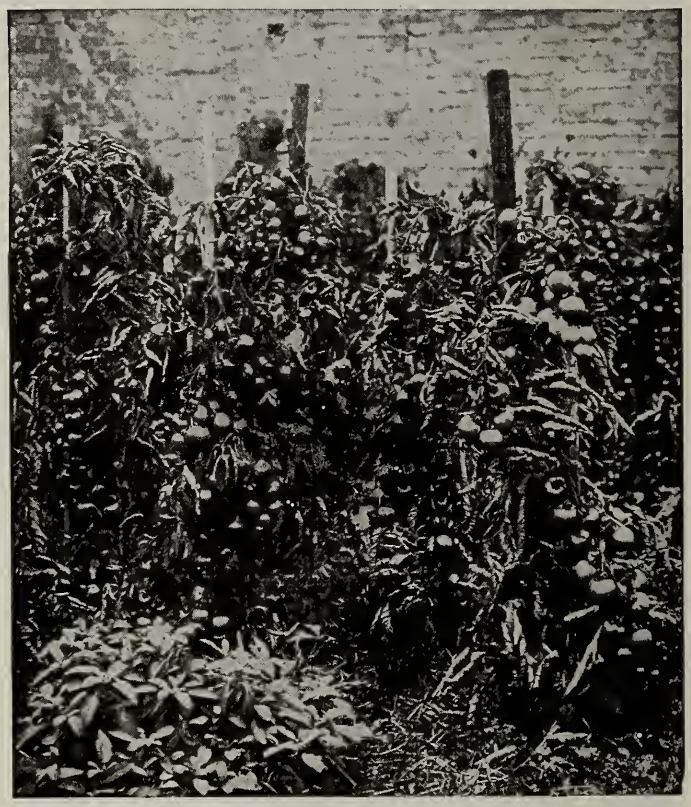
1138 **Livingston's New Globe.**—A fine main crop Tomato, of a highly-coloured crimson.

1139 **Ponderosa.**—Without a doubt this is the largest Tomato grown. The fruits are solid and of a bright crimson colour.

1132 **Stirling Castle.**—An excellent forcing variety, of medium size, splendid form, colour glowing scarlet.

1140 **Dwarf Champion.**—A very popular variety, of sturdy dwarf habit. Fruit solid and excellent quality.

1141 **Livingston's Stone.**—Always in demand; almost round, very solid and tasty, and of good keeping qualities.



1113 **Carters Outdoor Improved.**—This variety fruits readily in any situation where the full influence of the sun is felt. Has good form and shape, although not so round as *Duke of York* or *Sunrise*.

Price of the above ..	1/8 oz.	1/4 oz.	1/2 oz.	1 oz.	1/4 lb.	1 lb.
	.10	.15	.30	.50	1.75	6.00

The Champion Prize Exhibit of Vegetables (open to the World), Shrewsbury, grown from Carters Tested Seeds.

RHUBARB.—*The Cultivation of Rhubarb.*—The seed should be sown in the spring, in drills about 1 ft. apart, and the plants thinned to 5 in. apart. In the spring following, transplant to their permanent bed 4 ft. apart each way, cultivate well, using manure freely. 1 oz. of seed will produce about 1,000 plants.

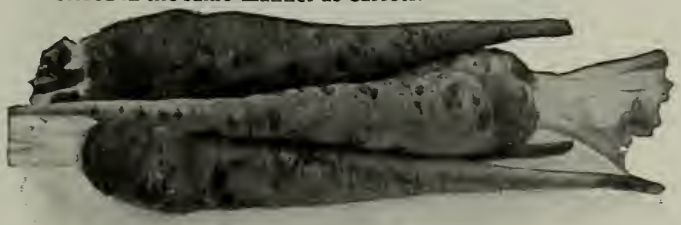
1356 **Victoria.**
1357 **Champagne.**
1359 **Mixed Varieties.**

	¼ oz.	½ oz.	1 oz.	¼ lb.
Price of the above	.10	.15	.25	.85

Rhubarq Roots .. .. 2.00 per doz.; 12.00 per 100, F.O.B.

SALSIFY OR VEGETABLE OYSTER. *The Cultivation of Salsify and Scorzonera.*—The ground should be well trenched and manured during autumn. Sow during March and April in drills about 1½ ft. apart. Thin out the plants to from 6 to 8 in. apart for Salsify, but allow rather more room for Scorzonera. The roots should be taken up in November and stored in the same manner as Carrots.



1088 **Carters Mammoth.**—A greatly improved form of the ordinary Salsify.

SCORZONERA.—*Cultivation as Salsify above.*

1089 **Scorzonera, Carters Improved.**—The roots are eaten cooked like those of the Salsify; the leaves can be used as a salad.

	⅛ oz.	¼ oz.	½ oz.	1 oz.
Price of the above	.10	.15	.25	.40

SEAKALE.—*The Cultivation of Seakale.*—These tasty shoots are blanched and used similarly to Asparagus. They should be sown in drills early in the spring, after the ground is thoroughly warm, covering the seed about 1 in. Thin to 6 in., and the following spring transplant to rows, leaving about 2 ft. between each plant. 1 oz. of seed will plant 75 feet of drill.

1371 **Lily White.**—A great improvement on the old variety.

	⅛ oz.	¼ oz.	½ oz.	1 oz.
Price	.10	.15	.25	.45

TURNIP.—*The Cultivation of Turnip.*—Sow *Carters Little Marvel* or *Carters Jersey Lily* for early use the first week in March on a gentle hotbed under glass, and later in a warm situation in the open ground. For main succession crops, sow every three weeks in the open ground until the beginning of July. Turnips for winter use must be planted during August and early in September, sowing the seeds in rows about 1½ ft. apart and thinning the plants to 3 or 4 in. apart. The Ruta Baga sorts should be sown from the 15th of June until late in July. 1 oz. will sow 150 ft. of drill; 2 lb. will sow an acre in drills.

TURNIP—*Continued.*

F Signifies for framework, also good for general garden sowings.

1157 **Carters Little Marvel.**—A New Early White Turnip.—A cross between *Early White Milan* and *Jersey Lily*. This is a highly re-selected stock, the tendency to flatness in some of the roots having been entirely eradicated; the tops are small and compact. It is undoubtedly the quickest white globe-shaped Turnip in cultivation. Flesh crisp and solid, and, as aptly described by one of our customers, "is a little marvel." Very distinct in both habit and foliage, and is a splendid table Turnip. The Royal Horticultural Society, reporting from its trials at Wisley, says:—"Carters Little Marvel Turnip.—White, round, handsome; foliage short and sturdy. A very early variety that should be valuable for forcing." This remarkable cross-bred Turnip closely follows the *Milan*, and is considerably forwarder than *Jersey Lily*. It has become popular with gardeners for early work, as it is as good as it looks. 35 First Prizes reported during 1914, and included in 3 Gold Medal Exhibits.

No. 1168 Carters White Milan, described in next column.

	½ oz.	1 oz.	¼ lb.	1 lb.
Price	.10	.25	.75	2.50

TURNIP—*Continued.*

No.
1168 **Carters White Milan** (*F*).—This is an exceptionally fine selected stock, strongly recommended for early garden work. It is as quick as a Radish, clean in growth, and of very fine flavour. This fine Turnip was included in our Gold Medal Collections at Bristol and Chelsea Shows.

1169 **Carters Golden Rose.**—One of the hardiest and best winter Turnips. Flesh of a rich golden-yellow colour, with single tap-root; flavour most delicate and melting. Awarded a Special First Class Certficate at the Vegetable Conference of the Royal Horticultural Society. Included in 3 Large Gold Medal Exhibits.

1167 **Carters Purple-top Strapleaf.**—A variety with plain strap-like leaves and flesh of fine texture; colour of top of root a rich reddish purple. A perfect model in form, and highly valuable for exhibition. Included in the Gold Medal Exhibit of Vegetables at Holland House Show.

Price of the above	½ oz.	1 oz.	¼ lb.	1 lb.
	.10	.25	.75	2.50

1171 **Carters Selected Green-top Stone.**—This stock has been selected for its earliness and quality.

1166 **Carters Jersey Lily.**—The most perfect in outline and the best white garden Turnip grown. In shape as round as an orange, of exquisite flavour, with single tap root, and very distinct small top. This variety was much admired in our Large Gold Medal Exhibits. 63 First Prizes and 3 Gold Medals reported by customers during the past season.

1188 **Orange Jelly.**—Golden flesh.

ORDINARY EARLY VARIETIES.

1181 **Red Top Early Milan.**

1176 **Early Mousetail Snowball.**—White ball.

1178 **Early Selected Stone.**—Round white.

1179 **Early White Strapleaf.**—For light soils; flat, early.

ORDINARY MAIN CROP.

1186 **All the Year Round.**—A yellow-fleshed variety.

1189 **Red American Strapleaf.**—A quick red-top white.

1190 **Red American Stone.**—A large red-topped white round.

Price of the above	¼ oz.	1 oz.	¼ lb.	1 lb.
	.10	.25	.75	2.50

SWEDISH TURNIP OR RUTA BAGA.

All authorities are agreed that it is of the greatest importance that the amount of dry matter, *i.e.*, food solids and sugar, in Mangels, Swedes, and Turnips, should be increased to the largest extent, if the maximum feeding quality is desired, and for several years past the "Carter" Method of Root Selection has been employed for increasing the amount of dry matter of our roots.

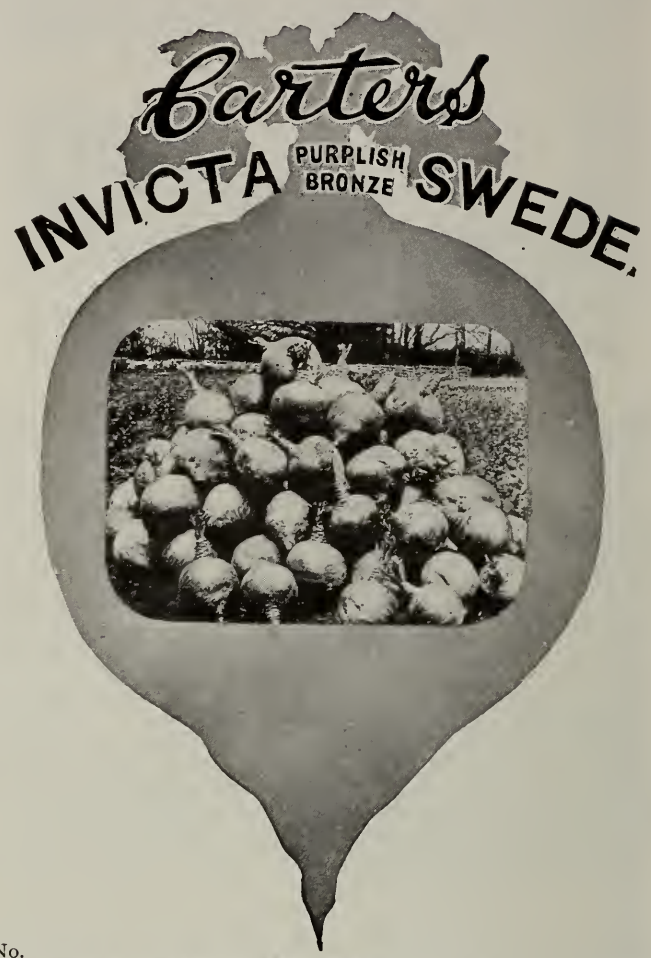
1636 **Carters Holborn Elephant Swede.**—A heavy cropping purple-top, tankard-shaped Swede of the highest feeding value. It is now several years since we introduced this fine Purple-top Swede, and it has, during that time, acquired a large popularity amongst agriculturists. The root grows well out of the ground, is always sound and solid, and the variety adapts itself to almost any soil.

1637 **Carters Prize-winne. Purple-top Swede.**—A purple-topped variety, growing to a large size, with a single tap-root and a very small and fine top. Unlike other varieties which grow with a hard and coarse neck, *Carters Prize-winner Purple-top* has a fleshy top, the leaf-stems breaking almost immediately above the crown of the bulb, which continues to grow and increase in weight long after the "necky" Swedes have mildewed and ceased to improve.

1639 **Carters Holborn Kangaroo Swede.**—A green-top Swede well known on account of its disease-resisting and hardy nature. It is very suitable for growing on poor shallow soils, or for feeding off on the ground. Short harvest and seed very scarce.

1645 **Best of All, Selected.**—A very popular Heavy Cropping Purple-top Globe Swede, small necked and quite hardy.

Price of the above	½ oz.	1 oz.	¼ lb.	1 lb.
	.10	.15	.45	1.50



No.
1638 **Carters Holborn Invicta Swede.**—Purplish-bronze variety. *Carters Holborn Invicta* Swede has become the most popular Swede in cultivation. There is hardly a root competition or agricultural show at which fine specimens will not be found taking a high place in the awards. Not only in England but in all parts of the world where Swedes are grown, notably in Canada and New Zealand, it has become the variety in greatest demand. This extensive popularity and public favour are sure proofs of its outstanding merits, and it is steadily taking the place of older and inferior sorts.

Price	½ oz.	1 oz.	¼ lb.	1 lb.
	.10	.15	.45	1.50

1641 **Sweet German.**—A pure white fleshed variety, very solid in structure, sweet, mild, and well flavoured. It is a good keeper.

1642 **White French or Rock.**—This Swede is a grand keeper, and, of the white varieties is unsurpassed for table or stock.

Price of the above	¼ oz.	1 oz.	¼ lb.	1 lb.
	.05	.15	.45	1.25

SALAD PLANTS, &c.—

Everyone should enjoy the pleasure of salad several days a week, at all events during the summer season, with but trifling expense. It is a wholesome addition to more substantial diet, rendering it grateful to the palate, and it is a pity that it is so rarely brought to table in an average household. We will enumerate a few of the almost unknown salad plants, with some notes on their cultivation.

1253 **Cardoon.**—This vegetable is grown for its edible midrib, and must be blanched in the same manner as Celery. The seed should be sown in the spring where the plants are to remain in drills 3 ft. apart, covering the seed about 1 in. When the plants make a showing thin out to 1 ft. apart.

Celeriac, Carters Improved (*or Turnip-rooted Celery*).—*See page* 14.

1300 **Chervil** is used for seasoning soups and mixing in salads. It is grown from seed sown in spring and in summer for successional crops. The soil should be rich and light, and the bed 4½ ft. wide, with an alley on each side. Sow seed in shallow drills across the bed, 9 in. apart, and rake over the surface. When the leaves have grown an inch or two, cut off for use as required.

Price of the above	⅛ oz.	¼ oz.	½ oz.	1 oz.
	.05	.10	.15	.25

"I am more than pleased with the results obtained from the seeds which I bought of you."—ROBERT W. YEO, 165 Secaucus Road, Homestead, N. J.

SALAD PLANTS, &c.—*Continued.*

No.

548 **Chicory.**—The majority of people know Chicory as an adulterant of Coffee, but few are aware of the part it plays in the salad bowl, to which it adds a pleasing flavour. Chicory is so easily grown and so useful that it should receive more attention from amateurs who desire to grow salads. This plant is sown in late spring in the open ground, and thinned out to about a foot apart to grow through the summer, well watered in dry weather. With the change to a colder season, the leaves decay and nearly all drop off. The roots are then lifted, and a few at a time placed in boxes of rich sandy soil, leaving crown well above the surface. After a good watering these boxes are stood in a perfectly dark place, and in a few weeks, according to the heat, some nicely blanched leaves will be fit to gather. More roots, kept in a cool place until wanted for bringing along in heat, may be similarly treated.

1301 **Corn Salad or Lambs' Lettuce.**—This is a hardy annual, and in great demand as a salad plant on the Continent. In France it is preferred, admired, and relished in winter and spring instead of Lettuce, but it is not nearly so highly appreciated in America as it deserves. But when Endive is scarce Corn Salad is of great service, and for early use should be sown in frames or in boxes and placed in slight heat. For summer sow in a sunny spot, amongst the ordinary low-growing vegetables.

Price of the above	⅛ oz. .10	¼ oz. .15	½ oz. .25	1 oz. .40

DANDELION.—A useful salad plant, especially when Endive and Lettuce are scarce in winter. The roots are grown in a similar manner to Chicory, and large quantities of the blanched leaves are sold in the market for this esculent.

1303 **Improved Large.**—Leaves broad and fleshy; very tender.

1304 **French.**—Leaves finely cut; mild and tender.

Price of the above..	⅛ oz. .15	¼ oz. .25	½ oz. .40	1 oz. .75	¼ lb. 2.75

1309 **Purslain, Golden.**—A succulent plant and raised from seed, which may be sown in light garden soil on a warm sheltered border in a bed, and attended to in the same way as Chervil.

1310 **Purslain, Green.**

1311 **Rampion.**—A plant producing a spindle-shaped root of light colour and of agreeable flavour. It may be raised from seed if sown in a bed in an open warm aspect, and in soil of a rich compost, of a light open texture. Water well in dry weather. Should the season prove mild, the plants will be ready for use in November.

Price of the above ...	⅛ oz. .5	¼ oz. .10	½ oz. .15	1 oz. .25

1319 **Whitloef.**—A distant variety of Chicory, largely grown in Europe, and chiefly noted for the quality of its leaves.

Price	⅛ oz. .10	¼ oz. .15	½ oz. .25	1 oz. .40

HERBS.

In the olden days all careful housewives had a herb garden, and the drying and packing of herbs was an important duty, as it was recognised that the flavouring of most dishes depended on a supply of clean, well-cured, fresh herbs.

Herbs are very easy to grow, and no household is complete without a delightful old-world Herb Garden.

HERBS—*Continued.*

No.

1296 **Balm** *(Melissa officinalis).*—The leaves are used for making balm wine and tea.

1297 **Basil, Sweet** *(Ocimum basilicum).*—The leaves are used for flavouring soups, stews, &c.

1298 **Basil, Bush** *(Ocimum basilicum).*—The most compact and useful form of this valuable herb. Equally suitable for growing in pots or open ground. Sow seed in early spring in boxes and transplant in early summer to open ground. For winter use cut growth when in bloom and tie in bunches, which may be dried in an airy position. The young growth may also be used in a green state.

1299 **Borage** *(Borago officinalis).*—The leaves are used for flavouring, and the flowers are rich in honey. Valuable to bee masters.

1305 **Fennel** *(Anethum fœniculum).*—The leaves are used for making sauces.

1306 **Lavender** *(Lavendula spica).*—The flowers are dried and used by the housewife for scenting the linen.

1307 **Pot Marjoram** *(Origanum vulgare).*—Sow in spring or autumn. Although perennial for culinary purposes, the growth from spring-sown plants may be used during the same season.

1308 **Marjoram, Sweet** *(Origanum marjorana).*—The fresh and dried leaves and young shoots are used for seasoning.

1312 **Rosemary** *(Rosmarinus officinalis).*—The aromatic leaves are used for seasoning. **Crop failed.**

1313 **Sage.**—Used extensively for seasoning.

1314 **Savory, Summer.**
1315 **Savory, Winter.** } The leaves and flowers are used for seasoning soups and dressings.

1316 **Sorrel, Broad-leaved.**
1317 **Sorrel, Winter.** } Very easy to grow; The leaves are of fine flavour, and can be boiled and served like Spinach.

1318 **Thyme** *(Thymus vulgaris).*—The leaves are used for seasoning and are also made into tea for nervous headaches.

1320 **Wormwood** *(Artemisia absinthium).*—Is used medicinally, and if planted in poultry yards is found very beneficial.

Price of the above.. ..	⅛ oz. .10	¼ oz. .15	½ oz. .25	1 oz. .40

12 10c pkts., customers' selection, 1.00
6 10c pkts., customers' selection, .50

1294 **Dill** *(Anthem graveolens).*—The seeds have an aromatic odour and pungent taste. They are used as a condiment and for pickling with Cucumber.

1293 **Peppermint** *(Mentha piperita).*

1291 **Mint Green** *(Mentha vert).*—The leaves are dried and crushed and used for making mint sauce and for flavouring Potatoes, Peas, &c. In the South, the green sprigs are used in making mint julep.

1292 **Spearmint** *(Mentha viridis).*—Used as above.

Price of the above	1/16 oz. .25

CARTERS TESTED GRASS SEEDS

ARE TO-DAY BEING USED BY EVERY CHAMPIONSHIP AND PROMINENT GOLF AND COUNTRY CLUB IN THE WORLD.

"CAPE" HOLE—NATIONAL GOLF LINKS OF AMERICA, SOUTHAMPTON, N. Y.

Carters Tested Seeds used on this course

GRASS SEEDS PRESCRIBED FOR ALL SOILS AND PURPOSES

For Lawns, Shaded Lawns, Tennis Courts, Golf Courses, Bowling Greens, Cricket Grounds, Football, Baseball, and Polo Fields.

Carters Finest Mixtures of Grass Seeds for Putting Greens or Tennis Courts (without Rye Grass).—Mixtures of the very fine bladed species, which, if sown according to our recommendations, should produce a close, thick turf on all good soils, and are especially suitable for all games in which the ball is required to run true.

Lots under 20 bushels .. Per bush. (25 lb.), 10.50; 100 lb., 42.00 Lots of 20-50 bushel .. Per bush. (25 lb.), 10.00; 100 lb., 40.00
Lots of 50 bushels or over .. Per bush. (25 lb.), 9.75, 100 lb., 38.00.

When ordering state whether the soil is light, medium, or heavy, as a mixture is sent accordingly.

Carters Fine Mixture of Grass Seeds for Fair Greens, Trees, Lawns, Shaded Grounds, Football, Baseball, Polo Fields, etc. (without Rye Grass).—Mixtures not so fine as the above, but better adapted for the purposes where a turf of the finest texture is not required, producing a strong, hardwearing turf.

Lots under 20 bushels .. Per bush. (25 lb.), 9.50; 100 lb., 38.00 Lots of 20-50 bushels .. Per bush. (25 lb.), 9.00; 100 lb., 36.00
Lots of 50 bushels or over .. Per bush. (25 lb.), 8.75.

When ordering state whether the soil is light, medium, or heavy, as a mixture is sent accordingly.

Carters Invicta Lawn Grass Seeds (with Rye Grass)—An all-round mixture of fine, hardy grasses for Lawns, Golf Courses, especially the Tees, Tennis Courts, Shaded Grounds, etc.

Lots under 20 bushels .. Per bush. (25 lb.), 6.50; 100 lb., 26.00 Lots of 20 bushels or over .. Per bush. (25 lb.), 6.25; 100 lb., 25.00
Per lb., .35; 5 lb. bags, 1.50; 10 lb. bags, 2.75

Carters City and Suburban Mixture of Grass Seed (with Rye Grass).—This splendid Mixture is specially prepared for city and suburban grass plots, and for sowing around shacks and bungalows where fast results and a beautiful green turf is required. Sow at the rate of 1 oz. per square yard.

Per lb., .30; 5 lb., 1.35; ½ bushel (12½ lb.), 2.75; per bushel (25 lb.) 5.00

All above prices F. O. B. Boston and subject to change without notice.

Sowing Grass Seed. (Quantity of seed required.) In sowing a new lawn, use 8 to 10 bushels or 200 lbs. per acre. Figure a small lawn at the rate of 1 oz. of seed per square yard. Use half the above quantities for renovation purposes.

DO YOU KNOW THE CARTER SYSTEM

of making Golf Courses, Lawns, etc. Write for our pamphlet, "The Making of a Lawn," which deals with the making and renovation of grassy lands, post free.

We stock the following separate varieties and make up special mixtures to order :—Prices quoted on application.

RHODE ISLAND BENT (*Agrostis canina*).
RED TOP (*Agrostis vulgaris*).—Recleaned, fancy.
CRESTED DOGSTAIL (*Cynosurus cristatus*).
ORCHARD GRASS (*Dactylis glomerata*).
SHEEP'S FESCUE (*Festuca ovina*).
RED FESCUE (*Festuca rubra*).
TIMOTHY (*Herd's Grass*).—Recleaned.
CANADA BLUE GRASS (*Poa compressa*).
KENTUCKY BLUE GRASS (*Poa pratensis*).
WOOD MEADOW GRASS (*Poa nemoralis*).
YARROW (*Achillea millefolium*).
ENGLISH RYE GRASS (*Lolium perenne*).
ITALIAN RYE GRASS (*Lolium Italicum*).
WHITE CLOVER (*Trifolium repens*).
ALFALFA OR LUCERNE.—Recleaned.
ALSIKE CLOVER (*Trifolium hybridium*).
RED CLOVER (*Trifolium pratense*).
CRIMSON CLOVER (*Trifolium incarnatum*).
MIXED POAS.—Including *Poa annua*.

CARTERS TESTED SEEDS, Inc., 102–106 CHAMBER OF COMMERCE BLDG., BOSTON, MASS.

CARTERS STANDARD PRESCRIPTIONS.

Arranged in proportions calculated to prevent the stronger growing species from smothering or killing out the finer varieties that thicken the herbage. This selection and "balancing" of mixtures can only be done by the experienced grass experts.

All Prices F. O. B. Boston and subject to change without notice.

CARTERS COMPLETE GRASS FERTILIZERS.

Carters Complete Grass Manure (No. 1) is, as its name implies, a complete grass food, that is to say, it contains all that is necessary for the growth of fine grasses, but it does not force or burn them.

Directions for use.—When making a new lawn or green, spread the manure evenly over the surface at the rate of 2 oz. per square yard, and rake it in. The seed can be sown immediately afterwards, but it is better to allow a few days to elapse between the two operations. For renovating a lawn, spread the manure evenly over the ground at the rate of 2 oz. per square yard, and rake it in whilst preparing the surface for the seed. When used to improve existing turf, sow at the rate of 2 oz. per square yard, mixing the manure with two or three times its own bulk of sifted sandy soil or sharp sand—sea sand—when treating heavy soils.

Per bag (100 lbs.), 6.50; per ½ ton (10 bags), 62.50; per ton (20 bags), 120.00

Carters Anticlover Manure (No. 2) is also a complete grass food. It is slightly quicker in action than the above, and its constituents are so balanced that it effectively checks the growth of clover, and for this reason is very valuable for dressing Putting Greens, Tennis Courts, Croquet Lawns, and other Lawns in which the growth of clover is objectionable.

Directions for use.—Sow at the rate of 2 oz. per square yard, mixing the manure with two or three times its own bulk of sifted soil when treating light sandy soils, or sharp sand—sea sand—when treating heavy soils.

Per bag (100 lbs.), 6.75; per ½ ton (10 bags), 65.00; per ton (20 bags), 125.00

Carters General Purposes Manure (No. 3), for rejuvenating large areas of turf for field games where a strong, tough, hard-wearing turf is required, rather than one of the finest texture. Very useful for dressing Golf Courses, Football, Hockey, Cricket Fields, &c.

Directions for use.—Mix the manure with two or three times its own bulk of sifted soil or sand, so as to facilitate its even distribution, and apply it broadcast at the rate of 500 lb. per acre, either in early autumn or spring and brush-harrow it in.

Per bag (100 lbs.), 5.25; per ½ ton (10 bags), 50.00; per ton (20 bags), 98.00

Carterite, for exterminating daisies and shallow-rooted weeds in Lawns, &c.

Per 25 lb., 2.25; 50 lb., 4.25; 100 lb., 8.00; 500 lb., 35.00; 1,000 lb., 65.00

Rex Humus.—One of the very best top dressings for Lawns, Putting Greens, Tennis Courts, &c., and for renewing thin or impoverished soil. Humus is a necessity in all soils. Rex Humus is five times stronger and lasts longer than the richest barnyard manures. 1 cubic yard of Rex Humus will cover 144 square yards to a thickness of ¼ in. 1 ton of Humus is nearly 2 cubic yards. An inch covering on an acre of ground requires 120 cubic yards of Humus or about 60 tons (2 carloads). *Pamphlet with full information sent on request.*

F.O.B. Boston—Per 100 lb., 1.50; per 500 lb. (5 bags), 6.50; per ton (20 bags) 20.00
F.O.B. New Jersey—Per ton, in bulk, 9.00

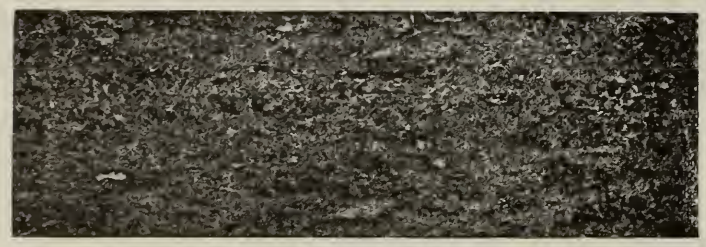
Pulverized Sheep Manure.—Best quality, free from weed seeds.

F.O.B. Boston—Per 100 lb. bags, 2.75; per 500 lb. bags, 12.50; per ½ ton (10 bags), 24.00; per ton (20 bags), 45.00

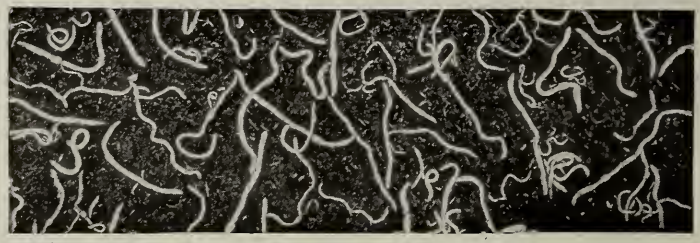
Special prices on larger quantities F.O.B Chicago, Ill. quoted on application.

For other Manures please see Index.

All Manures F.O.B. Boston, Mass., U.S.A., except where otherwise stated.



A typical piece of Worm-infested Soft, Muddy Turf
Requires brushing and rolling daily, which means damaged turf, roots bruised and exposed, fine grasses smothered, and ultimate bare patches.



Five minutes or so later, the worms coming to the surface after CARTERS WORM KILLER has been watered in.

Peter Lees, the well-known Greenkeeper, watering in CARTERS WORM KILLER.

The result of using Carters Worm Killer.
Turf clean, firm, and healthy; an occasional light rolling alone necessary to keep it in perfect playing condition.

Carters Worm-eradicating Fertilizer.—A preparation for removing earth worms from Lawns, Putting Greens, Tennis Courts, &c., at the same time having a stimulating effect on the turf.

Plenty of water should be used in washing this powder into the turf and a day selected when the worms are working near the surface. *Special circular sent on request.*

Per ton (20 bags), 185.00; ½ ton (10 bags), 97.50; bag (100 lb.), 10.00
F.O.B. Boston, Mass., U.S.A.

CARTERS TESTED FLOWER SEEDS.

INDEX.

*NOTICE.—We have arranged our list of Flowers in strictly alphabetical order, by the SIDE Headings in capitals, thus—***ABRONIA,** *and the more popular kinds in larger capitals, thus,* **AGERATUM.** *This will be found to give direct reference to the requirements of our customers, in place of the separate index at end of Catalogue.*

ABRONIA (Sand Verbena).—Half-hardy annual of elegant trailing habit for rockeries and dry places. Sow in early spring in pots and plant out, or sow out of doors in May.

No.
3137 **Umbellata.**—Rosy pink.

	250 seeds.	500 seeds.	1,000 seeds.
Price ...	.10	.15	.25

ABUTILON (Indian Mallow).—Elegant form. Useful for conservatory decoration and for sub-tropical bedding. Sow in heat early in spring, and pot off as soon as large enough to handle. For bedding out they should be hardened off well before planting out. Ht. 6 ft.

3141 **Carters Choicest Mixed.**

	20 seeds.	40 seeds.	100 seeds.
Price ...	.25	.45	1.00

ACACIA (Mimosa, Wattles).—Shrubs in high repute for decorative purposes under glass.

3144 **Amata** (*Kangaroo Thorn*).—Good pot plant.

3145 **Lophantha.**—Elegant foliage.

3146 **Carters Choice Mixed.**—All the best kinds.

	75 seeds.	150 seeds.	300 seeds.
Price of the above	.15	.25	.45

ACHILLEA.—Perennial; hardy.

3149 **Ptarmica, fl. pl.**—Pure white. Double dwarf. Good for cutting.

	200 seeds.	400 seeds.	800 seeds.
Price ...	.10	.15	.25

ACHIMENES.—Tuberous rooted. Sow in heat in February, and treat as Gloxinias.

3152 **Carters Choice Mixed.**

	250 seeds.	500 seeds.	1,000 seeds.
Price ...	.25	.45	.75

ACONITUM.—Perennial; hardy.

3155 **Napellus.**—Bright blue. Good for borders.

	100 seeds.	200 seeds.	400 seeds.
Price ...	.10	.15	.25

ACROCLINIUM.—*See* Everlasting Flowers.

ADLUMIA.—A hardy climber.

3158 **Cirrhosa or MountainFringe.**—Blooms first year.

	100 seeds.	200 seeds.	400 seeds.
Price	.15	.25	.45

AGERATUM.—Half-hardy annual, neat habit, with effective flowers, mostly lavender blue; very useful in beds or along borders. Sow early in spring in pans, in heat, and prick off when the seedlings are sufficiently advanced in growth. Can also be sown outdoors in May.

3000 **Imperial Dwarf Blue.**—The finest bedding variety in cultivation. Ht. 9 in.

	1,000 seeds.	2,000 seeds.	4,000 seeds.
Price ...	.10	.15	.25

AGERATUM—*Continued.*

No.
3001 **Blue Star.**—The most compact Ageratum yet introduced. Light blue. Ht. 6 in.

3002 **Little Dorrit.**—Lavender. Ht. 6 in.

3003 **Victoria Louise.**—Dwarf; light blue, white centre; showy.

3004 **Imperial Dwarf White.**—Ht. 9 in.

3005 **Carters Lavender Band.**—New. Extremely dwarf, of soft lavender hue. Ht. about 4 in.

3006 **Mexicanum.**—Ht. 1½ ft.

	1,000 seeds.	2,000 seeds.	4,000 seeds.
Price of the above ...	.10	.15	.25

AGROSTEMMA.—*See* Rose Campion.

ALONSOA.—Treat as half-hardy annual; pretty plants for borders.

3161 **Warscewiczii.**—Scarlet. Ht. 2 ft.

	1,000 seeds.	2,000 seeds.	4,000 seeds.
Price ...	.10	.15	.25

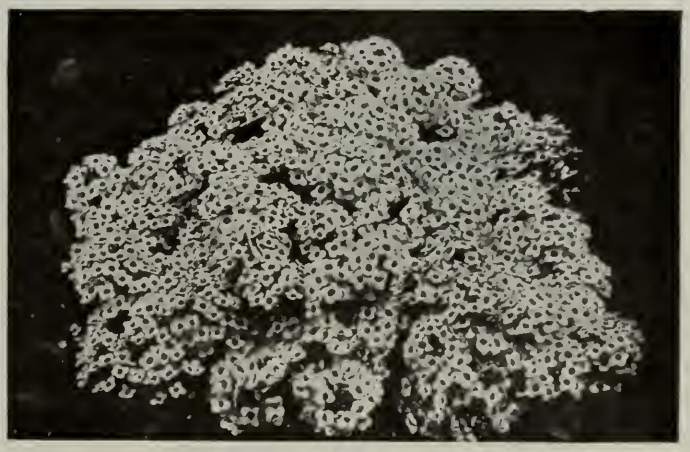
ALSTRŒMERIA (Peruvian Lily).—Perennial. Sow in gentle heat early in spring, and prick off.

3164 **Carters Choice Mixed.** Ht. 1½ ft.

	50 seeds.	100 seeds.	200 seeds.
Price ...	.10	.15	.25

ALTHEA.—*See* Hollyhock.

ALYSSUM.—For spring or summer. Good pot or rockery plants. Easily grown.



3030 **Carters Snow Carpet** (Annual).—One of the most valuable dwarf bedding plants of modern introduction. Perfectly hardy. If transplanted a foot apart the plants spread out their side branches along the ground until they meet, becoming covered with pure white flowers, giving the effect of a snow carpet. Flowers through the summer and autumn until cut off by frosts. Ht. 4 in.

	1/16 oz.	⅛ oz.	¼ oz.	½ oz.	1 oz.
Price ...	.10	.15	.25	.45	.75

3031 **Maritimum Sweet Alyssum** (Annual).—White. Ht. 9 in.

	¼ oz.	½ oz.	1 oz.
Price ...	.10	.15	.45

3032 **Saxatile sulphureum** (Perennial).—New shade. Ht. 9 in.

3033 **Saxatile compactum.**—Hardy perennial for rockwork. Bright yellow. Ht. 6 in.

	250 seeds.	500 seeds.	1,000 seeds.
Price of the above ...	.10	.15	.25

AMARANTHUS.—Half-hardy annuals with very ornamental foliage. Sow in March in gentle heat.

3167 **Melancholicus ruber.**—Maroon. Hardy. Ht. 1 ft.

3169 **Salicifolius.**—Long, graceful, willow-like foliage, tinted crimson and gold. Ht. 3 ft.

3170 **Tricolor.**—Sub-tropical. Colours scarlet, crimson, and gold Ht. 2 ft.

	750 seeds.	1,500 seeds.	3,000 seeds.
Price of the above ...	.10	.15	.25

AMARYLLIS.—Stove and warm greenhouse bulbous plant.

No.
3173 **Extra choice Hybrids.**—Cross fertilised, and saved from one of the finest collections of rich and varied colours; fine form and substance.

Price ...	25 seeds.	.50

AMBROSIA MEXICANA.

3176 Delicate perfumed foliage. Hardy annual. Ht. 1 ft.

Price ...	750 seeds.	1,500 seeds.	3,000 seeds.
	.10	.15	.25

AMMOBIUM ALATUM.—Half-hardy annual of easy culture. Sow in spring in borders.

4009 **White Everlasting.** Ht. 2 ft.

Price ...	1,000 seeds.	2,000 seeds.	4,000 seeds.
	.10	.15	.25

ANAGALLIS (PIMPERNEL).—An old-fashioned half-hardy annual. Will flower all the season in warm soils, or may be grown in pots for greenhouse decoration.

3117 **Large Blue.**—Ultramarine. Ht. 6 in.

Price ...	750 seeds.	1,500 seeds.	3,000 seeds.
	.10	.15	.25

ANCHUSA (BUGLOSS).—Hardy perennials, of easy culture. Sow in spring and transplant.

3182 **Capensis** (*Cape Forget-me-not*).—Blue. Blooms in 10 weeks from sowing. Ht. 1½ ft.

Price ...	250 seeds.	500 seeds.	1,000 seeds.
	.10	.15	.25

3183 **Italica.**—Brilliant hue. Ht. 3 ft.

Price ...	100 seeds.	200 seeds.	400 seeds.
	.10	.15	.25

3184 **Dropmore Variety.**—A very fine variety with heads of beautiful flowers of a lovely gentian-blue shade. Excellent for cutting. Ht. 4 ft.

Price ...	30 seeds.	60 seeds.	120 seeds.
	.25	.45	.75

ANEMONE (WIND FLOWER).—These beautiful spring and autumn flowers are perfectly hardy. Nos. 3187 and 3188 are bulbous, and 3189 and 3190 are herbaceous perennials. Seed of the tuberous varieties should be sown thinly in light soil in spring and remain in seed bed until after flowering. We can also supply dry bulbs in fall or early spring.

3187 **St. Brigid.**—Double and semi-double. Easily grown from seed.

3188 **Coronaria** (*Poppy Anemone*).—Beautiful single large-flowered varieties.

3189 **Japonica.**—Hardy perennial, flowering in September; soft rose. Ht. 2 ft.

3190 **Japonica Honorine Joubert.**—The best white for cutting. Ht. 2 ft.

Seeds cannot be counted. Price per pkt., .10, .15, .25.

ANTIRRHINUM or SNAPDRAGON.

Sow the seed in pans or boxes from February to March, and transplant to bed or border when large enough. If the withering flowers and seed pods are kept picked off, the plants will last in bloom for a long time, and continue again the following year. Can easily be grown as annuals if sown in the open ground in April. Thin out about 1 ft. apart.

CARTERS TALL LARGE-FLOWERED.

This fine hardy perennial, which should be treated as an annual for bedding, has been greatly improved in size and colourings. Ht. 2 to 3 ft.

3039 **Fire King.**—Bright cinnabar red, with small yellow spot on the under lip; effective.

3040 **Purple King.**—A Snapdragon of enormous size.

3041 **Carters Fiery Red, yellow lip.**—A very bright variety.

3042 **Venus.**—Noble flower of a delicate rose colour on white ground.

3043 **Carters Crimson.**—Rich colour.

3044 **Carters Coral Red.**—Deep rosy colour with faint pale primrose shading on lip.

3045 **Carters White.**—Long spikes of pure white flowers.

3046 **Carters White, rose lip.**—Pure white blooms with faint shading of pale rose on the lip. Chaste and delicate.

3047 **Carters Striped**—Each flower beautifully veined and striped on white, rose, and yellow grounds.

3048 **Carters Yellow**—Pure clear pale golden shade; very telling.

3049 **Carters Crimson, white throat, yellow lip.**

3050 **Carters Pink.**—Delicate rose and pink shades.

3052 **Carters Tall Large-flowered Mixed.**—Ht. 2 to 3 ft.

	1,000 seeds.	2,000 seeds.	4,000 seeds.
Price of the above	.10	.15	.25

ANTIRRHINUMS —*Continued.*

INTERMEDIATE LARGE-FLOWERED.

This is undoubtedly the finest form, both for bedding and ribbon borders, the dense, well-formed trusses contrasting beautifully with the deep green foliage. The trusses are excellent for cutting, and being slightly curved lend themselves to any decorative arrangement. Ht. 1 to 1½ ft.

No.
3058 **NOVELTY.** **Nelrose.**—This is the wonderful glowing pink variety. The seed we offer is a highly-selected stock, which is true, with the exception of a very small proportion of plants which produce flowers of a slightly darker shade of pink than the type. No Antirrhinum can compare with it for indoor decoration, and it is equally effective for beds or borders.

3060 **Carters Gold Crest.**—Soft rose-pink, tinged salmon, with golden orange lip. We predict a great future for this remarkably brilliant variety as a bedding plant.

3061 **Carters Scarlet Flame.**—A self brilliant fiery scarlet, hence the name we have given to it. In the sunshine the spikes look flame-like in their brilliancy.

3062 **Carters Terra Cotta and Creamy Shades.**—A charming strain of soft, delicate shades which are quite new.

3063 **Carters Fiery Belt.**—A most striking colour, fiery brilliant orange-scarlet, with white throat. Enlivens the whole garden.

3064 **Carters Pink.**—Quite a charming variety. Delicate pink with white throat.

3065 **Black Prince.**—Velvety crimson blooms borne on graceful tapering spikes; dark purplish foliage. A most decorative variety, rather taller than other intermediate kinds.

3066 **Carters Butterfly.**—Purplish crimson flowers, with white throat, which gives a remarkably light decorative effect to this dark coloured variety.

3067 **Carters Gloriosa.**—Rich carmine-rose, relieved by white.

3068 **Carters Crimson.**—A very select pure strain of deep crimson colour, one of the richest shades, and very telling combination with our white and yellow varieties.

3069 **Carters White.**—Pure white flowers from which the sulphur lip prevalent in most so-called whites has been practically eliminated. Very even habit.

3070 **Carters Yellow.**—Clear pure golden blooms. Even habit.

3074 **Carters Intermediate Mixed.**—One of the most popular sections for beds or borders. A very wide range of colour occurs in this strain. The plants, which are of even habit, are sufficiently tall to produce a graceful effect.

	1,000 seeds.	2,000 seeds	4,000 seeds.

ANTIRRHINUM—*Continued.*

CARTERS DWARF LARGE-FLOWERED.

A compact strain. Flowers variously coloured. This type makes a good pot plant, and is invaluable in borders or beds. Ht. 6 in.

No.

3080 **Carters Crimson.**—Clear, rich shade, very free flowered.

3081 **Carters Rose.**—A particularly charming shade of old rose. This variety attracted considerable attention at the R.H.S. trials, lady visitors being particularly impressed with its beauty.

3082 **Carters White.**—Pure white flowers in greatest profusion.

3083 **Carters Yellow.**—The best type of clear yellow in this section.

3084 **Carters Fiery Red, yellow lip.**

3085 **Carters Deep Rose, white throat, yellow lip.**

3086 **Carters Crimson, white throat, yellow lip.**

3087 **Carters Striped.**—Endless shades of all striped and blotched varieties.

3090 **Carters Dwarf Choicest Mixed.**

	1,000 seeds.	2,000 seeds.	4,000 seeds
Price of the above ..	.10	.15	.25

ANTHEMIS.—Hardy perennial.

3193 **Tinctoria Kelwayi.**—Pretty lemon-coloured Daisies; useful for cutting.

	200 seeds.	400 seeds.	800 seeds.
Price ...	.10	.15	.25

AQUILEGIA.—Hardy perennials of great beauty and utility. The long-spurred type, of which we make a speciality, gives elegant cut flowers. We have now included some new and effective colours. Sow seeds under cover in February for transplanting in spring to a border, when, if the summer is favourable, they may bloom in autumn. If sown in summer sturdy plants will be ready by autumn for transplanting to the border to flower next May and June.

3100 **Carters Long-spurred, Rose and Pink Shades.**—A very pretty strain of robust habit, containing a wide range of charming shades, from deep rose through rosy carmine to pale pink and flesh. Ht. 2 ft.

3101 **Carters Long-spurred, Blue Hybrids.**—This is a very fine strong-growing form of *Aquilegia cœrulea*. The blooms are much larger than the type, and the plants extremely floriferous. Ht. 1 ft.

3106 **Glandulosa.**—A dwarf form with short spurs, remarkable for the contrast between the blue corolla and white sepals. Ht. 1 ft.

	250 seeds.	500 seeds.	1,000 seeds.
Price of the above ...	.25	.45	.75

3105 **Californica hybrida.**—Long-spurred hybrids. Yellow corolla with golden spurs. Ht. 2½ ft.

3102 **Carters Long-spurred Golden.**—Pure golden shade; a very charming form. Ht. 2 ft.

	500 seeds.	1,000 seeds.	2,000 seeds.
Price of the above ..	.15	.25	.45

AQUILEGIA—*Continued.*

No.

3103 **Carters Long-spurred, Double Golden.**—A double form of the species. This seedling strain is more robust than the original form, and comes about 50 per cent. double, but all flowers are of the same golden shade.

3104 **Carters Long-spurred, White.**—Similar in habit to the above varieties. Flowers pure white, with pale blue. A very chaste form. Ht. 2 ft.

3107 **Carters Long-spurred, all colours Mixed.**—This strain represents the last word in Aquilegias, and contains numerous fine forms which cannot be fixed in their separate colours. We have placed great importance upon robustness of habit in selecting this unique strain. Ht. 2½ ft.

3110 **Columbine, Carters Hybrids.**

3112 **Columbine, Carters Mixed Double.**—A splendid mixture of very double forms.

	500 seeds.	1,000 seeds.	2,000 seeds
Price of the above ..	.15	.25	.45

ARABIS.—Hardy perennial for spring bedding.

3196 **Albida.**—White; neat. Ht. 6 in.

3197 **Alpina.**—Paper white. Ht. 6 in.

	1,000 seeds.	2,000 seeds.	4,000 seeds.
Price of the above ...	.10	.15	.25

ARALIA.—Foliage plants for general purposes. Sow in pots in early spring, in heat, and pot off.

3200 **Papyrifera** (*Rice Paper Plant*).

3201 **Sieboldi.**—Palmate foliage.

	50 seeds.	100 seeds.	200 seeds.
Price of the above ...	.10	.15	.25

No. 3120 Arctotis grandis.

ARCTOTIS.—Half hardy. An annual from South-west Africa. Most useful for cutting, having long stalks.

3120 **Grandis.**—Daisy-like flowers, pure white, lilac on the outside, with a lavender disc. Of very easy culture, flowering all the summer. Ht. 2 ft.

	50 seeds.	100 seeds.	200 seeds.
Price ...	.10	.15	.25

ARGEMONE (PRICKLY POPPY).—Sow in March and plant out in sunny borders. Very easily grown.

3123 **Grandiflora.**—Hardy annual; white.

	250 seeds.	500 seeds.	1,000 seeds.
Price ...	.10	.15	.25

ARISTOLOCHIA (THE DUTCHMAN'S PIPE).—Climbing plants, with curious pipe-shaped flowers. Sow in heat in March, and pot off.

No.
3204 **Elegans.**—Perennial; handsomely spotted, for conservatory.
Price ... 200 seeds. .25

3205 **Sipho.**—Hardy climber; splendid foliage, and easily grown.
Price ... 50 seeds. .25

ARMERIA (THRIFT OR SEA PINK).—A hardy perennial rock plant.

3207 **Maritima.**—Pink. Ht. 6 in.

3208 **Formosa.**—Ht. 1½ ft.

	250 seeds.	500 seeds.	1,000 seeds.
Price of the above ...	.10	.15	.25

ASCLEPIAS.—Hardy perennial.

3211 **Tuberosa.**—Very showy orange colour. Ht. 2 ft.

	125 seeds.	250 seeds.	500 seeds.
Price ...	.10	.15	.25

ASPARAGUS PLUMOSUS.—Easily raised from seed sown in early spring in heat. Valuable for bouquets and table decoration. Also makes a nice plant for conservatory, or over a trellis.

3126 **Asparagus plumosus nanus.**
Price ... 20 seeds. .25 100 seeds. 1.00

3127 **Asparagus Sprengeri.** A grand basket plant.
Price ... 50 seeds. .10 500 seeds. .75

ASPERULA.

3214 **Odorata** (*Woodruff New Mown Hay*).—The dried leaves and stems are very fragrant. Perennial white, sweet scented. Ht. 4 in.

	250 seeds.	500 seeds.	1,000 seeds.
Price ...	.10	.15	.25

ASTER.—The whole group may be described as half-hardy annuals, the seeds being best sown under glass in early spring, and the seedlings pricked out into boxes or in frames for planting out or potting as the occasion requires, when they are ready about June.

No. 3269 Carters Large Flowered.

No. 3285 Carters Carmine Queen.

3269 **NOVELTY.** **Carters Large-flowered** *(see Photograph).*—A very fine strain of tall open habit. The large well-formed blooms are carried on very long stiff stems, and are splendid for decoration. Principally bright cerise, medium blue, pale blue, shell pink, delicate rose, and pure white.

	50 seeds.	100 seeds.	200 seeds.
Price	.10	.25	.45

3285 **NOVELTY.** **Carters Comet Carmine Queen.**—A novel introduction of great beauty. The plants are of graceful habit, and the well-formed blooms are carried well above the foliage. The florets, which open pure yellow, shade as the blooms develop to a soft terra-cotta carmine. A particularly beautiful combination by artificial light.

	50 seeds.	100 seeds.	200 seeds.
Price	.10	.25	.45

RAY.

Quite a unique type of the annual Aster. The flowers, which are very large, often 5 in. across, are produced on long stalks, and have prettily arranged quilled petals. Fine for cutting, as they last a week in water if cut before fully expanded. Ht. 1½ ft.

3225 **Carters Crimson.**
3226 **Carters Dark Blue.**
3227 **Carters Carmine Rose.**
3229 **Carters Azure Blue.**
3230 **Carters Pure White.**
3231 **Carters Mixed.**

	100 seeds.	200 seeds.	400 seeds.	1,000 seeds.
Price	.10	.15	.25	.60

ASTER—*Continued.*

CARTERS VICTORIA.

A beautiful type. The blooms are large, profuse, and handsome, whether grown in beds or pots. It has a good habit, and makes a grand end of summer bedding plant. Ht. 1½ ft.

No.
3234 **Carters Dark Blue.**
3237 **Carters Rose.**
3239 **Carters Sulphur Yellow.**
3240 **Carters White.**
3241 **Carters Crimson.**
3242 **Carters Splendid Mixture.**

	100 seeds.	200 seeds.	400 seeds.	1,000 seeds.
Price of the above...	.10	.15	.25	.60

LARGE SINGLE COMET, FLOWING PETALS

An improved type of the original single variety. There is quite a rage for these as cut flowers, for which purpose they are eminently adapted. In a bed, too, they make quite an effective display until autumn is well in. Ht. about 1 ft.

3258 **Carters Choicest.**—All colours mixed.

	100 seeds.	200 seeds.	400 seeds.	1,000 seeds.
Price ...	.10	.15	.25	.60

ASTER—*Continued.*

CARTERS PLUME.

We particularly recommend these varieties for cutting. The blooms, equalling Chrysanthemums in form, are borne on long stems, and the three shades blend well together. The most noble flowered Aster in cultivation. With flowing feathery petals; grand for cutting. We have measured blooms 6 in. across. Ht. about 1½ ft.

No.
3261 **Carters White.** 3263 **Carters Rose.**
3262 **Carters Blue.** 3267 **Carters Choice Mixed.**

	100 seeds.	200 seeds.	400 seeds.	1,000 seeds.
Price of the above...	.10	.15	.25	.60

CARTERS PÆONY-FLOWERED.

A very fine type for bedding, with large well-shaped blooms, the petals curving inwards. Very hardy. Ht. 1½ ft.

3270 **Carters Crimson.** 3273 **Carters White.**
3271 **Carters Blue.** 3276 **Carters Carmine.**
3272 **Carters Rose.** 3280 **Carters Choice Mixture.**

	100 seeds.	200 seeds.	400 seeds.	1,000 seeds.
Price of the above...	.10	.15	.25	.60

IMPROVED COMET.

A very attractive class, with flowing petals, for pot work or planting out. Fine for cutting. A great improvement on the original Comet. Ht. about 2 ft.

3302 **Azure Blue.** 3306 **Pink.**
3303 **Dark Blue.** 3308 **White.**
3305 **Crimson.** 3311 **Carters Choice Mixed,** all colours.

	100 seeds.	200 seeds.	400 seeds.	1,000 seeds.
Price of the above...	.10	.15	.25	.60

CHRYSANTHEMUM-FLOWERED.

A dwarf variety of great beauty, the Aster most used for bedding. The petals are reflexed. Effective as a pot plant. Ht. 1 ft.

3314 **Dark Blue.** 3318 **Purplish Violet.**
3315 **Fiery Scarlet.** 3319 **Rose.**
3316 **Crimson.** 3321 **Carters Choice Mixture.**
3317 **White.**

CARTERS SINENSIS SINGLE.

A free-growing single Aster, suitable for vases and house decoration. Ht. 1½ ft.

3326 **Blue.** 3329 **White.**
3327 **Mauve.** 3330 **Mixed.**
3328 **Pink.**

	100 seeds.	200 seeds.	400 seeds.	1,000 seeds.
Price of the above...	.10	.15	.25	.60

VICK'S LATE BRANCHING ASTER.

A very popular and vigorous type of Aster, the plants of which produce an abundance of graceful feathery typed flowers, which stand erect on strong stems.

No.
3350 **Blue.** 3352 **Pink.** 3354 **Mixed.**
3351 **Crimson.** 3353 **White.**

	100 seeds.	200 seeds.	400 seeds.	1,000 seeds.
Price of the above..	.10	.15	.25	.60

VARIOUS ASTERS.

3332 **Extra Early Midsummer Scarlet.**—Comes into bloom about middle of June; a striking pot plant.

3336 **Carters Extra Early Ostrich Feather.**—A noble flower of the purest white, long curved flowing petals. Grand for exhibition or table; blossoms 7 to 8 in. across.

3339 **Queen of the Market.**—A very early class. Ht. about 1½ ft.
White **Pink** **Light Blue** **Crimson** **Mixed**

	100 seeds.	200 seeds.	400 seeds.	1,000 seeds.
Price of the above ..	.10	.15	.25	.60

3347 **Perennial** (*Michaelmas Daisies*).—Hardy perennials. Sow in early spring, in gentle heat, and prick off. Carters splendid mixture. Ht. various.

	250 seeds.	500 seeds.	1,000 seeds.
Price	.10	.15	.25

No. 3130 Aubrietia, Whitewell Gem.

AUBRIETIA.—Great favourites for spring bedders, rockeries, &c. Perennial, quite hardy. Bright perpetual bloomers. Easily raised from seed sown in spring. Ht. 4 in.

3130 **Whitewell Gem.**—Originally found in an old Shropshire garden twenty years ago. Continual selection has improved and fixed the strain. The individual flowers are large and of an intense glowing reddish purple, freely produced on long stems. The plants are remarkably vigorous and remain in flower for many weeks. This latter characteristic is one of its most valuable assets.

3131 **Deltoidea.**—Blue. 3133 **Græca.**—Pale mauve.
3134 **Purpurea.**—Dark.

	500 seeds.	1,000 seeds.	2,000 seeds.
Price of the above ...	.10	.15	.25

3132 **Leichtlini.**—Rosy lilac.

	500 seeds.	1,000 seeds.	2,000 seeds.
Price ...	.25	.45	.75

AURICULA.—Hardy perennial. Sow seeds in August or February, and pot off. This is one of the best and most interesting of the florists' flowers for amateurs' cultivation. The smallest seedings frequently produce the choicest blooms

3217 **Carters Prize Show**—Saved from only the choicest.

	200 seeds.	400 seeds.	800 seeds.
Price ..	.25	.45	.75

	250 seeds.	500 seeds.	1,000 seeds.
3218 **Alpine.** Price ..	.10	.15	.25

AZALEA.—Evergreen greenhouse shrubs. Sow under glass in spring and pot off, using a compost of two-thirds peat with leaf mould.

3221 **Show** (*Ghent*) **Varieties.**—Superb mixture. Ht. 3 ft.

3222 **Pontica**—Hardy garden species; excellent. Price per pkt., .50.

BACHELOR'S BUTTON.—*See* Cornflower.

BALSAM.—Balsams may be sown from the beginning to the middle of April in pans or in a slight hotbed, in a light, rich loam, covering the seed about half an inch, keeping the soil moist, but not wet. When the plants have formed the second leaves they may be transplanted into pots, and gradually hardened off for transplanting out of doors in June, when they may be placed in the open borders, the warmest situations being the most suitable, and allowing 2 ft. each way between the plants. If for pot culture, they must be divided and transplanted into small pots, once or twice into larger pots, picking off the flowers in the earlier stages of growth to give greater vigour.

No.
3390 **Carters Challenger, Superb Mixture.**—A highly select strain, the individual blooms being perfect in form and of splendid substance. The shades range from pure white through flesh, clear, and deep pinks to scarlet. Many lovely new mauve and purple shades are also contained in this unique strain. Matchless in form, substance, size and colours.

3391 **Carters Rose Queen.**—This beautiful variety produces enormous spikes of large double flowers of a delicate rose colour; excellent habit; very striking.

3392 **Camellia-flowered.**

3393 **Double mixed.**—For pots or borders.

	250 seeds.	500 seeds.	1,000 seeds.
Price of the above ...	.10	.15	.25

3396 **12 superb selected colours, separate** ... Price, 1.00

3397 **8 superb selected colours, separate** ... Price, .65

BAPTISIA.—Hardy perennial. Good border plant.

3400 **Australis.**—Indigo blue flowers. Ht. 3 ft.

	250 seeds.	500 seeds.	1,000 seeds.
Price ...	.10	.15	.25

BARTONIA.—Hardy annual. Showy, and very easily grown. Sow in open border in spring.

3403 **Aurea.**—Rich golden colour.

	1,000 seeds.	2,000 seeds.	4,000 seeds.
Price ...	.10	.15	.25

BEAD PLANT.—*See* Nertera.

BEE LARKSPUR (Delphinium Statum).—A striking perennial. Of easy culture for large flower borders and wild gardens.

3406 **Bright Blue.**—Ht. 3 ft.

	500 seeds.	1,000 seeds.	2,000 seeds.
Price ...	.10	.15	.25

BEGONIA.—Begonias are much superior to Geraniums for bedding, being quite unaffected by heavy rains. For growing in pots this strain is superb, producing a very high percentage of really first quality perfectly double flowers, equalling the best named varieties, but having more vigorous constitutions. The seed should be sown in heat at end of winter to produce strong flowering plants in the summer, in pans of very fine soil. Prick off the seedlings into pans and pot off later. Care should be used when sowing, as the seed is very fine. We can also supply tubers ready to start into growth in early spring (*For dry roots, see page* 88.)

BEGONIAS—*Continued.*

TUBEROUS ROOTED.

No.
3370 **Carters Choicest Double.**—This fine strain contains all the largest and best forms and most brilliant colours in cultivation. Blooms 6 in. across.

	500 seeds.	1,000 seeds.	2,000 seeds.
Price of the above ...	.25	.45	.75

A very popular plant for pots and bedding out.

3373 **Carters Crown Jewels Mixed Single, including Fringed varieties.**—It is impossible to praise too much this superb strain of this highly-favoured flower. The blooms are borne on long stout stems, which raise them well above the foliage. For size and quality of the flowers, combined with brilliance in colours, this mixture is unequalled. Grand for bedding out. Blooms 6 in. across.

3374 **Hybrida Cristata, Carters Crested.**—Grand flowers, crested by the elongation and fimbriations of the petals. 70 per cent. true from seed.

3375 **Carters New Marbled Hybrids.**—New colourings of great beauty, the large single blooms being beautifully marbled and mottled.

	500 seeds.	1,000 seeds.	2,000 seeds.
Price of the above ...	.25	.45	.75

BEDDING—FIBROUS ROOTED.

Perpetual flowering. Small blooms in clusters.

3380 **Crimson Bedding.**—Dwarf compact variety. Flowers crimson, foliage deep blood-red with metallic sheen.

3381 **Vernon Tom Thumb.**—A charming free-flowering variety. Blood scarlet flowers and bronze foliage.

3383 **Luminosa.**—Flowers fiery deep scarlet with satiny brownish-red foliage.

	1,000 seeds.	2,000 seeds.	4,000 seeds.
Price of the above ...	.25	.45	.75

BELLIS.—*See* Daisy.

BIDENS (Black Dahlia).—Half-hardy annual for beds and borders.

No.
3412 **Atrosanguinea.**—Excellent for cutting. Ht. 1½ ft.

	150 seeds.	300 seeds.	600 seeds.
Price ...	.10	.15	.25

BIGNONIA (Trumpet Flower).—A fine perennial climber for conservatory decoration and warm situations in the garden. Seeds must be sown in heat early in spring.

3415 **Grandiflora.**—Large orange scarlet trumpet-shaped flowers.
3416 **Radicans.**—Scarlet.

	150 seeds.	300 seeds.	600 seeds.
Price of the above ...	.10	.15	.25

BOCCONIA.—Hardy perennial, used for planting at back of beds; large glaucous leaves.

3419 **Cordate.**—Ht. 6 to 8 ft.

	250 seeds.	500 seeds	1,000 seeds.
Price ...	.10	.15	.25

BOLTONIA.—Hardy perennial. Ht. 5 to 6 ft.

3422 **Asteroides.** 3423 **Latisquama.**—Very attractive, pink.

	125 seeds.	250 seeds.	500 seeds.
Price ...	.10	.15	.25

BRACHYCOME.—*See* Daisy.

BROOM.—Sow in spring or summer for strong plants to flower the following year. Hardy shrub.

3426 **Carters Crimson and Gold.**—Excellent for cutting.
3427 **Carters White.**—Free bloomer, long sprays of white flowers.

	100 seeds.	200 seeds.	400 seeds.
Price of the above ...	.10	.15	.25

BUPHTHALIUM.—Hardy perennial, neat border plant.

3430 **Salicifolium.**—Yellow flowers. Ht. 2 ft.

	250 seeds.	500 seeds.	1,000 seeds.
Price ...	.10	.15	.25

CACALIA.

3484 **Coccinia** (*The Scarlet Tassel Flower*).—For mixed borders. Annual. Ht. 1 ft.

	1,000 seeds.	2,000 seeds.	4,000 seeds.
Price ...	.10	.15	.25

CALAMPELIS (Eccremocarpus).—Climber for verandahs, trellises, &c. Handsome racemes of bloom. Perennial. Sow in heat to bloom the first season out of doors.

3487 **Scabra.**—Orange-scarlet. Ht. 10 ft.

	500 seeds.	1,000 seeds.	2,000 seeds.
Price ...	.10	.15	.25

CALANDRINIA.—Perennial. Sow in pans in spring, place in frame, and prick out in bed or border for summer blooming.

3490 **Umbellata.**—Vivid crimson; good rock plant.

	500 seeds.	1,000 seeds.	2,000 seeds.
Price ...	.10	.15	.25

CALCEOLARIA.
(CARTERS VICTORIA PRIZE.)

It is impossible by photography to give any adequate idea of the beauty of these magnificent flowers. The variations and markings are endless, the flowers are of large size and perfect in form, and the habit is unexceptionable. Our exhibit at the Chelsea Show of the Royal Horticultural Society in 1916 was the theme of general admiration.

No. 3450 Natural size Bloom of Carters Victoria Prize Calceolaria.

CALCEOLARIA—*Continued.*

No.
3450 **Carters Victoria Prize, Mixed, all Colours.**—In addition to the usual range of colours found in this plant, our choice strain produces many distinct seedlings of unique colour, the rose, pink, and cupreous shades being particularly pleasing.

3451 **Clibranii.**—A free-flowering hybrid of spreading habit; very useful for greenhouse decoration. Ht. 2 to 3 ft.

3452 **Golden Princess.**—Exquisite yellow. Of the same perfect habit as our *Victoria Prize* strain. The soft pure golden flowers are very valuable for conservatory decoration during that period of the year when this colour is scarce.

3453 **Hardy Shrubby.**—From best varieties.

3454 **New Dwarf Bedding.**

	500 seeds.	1,000 seeds.	2,000 seeds.
Price of the above ...	.25	.45	.75

CARTERS MINIATURE CALCEOLARIA.—A curious small-flowered type, quite unique in growth and character.

3461 **Tom Thumb.**—Brilliant as the *Victoria Prize* varieties, but of dwarf habit.

3462 **The Gem.**—Flowers are more of one colour.

	500 seeds.	1,000 seeds.	2,000 seeds.
Price of the above ...	.25	.45	.75

CALENDULA (Garden Marigold) (Annual).—Very showy border plant, lasting the whole of the summer without any attention whatever beyond keeping the seed vessels picked off. Not at all particular to either soil or surroundings, and may be described as everybody's flower. Sow in spring where intended to flower.

3544 **Cockade Orange.**—Large double flowers. Ht. 1 ft.

3545 **Meteor.**—Lemon yellow, orange stripes. Ht. 1½ ft.

3546 **Hybrida or Pot.**—Single yellow. Ht. 1½ ft.

3547 **Officinalis.**—Single yellow cottage garden Marigold. 1 ft.

3548 **Pluvialis.**—Pure white. Ht. 1 ft.

	250 seeds.	500 seeds.	1,000 seeds.
Price of the above ...	.10	.15	.25

CALLIOPSIS (COREOPSIS.) Hardy annuals and perennials. *All are universal favourites and useful for cut flowers.* The annual varieties should be sown outdoors in early spring in the place they are intended to flower, or, for earliest work, may be sown under glass, and then pricked out.

CARTERS TALL ANNUAL VARIETIES.

Large flowered, branching habit; very useful for back of borders and cut flowers. Ht 2½ to 3 ft.

No.
3502 **Crimson.** | 3503 **Crimson and Gold.**
3505 **Carters Choice Mixed Tall Annual Varieties.**

	1,000 seeds.	2,000 seeds.	4,000 seeds.
Price of the above	.10	.15	.25

No. 3509 Dwarf Calliopsis Crimson and Gold.

CARTERS DWARF ANNUAL VARIETIES.

Compact habit, useful for cut flowers. Ht. 1¼ ft. to 1½ ft.

3508 **Crimson.** | 3509 **Crimson and Gold.**
3511 **Carters Choice Mixed Dwarf Annual Varieties.**

	1,000 seeds.	2,000 seeds.	4,000 seeds.
Price of the above	.10	.15	.25

CARTERS MINIATURE ANNUAL VARIETIES.

The shortest growing type; fine for edges. Ht. 9 in. to 1¼ ft.

3514 **Crimson Marbled.**—The flowers show a groundwork of chocolate, flaked and marbled with gold, giving a most fantastic combination. Unfortunately some tall plants invariably appear amongst the dwarfs.

3515 **Crimson and Gold.**—Of all the dwarf varieties this is the most miniature.

	1,000 seeds.	2,000 seeds.	4,000 seeds.
Price of the above ...	.10	.15	.25

VARIOUS CALLIOPSIS.

3518 **Burridgi** (Annual).—Rich crimson and gold. Ht. 2½ to 3 ft.
3519 **Drummondi** (Annual).—Yellow, dark centre. Ht. 2 ft.
3520 **Grandiflora.**—Grandest of all; large golden yellow; a hardy perennial. A lovely border plant both for effect and cutting. Much appreciated for house decoration when cut. Ht. 3 ft.
3521 **Bicolor** (*Tinctoria*) (Annual).—Very pretty. Ht. 2½ to 3 ft.
3523 **Coronata** (Perennial).—Yellow, dark spot. Ht. 2 ft.
3524 **Lanceolata** (Perennial).—Large yellow flowers. Ht. 2½ ft.

Price ...	.10	.15	.25

CANDYTUFT.

—These hardy flowers are now a necessity, requiring the most simple cultivation, and will flourish in almost any soil. The range of colour has now been considerably extended, the lilac, rose, cardinal, and carmine being particularly charming. Sow in spring in ordinary soil. For pot work, sow in pots in frame, and thin out the seedlings, or they may be transplanted. Average ht., 1 ft.

No. 3658 Carters Empress.
No. 3662 Carters Pigmy.

No. 3663 Carters Hyacinth-flowered.

3658 **Carters Empress Compact.**—Large spikes of the purest white and of erect habit; dwarf and compact, very profuse in bloom, exceedingly showy and effective. Extract from R.H.S. trials: "Candytuft Empress Compact (Carter).—Very neat and compact; flowers white, in dense pyramidal spikes; freely produced; the best white Candytuft in the trial." Ht. 6 in.

3663 **Carters Hyacinth-flowered.**—The tallest and finest white variety, each plant having five or six heads of bloom. Its fine pyramidal spikes of the purest whiteness make it a very attractive decoration in either beds or borders. Sow in spring, and transplant 9 in. apart, keeping faded heads cut away. A very fine subject for pot work, especially when autumn sown. Ht. 1 ft.

3662 **Carters Pigmy.**—A dwarf type of hyacinth-flowered, and a charming bijou variety for edging, beds, or borders. Ht. 4 in.

3659 **Rose Cardinal.**—A beautiful shade of rosy scarlet.

3660 **Carters Carmine.**—Bright rose, excellent form.

3661 **Carters Spiral.**—Pure white, long trusses.

3664 **Carters Crimson.**

Price	.10	.15	.35

CANTERBURY BELL.

—Hardy biennials. Sow in summer, transplant to a bed in autumn for flowering the following year. They also make effective pot plants for spring flowering, sown in summer and potted in autumn, and kept in a cool frame through winter. No matter how carefully the double-flowering types are saved, some are certain to become single. The seed-bearing spikes should be cut out when the beauty is over and more may come.

Price of the above ...	.10	.15	.25

CARNATION AND PICOTEE.

—A popular and lovely flower, always in fashion. Whether grown in pots for conservatory decoration or in the garden beds for summer display, its charms are equally attractive. Our seed is saved with the greatest care, and should produce a large percentage of the very best flowers, but unfortunately, as with other florists' flowers, it cannot be guaranteed that every one will come double. Care should be taken to preserve the smallest seedlings, as these frequently produce the finest quality blooms. Sow in spring in cold frame, prick out, and plant out in good soil when strong enough, for flowering the following season.

3677 **Carters Choice Double Carnation.**—A splendid mixture of selfs, flakes, bizarres, fancies, and yellow grounds. All varieties mixed.

3678 **American Tree Carnations.**—The seed we offer is saved from one of the best collections in the country, being hand-fertilised by experts who have raised many of the best forms.

3679 **Choicest Perpetual or Tree.**—Includes all the best French varieties in cultivation.

3680 **Perpetual Yellow.**—About 35 per cent. true from seed.

3681 **White Lady.**—Large pure white.

3682 **Picotee.**—Choicest double mixed.

CARNATION—*Continued*

No.
3692 **Carters Annual Carnation.**—*Bloom in six months from seed.*—Carnations are favourites with all lovers of flowers. This strain will bring them within the reach and the cultivation of everybody, as it is one of the most valuable introductions of modern times. Sow under glass in February, and transplant as soon as ready. They commence to flower in July, producing a wealth of large bloom of great variety of colour until cut off by the frost, thus producing a supply after the perennial varieties are over. Being equally valuable for indoor cultivation, some can be potted and placed in a cool greenhouse, when they provide a succession of bloom during the winter months. They produce a very large percentage of double flowers, and include a most varied assortment of fancy, yellow ground, bizarre, as well as selfs, rich with delightful fragrance and diversity of colour.

	50 seeds.	100 seeds.	200 seeds.
Price	.25	.45	.75

3693 **Margaret, Mixed.**—A fine early-flowered strain, which may be sown in February under glass for blooming the same season or in June and July for flowering the following year.

3694 **White Margaret.**—Pure white blossom, delicately scented, and a splendid subject for cut flowers.

	200 seeds.	400 seeds.	800 seeds.

Price of the above..	.10	.15	.25

CARTERS GIANT ANNUAL SWEET SULTANS.

CENTAUREA.—The flowers of this greatly improved annual are at least twice the size of the older varieties and a number of distinct new shades are now available. Its most deliciously scented long-stemmed flowers will last in water for a fortnight. In this respect alone it exceeds any other annual we can call to mind. We give this flower the highest possible recommendation. May be sown in pots and pricked out for early flowering, or in open borders in spring for general work. **Ht. 1½ ft.**

No. 3627 Carters Giant White Sweet Sultan.

CHERRY PIE.—*See* Heliotrope.

CHINESE LANTERN.—*See* Physalis.

CHRISTMAS ROSE.—*See* Helleborus.

CHRYSANTHEMUMS.—The annual varieties hold a leading position, and many of them have been raised on our Seed Farms. All are beautiful in beds and borders and good for window boxes or cutting. Sow seed in spring in boxes for early flowering, and in the open for general work. Some varieties make useful pot plants; for this purpose they should be sown under glass. Ht. 1½ ft.

ANNUAL.

3742 **Morning Star.**—Single. Delicate sulphur-coloured blossoms very pretty. Equally good as a single plant, grown in masses in beds or borders, or as a cut flower. The best annual variety to use as a pot plant for winter blooming.

3744 **Lord Beaconsfield.**—Crimson maroonand gold.
3745 **Purple Queen.**—Distinct dark purple.
3746 **Sultan.**—Crimson, with gold ring near centre.
3753 **Double White, The Bridal Robe.**—Flowers of purest white and fully double.
3755 **Double Golden.**—Flowers true golden yellow.
3743 **Carters Choice Mixed Annual.**—We have given unlimited attention to perfecting this strain, which contains a splendid range of colours. Many of the flowers have two or three zones of colour, which imparts to them a wonderful brilliance. Plants being robust should be thinned or planted out at least 1 ft.
3747 **W. E. Gladstone.**—Crimson and violet.
3749 **Tricolor** (*Caringtum*).—Single. The original type.
3756 **Double Mixed** (*Dunnettii*).

	500 seeds.	1,000 seeds.	2,000 seeds.
Price of the above ..	.10	.15	.25

CHRYSANTHEMUMS—*Continued.*

EARLY AUTUMN FLOWERING HYBRIDS.

Can be treated as an annual. Sown in January and February will produce plants which flower from the middle of August onwards. Both for outdoor culture and growing under glass this strain is extremely valuable, supplying large quantities of cut flowers at a season of the year when they are particularly needed.

No.
3764 **Carters Early Autumn-flowering Hybrids.**—Singles, semi-doubles, and doubles in endless varieties of shades are contained in this splendid mixture.

	250 seeds.	500 seeds.	1,000 seeds.
Price ...	.25	.45	.75

PERENNIAL CHRYSANTHEMUM.

3766 **Shasta Daisy.**—A new perennial variety with large white flowers on long stalks. When sowu very early under protection the flowers often appear before summer is over. Ht. 2½ ft.

3767 **Maximum King Edward VII.**—Single. A splendid large-flowered variety, which we highly recommend; the flowers are pure white, and borne on long stiff stalks well above the foliage. Ht. 2½ ft.

EXHIBITION PERENNIAL SPECIES.

Hints on Culture.—Sow in pans in gentle heat, in spring, and pot off singly.

3771 **Carters Show.**—Large blooms, fine colours.
3772 **Carters Japanese.**—Gracefully petalled varieties.
3773 **Carters Pompone.**—Neat, globular blossoms.

	500 seeds.	1,000 seeds.	2,000 seeds.
Price of the above ...	.10	.15	.25

CINERARIA.—Sow seed in pans filled with a good light sandy compost in spring up to the beginning of June, and place in a cool frame. Transfer to small pots as soon as the seedlings have developed their leaves, and pot on as the plants require it. They should be grown in a cold frame until frost necessitates their removal to a greenhouse. Even in winter they should not receive much artificial heat. Will come into bloom from Christmas to May.

No. 3710 Plant showing wealth of blooms.

CINERARIA—*Continued.*

Self-colour Bloom.

No.
3710 **Carters Brilliant Prize Cineraria, Choicest Colours Mixed, saved from finest flowers.**—The constant and painstaking attention which we have lavished upon this strain has resulted in the production of a remarkable range of colour. The self colours range from pure white through varied shades of pink, rose, and carmine to deepest crimson, and pale porcelain, wedgwood, ultramarine, royal blue to the deepest purple, whilst the bordered varieties show a remarkable diversity of shades. The habit of the plants is perfect, it being difficult to find a plant showing the slightest divergence from type. Gold Medal, Chelsea, 1912, 1913, 1914, 1916. Blooms measure 5 to 6 in.

3711 **Carters Snowflake.**—A pure white form, equalling our *Brilliant Prize* strain in the solidity of the blooms and perfection of habit.

3712 **Carters Choice Double.**—Of all the finest forms and colours.

	250 seeds.	500 seeds.	1,000 seeds.
Price of the above ...	.25	.45	.75

3714 **Cineraria Maritima.**—A well-known hardy silver-foliaged perennial, for bedding or mixed borders. Seeds should be sown in pans in early spring under glass, and the seedlings pricked off into boxes, hardening before planting out. Ht. 1½ ft.

	500 seeds.	1,000 seeds.	2,000 seeds.
Price of the above ..	.10	.15	.25

No. 3718 Carters Cactus. *No. 3719 Carters Stellata.*
Described on next page.

CINERARIA—*Continued.*

No.
3718 **Carters Choicest Mixed Cactus.**—An entirely new break. The edges of the florets recurve like a single Cactus Dahlia. The colours include white, blue, blush, violet, mauve, and some have a white zone surrounding the dark disc, the florets being tipped with violet, blue, &c. The flowers when cut last a long time, and by their lightness and elegance make charming table decorations. A grand mixture, including all shades of colour.

3719 **Carters Choicest Mixed Stellata.**—This free-panicled variety has obtained general approval, especially for decorative arrangements, for which purpose it has proved marvellously effective, being a valuable adjunct to the much-admired *Carters Brilliant Prize.* It should be raised and treated in the same manner as the other greenhouse varieties.

	250 seeds.	500 seeds.	1,000 seeds.
Price of the above ...	.25	.45	.75

CLARKIA.—This type attains a height of 2½ ft. in the open ground, and bears long graceful sprays of double and semi-double blooms which are splendid for decorative purposes, lasting for several days in water. The seed should be sown in the spring in the open border, or sown during the autumn and grown on in a cool house, this section make magnificent specimens **4 to 6 ft.** high for the adornment of the greenhouse or winter garden.

TALL ELEGANS VARIETIES.

No. 3777 Scarlet Queen and No. 3778 Brilliant Princess.

3777 **Carters Scarlet Queen.**—Double. A wonderful glowing salmon scarlet; very brilliant and clear under electric light.

3778 **Brilliant Princess.**—Double. Clear warm rose. A very telling variety for pots or borders.

3779 **New Blotched.**—Semi-double. The petals are clear rose pink with a flaking of rosy scarlet. The combination is very effective.

3780 **Purple King.**—Double. Clear rosy purple. An excellent companion to *White Prince.*

3781 **Salmon Queen.**—Double. Salmon pink. The forerunner of the present-day improved varieties.

3782 **White Prince.**—Double. Pure white. An excellent companion to any of the above varieties.

IPOMÆA.

Hints on Culture.—Perennial. Greenhouse climbers, embracing some of the loveliest colours imaginable. Sow in early spring in heat, and pot off, and train on trellis under glass, or out of doors in summer.

3813 **Mauritanicus.** — For hanging baskets.
3814 **Leari.**—Dark violet.
3815 **Heavenly Blue.** — Surpassingly lovely; a gem.
3816 **Rubro-cærulea.**

Price of the above ... 100 seeds. .10 200 seeds. .15 400 seeds. .25

CORAL TREE.—*See* Erythrina.

CORDYLINE.—Perennial shrubs. Sow in early spring, in strong heat, in pots or pans of sandy soil and pot off. Most useful as a table plant, for greenhouse decoration, or summer bedding.

3835 **Australis.**—Recurved dark green foliage. Ht. 3 ft.

Price ... 50 seeds. .25 100 seeds. .45 200 seeds. .75

COREOPSIS.—*See* Calliopsis.

No. 3700 Cornflower.

CORNFLOWER (Cyanus Minor).

Annual. Everything may be said on behalf of these interesting and useful flowers, both as a border plant and also as a cut bloom. Sow in open border in autumn and spring.

No.
3700 **Royal Blue.**—Double blue, the largest and perhaps the most popular of all.
3701 **Carters Double, mixed.**
3702 **Single, mixed.**
3703 **Victoria.**—Dwarf and free flowering type.
3704 **Purple.**
3705 **Rose.**
3706 **White.**

Price of the above .. 250 seeds. .10 500 seeds. .15 1,000 seeds. .25

COSMEA.

A pretty feathery foliaged annual, useful for cutting, growing sometimes to a height of 4 ft., and very effective right up to the frost. Makes a nice winter flowering pot plant if sown in summer. Including purple, pink, mauve white, and rose. Ht. 3 to 4 ft.

Early Flowering Varieties—
3820 **White.**
3821 **Rose.**
3822 **Pink.**
3823 **Mixed.**
3825 **Lady Lennox.** — Large flowers of a pretty light pink shade.
3826 **Carters Mixed Colours.** —An excellent strain of pink, white, and mauve shades, which flowers rather later than our early flowering varieties.

Price of the above ... 250 seeds. .10 500 seeds. .15 1,000 seeds. .25

COWSLIP.—Perennial. Our mixture contains a great diversity of colours.

3830 **English, Mixed.**—Much more robust than the common variety. The flower stems, which reach a height of 1 ft., are crowned with an umbel of graceful drooping blooms, in a wide range of yellow, red, crimson, and maroon shades.

Price ... 250 seeds. .10 500 seeds. .15 1,000 seeds. .25

CUPHEA.—A pretty shrubby perennial, which makes a useful pot plant. It is often employed for bedding out in summer, and for this work is best treated as an annual. Seeds may be sown in autumn or spring in heat.

3838 **Eminens.**—Red and yellow. The brightest flowered species. Ht. 1 ft.

3839 **Platycentra.**—Red and black. Ht. 1 ft.

Price of the above ... 250 seeds. .10 500 seeds. .15 1,000 seeds .25

CUPID'S DART.—*See* Catananche.

CYCLAMEN.—Sow at any time (spring and autumn to be preferred) in pots or pans, in peaty loam and sand, covering the seeds scarcely a quarter of an inch, place on warm shelf near the glass in greenhouse, keeping the soil moist but well drained. The seed takes from four to six weeks to germinate. When the bulbs are the size of a Pea transplant singly into small pots, transferring to larger pots as the plants develop. An average of 60° is the temperature best suited for producing well-developed flowers, and good ventilation without draught is a safeguard from disease. We also supply dry bulbs in the fall.

No.
3842 **Carters Superb Mixture of all Colours.**—Our grand large-flowered strain in all its best forms and every shade of colour, including our superb salmon. This is a selection of many years' patient observation and labour.

3843 NEW. **St. George.**—This is a salmon colour, with a silver-marked leaf, very ornamental as a foliage plant previous to the blossoming period. Received a certificate from the Royal Horticultural Society.

3850 **Carters White Swan.**—The most profuse blooming white Cyclamen in cultivation. A grand thing, throwing its pure white flowers well above the foliage. A year old plant of this in full bloom is a magnificent sight. First Class Certificate, R.H.S.

3844 **Carters Butterfly.**—This charming Cyclamen may be considered one of the most striking among florists' flowers, and the colours are surprisingly varied and beautiful. It may be observed that the petals of the flowers are broad across the top, and the edges finely curled or waved. The beauty of the variegations in colour is captivating. The blossoms being carried on a long and slender stalk.

3845 **Brilliant.**—Pure deep crimson blooms with a metallic sheen shading from the base of each petal, which lights up the whole flower and gives a brilliant effect.

3846 **Dainty Queen.**—A giant flower of splendid substance; colour, pleasing soft rosy mauve, base of the petals being much deeper than the upper part.

3847 **Excelsior.**—The largest and most solid white flower with claret base, equalling in size and vigour our *White Swan*.

3848 **Carters Salmon.**—Distinct and fresh; strong and vigorous.

3849 **Charming Bride.**—A superb pure white variety with large handsome petals; compact habit, robust growth.

3851 NEW. **Mrs. L. M. Graves.**—This is a salmon scarlet, that is to say, a deeper scarlet colour diffused with the salmon. This has obtained a certificate from the Royal Horticultural Society.

3853 **Carters Crested.**—A very pretty type of flower, contrasting conspicuously when mingled with a collection of the ordinary type. The flowers are also very lasting. Choicest mixed.

3854 **Crimson Queen.**—A bold well-formed flower; colour deep maroon red.

3857 **Fairy Queen.**—Pale rose, compact habit.

3859 **Princess May.**—A dainty soft pink.

3860 **Rosy Morn.**—Finest form; clear bright rose, dark claret base.

3861 **The Sultan.**—Intense crimson.

CYPRESS.—*See* Kochia.

DAHLIA.—Our strains have been specially hybridised and will produce splendid types. Sow the seed in early spring, in heat, and pot off. Plant out as soon as large enough in June. (See Photograph CARTERS PERFECTION SINGLE DAHLIA, *grown from seed in 6 months*), a giant-flowered strain of all colours forming a special feature in our grounds in the late summer.

CARTERS CROSS-FERTILISED STRAINS.

No.
3901 **Carters Single.**—Magnificent flowers of the newest and best colours.

3902 **Pigmy Single.**—Forms a dwarf bush.

3903 **Carters Cactus.**—From the best varieties, mixed.

3904 **Carters Giant.**—Producing very large semi-double flowers, mixed.

3905 **Show Double.**—For perfect form cannot be surpassed.

3906 **Perfection Giant Single.**—The variety in this strain is very great.

3907 **Bouquet or Pompom.**—One of the most useful flowers for cutting.

3908 **Collarette.**—Our special strain of Collarette varieties contains a great variety of distinct shades and colours, the majority being equal in form to named varieties.

	1,000 seeds.	2,000 seeds.	4,000 seeds.
Price ...	.10	.15	.25

DIANTHUS.—Biennial. We consider the *Heddiwigi* section of the Dianthus introduced by our house from the East, and the parent of many of the best types, to be one of the finest additions to our annual flora for the last fifty years, and the varieties detailed above are the improved results from the original importation. Sow in spring in boxes or pots, and transplant to where intended to bloom. Seeds of all the improved types may be also sown at the end of summer, and grown on in pots through the winter under fairly cool treatment. They will make robust plants at the end of spring, and become useful in the decoration of the conservatory. Our Large-flowered Dwarf type is a beautiful selection.

DIANTHUS CHINENSIS (Indian Pink).

No.
3875 **Carters Large-flowered Dwarf Single.**—A superb mixture of beautiful colours and markings. Free blooming and dwarf. The plants attain a height of about 6 to 8 in., with large flowers.
3876 **Carters Vesuvius.**—Single fiery scarlet, brilliant colour. Ht. 1 ft.
3877 **The Bride.**—Its blossoms measure 2½ in. across. Carmine centre, with a zone of deep chocolate, surrounded by an expanse of pure white. Ht. 9 in.
3878 **Carters Salmon Shades Semi-double.**—Contain many beautiful salmon, salmon-pink, and salmon-scarlet shades, which cannot be obtained in separate colours from seed. A brilliant strain for bedding. Ht. 9 in.
3879 **Carters Japanese Feather Single.**—A most fantastic strain of Japanese origin, producing broad petals with a long feathery fringe in a remarkable range of colours. Ht. 9 in.
3880 **Crimson Belle Single.**—Colour a rich brilliant crimson. Ht. 1 ft.
3881 **Diadematus, fl. pl.**—A double strain of extraordinary beauty, edged and blotched.
3882 **Eastern Queen Single.**—Marked with delicate pencilling of rose and white. A beauty. Ht. 1 ft.
3883 **Double White.**—Fine flower of good form. Ht. 1 ft.
3884 **Large-flowered Dwarf Crimson Semi-double.**—Clear glowing crimson, shaded maroon. Very compact habit. Ht. 9 in.
3885 **Large-f owered Dwarf White Single.**—Pure satiny-white petals, forming perfect circular outline. A faint central zone of pale pink gives the flowers a very handsome appearance. Ht. 9 in.
3886 **Heddiwigi.**—The original strain from Japan. Large single blossoms, fine colours.
3887 **Heddiwigi Nobilis.**—A grand improvement, with robust dark foliage. Ht. 1 ft.
3888 **Laciniatus.**—Grand single flowers. Ht. 1 ft.
3890 **Plumarius Single or Pheasant's Eye.**—Mixed. Pink. Ht. 1 ft.
3892 **Plumarius Semperflorens.**
3895 **Carters Choice Single Mixed.**—Every shade found in Japanese Dianthus is contained in this strain; deepest crimson, countless shades of maroon, scarlet, carmine, rose pink to pure white. Many blooms are beautifully pencilled on white and dark grounds. Ht. 1 ft.

	1,000 seeds.	2,000 seeds.	4,000 seeds.

Price ...	10 seeds. .25	20 seeds. .45	40 seeds. .75

Please order by Number and Price only.

ESCHSCHOLTZIA (*Californian Poppy*).—Hardy annuals (or biennials) of immense utility for mixed borders. Hardy, bright, and free-blooming, and of the easiest culture. They bloom and flourish equally well on light and heavy soils. Although not generally known, Eschscholtzias are excellent for decorative work. If cut early in the morning before the buds unfold, the flowers will last for several days in water. Sow in open in spring, and thin out. Ht. 1 ft.

Many of our later introductions of Eschscholtzias have been characterised by a distinctly compact and upright habit of growth, rendering this attractive flower suitable for fronts of borders and other places in the garden not hitherto filled by Eschscholtzias. We classify them accordingly.

No. 3967 Eschscholtzia, The Geisha. No. 3974 Eschscholtzia, Mandarin. No. 3972 Eschscholtzia, Carmine King.

ESCHSCHOLTZIA—*Continued.*

Compact Section.

No. 3967 **NEW.** **The Geisha.**—Award of Merit, R.H.S. Last year's introduction. Petals prettily fluted. Colour inside of petals, brilliant golden; outside of petals, orange-crimson. Habit of growth, upright and compact. The most brilliant colour in this family of bright shades. A bed in bright sunshine has the appearance of being on fire.

3968* **Carters Fringed.**—Of the *Californica* type, with deep-coloured base to the prettily fringed petal.

3969* **The Rajah.**—This has brought for the first time a purplish carmine in Eschscholtzias.

3975* **Carters Mandarin.**—Exterior orange-crimson; inner surface, deep orange.

Price of the above ...	250 seeds. .10	500 seeds. .15	1,000 seeds .25

3970 **Carters New Hybrids.**—Contain many shades and tints of colour not previously seen in Eschscholtzias, giving a play of colour at once interesting and brilliant, the pale rose and flesh shades being particularly charming.

3971* **The Mikado.**—Award of Merit, R.H.S. *The Mikado* was the result of a cross between *Mandarin*, which we introduced in 1879, and *Carmine King*, of 1906. A brilliant orange-crimson, suffused with the lustre of *Carmine King*.

3972* **Carters Carmine King.**—Award of Merit, R.H.S. The lustrous carmine colour is very attractive.

Price of the above ...	250 seeds. .10	500 seeds. .15	1,000 seeds. .25

3976* **The Collection of 6 varieties** as marked above in separate packets ... ... .50

Open-growing Section.

3973 **Carters Diana.**—This is a most dainty flower. The colour is a rosy white, while the petals are fluted in a most novel manner, giving the flower quite a fantastic and attractive appearance.

3974 **Dainty Queen.**—A beautiful shade in Eschscholtzias. Colour a tender blush or pale coral pink, slightly deeper towards the edges, with a groundwork of delicate cream. Flowers rather later than other varieties.

3977 **Carters Double Orange.**

3978 **Carters Rose Cardinal.**—Bright rose.

3979 **The Golden West.**—The largest flowering of all the Eschscholtzias. A charming orange colour.

3982 **Californica.**—Yellow.

Price of the above ...	250 seeds. .10	500 seeds. .15	1,000 seeds. .25

EUCALYPTUS (AUSTRALIAN GUM TREES).—Handsome ornaments in the sub-tropical garden or in pots. Sow in gentle heat in early spring, and pot off.

No.
4059 **Amygdalinus** (*Giant Gum Tree*).—One of the hardiest.

4061 **Globulus** (*Blue Gum*).—Fine glaucous foliage and strong perfume.

Price of the above ..	500 seeds. .10	1,000 seeds. .15	2,000 seeds .25

CARTERS PYRAMID.

We offer these charming pyramidal types of Forget-me-nots with confidence that they will be greatly appreciated by our customers for spring bedding purposes. The plants assume an upright habit of growth, and when in bloom resemble miniature pyramids of floral beauty. These new Forget-me-nots are especially valuable for planting in combination with Tulips, as their upright habit does not check the growth of the flower spikes from the bulbs or make a bed appear so crowded as when plants of more exuberant growth are used as a groundwork. The seeds should be sown out of doors on a partially shaded border towards the end of summer. Ht. 1 ft.

4092 **Carters Pyramid Blue.**

4093 **Carters Pyramid White.**

4094 **Carters Pyramid Pink.**

FOXGLOVE (*Digitalis*).—Stately perennials. As a background in a shrubbery, or as specimen plants in large beds, they are equally striking and effective. Sow in **July for strong flowering plants the following season.**

No.

4101 **Carters Spotted.**—A superb mixture containing a wonderful range of colours, the soft rose and carmine shades being particularly fine. The older forms of magenta and crude pink have been eliminated from this choice strain. All colours mixed.

4102 **Canariensis.**—A novel colour, orange brown.

4103 **White.**—Superb variety. Ht. 4 to 6 ft.

4104 **Monstrosa.**—A singular variation. A long spike with a large flower at the top.

4105 **Gloxinioides.**—Large-throated species. Ht. 3 ft.

4106 **Grandiflora.**—Curious species. Yellow. Ht. 3 ft.

4107 **Purpurea.**—The ordinary Foxglove. Purple. Ht. 3 ft.

Prices of the above ...	2,500 seeds. .10	5,000 seeds. .15	10,000 seeds. .25

FRANCOA.

4117 **Ramosa hybrida** (*Bridal Wreath*).—Half-hardy perennial. Lovely sprays of pure white flowers are freely produced on long branching spikes. Very easy of cultivation, for greenhouse or conservatory decoration. Seed sown in March flower freely in about 15 months. Ht. 2½ ft.

Price ...	200 seeds. .10	400 seeds. .15	800 seeds. .25

FRAXINELLA (Burning Bush).—Hardy perennial. Seeds may be sown in spring.

4120 **Red-purple.**—Ht. 2 ft. 4121 **White.**—Ht. 2 ft.

Price of the above ...	100 seeds. .10	200 seeds. .15	400 seeds. .25

FREESIA.—A bulbous plant with beautiful flowers. Sow in pans in heat, in early spring.

4123 **Carters Choice Mixed.**—Deliciously scented, white and yellow. Ht. 1 ft.

Price ...	100 seeds. .10	200 seeds. .15	400 seeds. .25

See page 86 for Carters Freesia Perfume.

FRENCH HONEYSUCKLE.—Hardy free-growing perennial. Sow in spring, and transplant.

No.

FUCHSIA.—Handsome flowering shrub. Sow in gentle heat in early spring; pot off.

4129 **Superb Mixed.**—A splendid collection.

Price ...	25 seeds. .25	50 seeds. .45	100 seeds. .75

GAILLARDIA.—*We were awarded the First Class Certificate of the Royal Horticultural Society for Double Gaillardias.*

Showy and handsome hardy perennials, for beds and borders. The flowers are a most peculiar combination of shades, varying between gold and maroon. Sow in summer in drills, transplanting to permanent positions during autumn; also sow early in spring under glass, prick off into boxes, and plant out in May. Sow the annual varieties in open ground early in spring, and thin out to 1 ft. apart.

4184 **Carters Large-flowering Choice Single Hybrids.**—Perennial variety, but will flower the first season if sown early.

4185 **Grandiflora hybrida.**—Crimson and gold; large blossoms.

4186 **Grandiflora hybrida compacta.**—New dwarf compact variety. Ht. 1 ft.

Nos. 4185 and 4186 will flower the first season if sown early.

Price of the above ..	500 seeds. .10	1,000 seeds. .15	2,000 seeds. .25

ANNUAL VARIETIES.

4189 **Carters Choice Double.**—Mixed; large globular heads.

4190 **Picta.**—Yellow and scarlet; old variety. Ht. 1 ft.

4191 **Picta aurea.**—Golden yellow. Ht. 1 ft.

	100 seeds.	200 seeds.	400 seeds.
Price ...	.10	.15	.25

GLORY PEA.—*See* Clianthus.

GLOXINIA.—Sow in well-drained pans from January to March (or in the autumn), fill the pans with soil consisting of a mixture of half peat and half leaf mould, with a small quantity of pulverised charcoal and silver sand sifted very fine, to within half an inch of the rim; water with fine rose, then sow the seed thinly, taking care not to cover it with soil; place in a temperature of 75 deg., and cover the pans with a piece of shaded glass, gradually removing the same as the seedlings progress. When large enough to handle, prick off into pans at about 1 in. apart, then pot off into single pots. Many will soon attain the requisite strength to go into 5-in. or 48 pots, and will bloom in August and September of the same year. The potting off soil should consist of one-half good loam, one-half fibrous peat, with a good sprinkling of sand and broken charcoal.

GLOXINIA—*Continued.*

Carters Invincible Gloxinia Grown for Seed at our Nurseries.

No.
4141 **Carters Invincible Prize Superb Mixture.**—The superb mixture of Gloxinia we offer under the name *Invincible* is magnificent. It contains all the best self-colours, crimson, sapphire, purple, rose, blush, violet, white, &c., also the finest edged, tipped, ringed, and shaded varieties, together with the most beautiful spotted or marbled kinds, and is the finest we have seen.

4135 **Carters Giant Carmine.**—A choice colour in Gloxinias, the edges of the blooms being of a light carmine, gradually shading to a deeper tone towards the throat. The habit is robust and erect.

4136 **Carters Giant Purple.**—A strong grower, carrying flowers of immense size. In colour it is a deep-velvety purple, with a slightly spotted throat.

4137 **Carters Giant Scarlet.**—A very vivid scarlet variety, which comes quite true from seed. The flowers are of good size and texture.

4138 **Carters Giant White.**—We consider this the best white yet raised. The size of the flowers, the purity of its colour, and its robust habit leave nothing to be desired. The flowers, although large, are held erect on exceptionally strong stems.

4139 **The Collection of above 4 Giant Varieties.** Price .85

4140 **Carters Cyclops.**—This is one of the largest and strongest growing Gloxinias in commerce. The base of the throat is cream, heavily spotted, whilst the upper portion is of intense scarlet, passing to a soft pink, and ultimately leaving a wide margin of the purest white at the edge of each lobe.

4143 **Othello.**—Very large; deep blue.

Gloxinia Bulbs—Very large; *see page 87.*

	250 seeds.	500 seeds.	1,000 seeds.
Price of the above, except where otherwise noted ...	.25	.45	.75

GODETIA.—In addition to the wide range of shades now found in this lovely annual, the plants vary greatly in habit. We have therefore divided them into three sections, and trust this will assist our customers in making their selections. All varieties may be sown in boxes and transplanted, or may be sown direct into the ground. A few kinds are excellent for pots.

No.
4151 **Carters New Lavender.**—Single. Award of Merit, R.H.S. The pale lavender flowers are borne on long graceful racemes. This is quite distinct from any other Godetia, and is splendid for pot culture. Sown in September the plants bloom in early spring. Ht. 2 ft.

4153 **Carters Double Pink.**—A rather stronger grower than *Carters New Lavender*, bearing a number of long spikes, which carry 18 to 20 beautiful double clear pink blooms, which will last a week in water if cut in a young state. It is also splendid for pot culture. Ht. 2½ ft. Price of above, *see next column.*

GODETIA—*Continued.*

No.
4152 **NEW.** **Tall Double Deep Rose.**—A very brilliant and handsome variety. Bright solid rose, shaded and edged carmine. Identical in habit with our *Double Pink* variety. Ht. 2½ ft.

	1,000 seeds.	2,000 seeds.	4,000 seeds.
Price of the above ...	.10	.15	.25

MEDIUM VARIETIES.

4160 **Single Blush** *(The Bride)*.—A very telling pale pink variety, with deep pink zone at the base of petals. Ht. 1½ ft.

4161 **Carters Dark Rose** *(Lady Albemarle)*.—Deep rose, edged carmine. Ht. 1½ ft.

4162 **Carters Carmine.**—Pure clear carmine with white zone. Ht. 1½ ft.

4163 **Carters White** (*White Pearl*).—The best white Godetia, the blooms being creamy white, which blends well with other varieties. Ht. 1½ ft.

4167 **Carters Choice Mixed.**—A well-balanced strain, containing all the best colours found in the tall and medium sections.

	1,000 seeds.	2,000 seeds.	4,000 seeds.
Price of the above ...	.10	.15	.25

DWARF VARIETIES.

4173 **Deep Rose Pink** (*Lady Satin Rose*).—A very pure colour with shining satin surface. Very brilliant. Ht. 1 ft.

4174 **Pink** (*Rosamund*).—Rich medium shade. Flower well formed and very freely produced. Ht. 1 ft.

4175 **Crimson** (*Gloriosa*).—The deepest colour in Godetias. Very solid and of splendid substance. Ht. 1 ft.

4176 **Crimson Glow.**—Bright crimson scarlet with pure white base. The petals being very full and crimped give the flowers a very graceful appearance. One of the most free flowering. Ht. 1 ft.

4178 **Miniature Crimson.**—Valuable for edging and bedding. Very dwarf and compact, with glowing crimson flowers, shaded rosy heliotrope at edge. Ht. 6 in.

	1,000 seeds.	2,000 seeds.	4,000 seeds.
Price of the above ...	.10	.15	.25

GOURDS, ORNAMENTAL. Ornamental Gourds, which require about the same cultivation as Vegetable Marrows or Squash, should be largely grown in flower gardens and pleasure grounds. Trained over a pergola they form a distinct, interesting, and beautiful feature. The smaller fruiting Apple, Orange, Pear, and Egg shaped kinds produce a charming effect when trained over arches, while the majority of varieties have a very charming effect when tied up to poles.

4283 **Mixed, in great variety.**

	25 seeds.	50 seeds.	100 seeds.
Price ...	.10	.15	.25

4284 **Collection, 12 varieties,** small-fruited kinds, Apple, Pear, Orange, &c. Price 1.00

4285 **Collection, 12 varieties,** large-fruited kinds, Pumpkins, Squash, Turk's Cap, &c. Price 1.00

GRASSES. ORNAMENTAL.

The annual varieties should be sown out of doors during April where they are intended to flower, or for earlier work sow under glass and plant out. The perennial varieties are best sown during the summer, and planted out in borders in spring. The flower heads should be cut in a young stage and hung upside down to dry, as they are then more lasting for decorative purposes.

No.
4196 **Agrostis nebulosa.**—Elegant and graceful; the best.
4200 **Briza gracilis** (*Quaking Grass*).
4201 **Briza maxima** (*Quaking Grass*).
4202 **Briza rotundata.**
4204 **Coix lachryma** (*Job's Tears*).
4205 **Cyperus alternifolius** (*Umbrella Grass*).—Semi-aquatic.

DO YOU KNOW THE CARTER SYSTEM

of making Golf Courses, Lawns, &c.? Write for our pamphlet, "The Making of a Lawn," which deals with the making and renovation of grassy lands, post free.

KOCHIA.—A charming and most effective decorative plant, with a habit much resembling one of the compact evergreen shrubs. It has a light grass-green feathery foliage, which changes as the summer advances to a rich crimson. It is a hardy annual, a rapid grower and flourishes on all soils. The best method is to sow the seed under glass, pot the seedlings off singly, and ultimately bed out or plunge the pots in which they are growing. These round shrub-like plants (often called the Mock Cypress) are most effective when planted amongst flowers, such as Geraniums, Petunias, &c.; they are most useful for the centre of any bed or when planted out in some decorative scheme. Ht. about 2 ft.

No.
4396 **Carters Selected** (*Trichophylla*).—Hardy annual.

	500 seeds.	1,000 seeds.	2,000 seeds.
Price	.10	.15	.25

4440 **Annual.**—Red. 4441 **Annual.**—White.

	250 seeds.	500 seeds.	1,000 seeds.
Price of the above ...	.10	.15	.25

LEPTOSIPHON.—Free-blooming hardy annuals. Sow in spring where plants are to grow.

4444 **Densiflorus albus.**—White. Ht. 1½ ft.

French Strains. Ht. 3 in.

4445 **Hybrids.**—Mixed. 4447 **Aureus.** 4448 **Roseus.**

	1,000 seeds.	2,000 seeds.	4,000 seeds.
Price of the above ...	.10	.15	.25

LEPTOSYNE.—Hardy annual.

No.

4451 Stillmani.—Beautiful bright golden-yellow flowers, blooming abundantly five to six weeks after sowing. Most useful for cutting; very showy. Ht. 1½ ft.

4450 **Leptosyne Maritima.**—Large yellow daisy like flowers with long stems.

Price	500 seeds. .10	1,000 seeds. .15	2,000 seeds. .25

LIATRIS.—Hardy perennial.

4453 **Scariosa.**—Showy border plant. Violet-purple. Ht. 3 ft.

4454 **Spicata.**—Large violet flower spikes. Ht. 2 ft.

Price of the above ...	50 seeds. .10	100 seeds. .15	200 seeds. .25

LILY OF THE VALLEY.—Sow seeds in light soil in spring.

4455 **Majalis.**—Tuberous perennial.

Price ...	25 seeds. .10	50 seeds. .15	100 seeds. .25

LIMNANTHES.—Annual. Good honey plants; will grow anywhere. Sow in spring.

4457 **Douglasi.**—Yellow and white. Sweet scented. Fine for bedding.

4458 **Grandiflora.**

Price of the above ...	150 seeds. .10	300 seeds. .15	600 seeds. .25

LINARIA (Toad Flax).—Dwarf hardy annuals of easy culture. Sow in spring. *Cymbalaria* is a hardy creeping perennial. Ht. 1 ft.

4461 **Aparinoides, Carters Hybrids.**—This produces a very pretty play of colour. A great addition to this charming annual.

4462 **Aurea reticulata.**—Dark crimson scarlet with golden blotch.

4463 **Bipartita splendida.**—Miniature Antirrhinum-like rich purple flowers.

4464 **Cymbalaria.**—Perennial. Pure white. A pretty trailing plant for hanging baskets and greenhouse walls, &c.

Price of the above ...	1,000 seeds. .10	2,000 seeds. .15	4,000 seeds. .25

LINUM (Flax).—Sow in spring where plants are to grow. They also make useful pot plants if kept sturdy.

No. *Annuals.* Ht. 1 ft.

4467 **Scarlet.** 4468 **Blue.**—Bright. 4469 **White.**—Pure.

Price of the above ...	750 seeds. .10	1,500 seeds. .15	2,000 seeds. .25

Perennials.

4470 **Flavum.**—Golden. 4471 **Narbonense.**—Blue.

4472 **Perenne.**—Blue.

Price of the above ...	150 seeds. .10	300 seeds. .15	600 seeds. .25

LOASA.—Annual climber. Sow under glass in spring, pot off, and plant out when frosts are over.

4475 **Aurantiaca.**

Price	500 seeds. .10	1,000 seeds. .15	2,000 seeds. .25

LOBELIA.—Very popular garden plants. The compact-growing varieties are sown in winter under glass, and transplanted into boxes for growing on to be ready by the bedding-out season. The spreading varieties are suitable for hanging baskets and window box edgings, whilst the true perennial species are grown as pot plants or single specimens in beds for summer decoration.

COMPACT GROWING.

4478 **Carters Dark Compact.**—Dark bloom, dark foliage, small white eye.

4479 **Carters Light Compact.**—Sky-blue flowers, light foliage.

4480 **Carters White Gem.**—The best pure white.

4481 **Carters Royal Bedding.**—Bright sky-blue, small eye.

4482 **Carters Prima Donna.**—The finest and best red variety. Raised on our own farms. Rich crimson maroon.

4483 **Pumila grandiflora.**—Azure blue.

4484 **Pumila magnifica.**—Dark blue; very compact.

4485 **Tom Thumb.**—The smallest of all. Blue.

Price of the above ..	1,000 seeds. .10	2,000 seeds. .15	4,000 seeds. .25

SPREADING.

4489 **Carters Perpetual.**—Rich purple, white eye.

4490 **Carters speciosa.**—A very popular variety. Dark blue, dark foliage.

4491 **Carters speciosa alba.**—White.

4492 **Carters speciosa, Blue King.**—Blue, white eye.

4493 **Carters speciosa, Cobalt Blue.**—Bright colour, effective.

4494 **Carters speciosa, Paxtoniana.**—Blue shading white.

Price of the above	1,000 seeds. .10	2,000 seeds. .15	4,000 seeds. .25

LOBELIA—*Continued*

TALL GROWING.

No.
4499 **Ramosa** (*Tenuior*).—All *Tenuior* varieties are splendid for pot work, attaining a height of from 1 to 1½ ft. when tied up. Blue.

4500 **Ramosa alba.**—White.

4501 **Ramosa, Heavenly Blue.**—Large flowers, bright light blue, with gold white eye.

4502 **Gracilis.**—Loose growing, for hanging baskets, &c.; blue trailing variety.

4503 **Gracilis alba.**—Companion white variety; trailer.

Price of the above	1,000 seeds.	2,000 seeds.	4,000 seeds.
	.10	.15	.25

PERENNIAL.

4507 **Cardinalis, Queen Victoria.**—Scarlet flowers; bronze foliage.

4508 **Cardinalis.**—One of the handsomest perennials of the day. Bright scarlet, bronze foliage. Ht. 2 ft.

4510 **Cardinalis, Robusta grandiflora.**—Ht. 3 ft. Of gigantic growth, with enormous sized brilliant scarlet flowers, giving the grandest effect.

4513 **Syphilitica, Blue.**—Good border plant, large blue flowers. Ht. 2 ft.

Price of the above ...	500 seeds.	1,000 seeds.	2,000 seeds.
	.10	.15	.25

	.10	.15	.25

LYTHRUM.—Hardy perennial; showy for borders and moist situations.

No.
4560 **Rosea superbum.**—Long spikes of bright rose-coloured flowers. Ht. 4 ft.

Price ...	1,000 seeds. .10	2,000 seeds. .15	4,000 seeds. .25

MAGNOLIA.—Evergreen hardy tree. Sow seeds in spring or autumn in cool frame or greenhouse, in some light sandy soil.

4631 **Grandiflora.**—Magnificent, sweet-scented.

Price ...	20 seeds. .10	40 seeds. .15	80 seeds. .25

Nos. 4596 & 4597 Carters Pink Domino and White Lady Mallows.

MALLOW.—Hardy annual. This fine tall-growing plant is covered with bloom during the entire summer. Extremely useful for cutting. Ht. 3 ft.

4596 **Carters Pink Domino.**—An elegant table ornament. Bright rose.

4597 **Carters White Lady.**—Pure in colour.

4598 **Malope grandiflora.**—Crimson. Ht. 2 to 3 ft.

4599 **Malope grandiflora.**—White.

4600 **Malope grandiflora.**—Rose.

Price of the above ...	250 seeds. .10	500 seeds. .15	1,000 seeds. .25

MARGUERITES.—Annual Chrysanthemums.

4619 **Annual.**—Choice mixed.

Price ...	500 seeds. .10	1,000 seeds. .15	2,000 seeds. .25

MARIGOLD, AFRICAN.

—From their bold appearance and enormous globular flowers these showy annuals are specially effective in large mixed borders. Sow at the end of winter under glass, and transplant in April and May.

LARGE-FLOWERED.

4589 **Carters Giant Show Lemon.**—Superior strains for exhibition. Enormous blossom. Ht. 1 ft.

4590 **Carters Giant Show Orange.**—Superior strains for exhibition. Fine habit; grand flower. Ht. 1 ft.

4593 **Mixed, Carters Varieties.**—Carefully selected. Ht. 2 ft.

Price of the above ...	250 seeds. .10	500 seeds. .15	1,000 seeds. .25

MARIGOLD, FRENCH.

—This showy annual can be sown in spring and thinned out where expected to bloom; they may also be sown in March in boxes or pots under glass, then transplanted into other boxes, 3 in. apart, to make sturdy stuff for planting out in June or earlier. Marigolds are **profuse bloomers, particularly so if all dead flowers are cut off.**

No. 4566 Carters Compact Striped Marigold.

No.
4566 **Carters Compact Striped.**—Beautiful large double blossom, dwarf variety. Continues blooming until the end of summer. Ht. about 1 ft.

4567 **Carters Gold Edged.**—A beautiful annual of compact but vigorous habit. Flowers a velvety maroon, with gold edge. Very constant, and owing to its deep root is able to withstand drought. Makes a handsome edging plant. Ht. 1 ft.

Price of the above..	250 seeds. .10	500 seeds. .15	1,000 seeds .25

DWARF SINGLE-FLOWERED VARIETIES.

The following kinds are extremely beautiful in the mixed border, whether singly or in clumps. Habit dwarf or bushy and covered with continuous bloom. First-class annuals. **Ht. 1 ft.**

4570 **Silver King.**—Lemon and chocolate.

4571 **Legion of Honour.**—Dark gold and maroon.

Price of the above ...	250 seeds. .10	500 seeds. .15	1,000 seeds. .25

DWARF DOUBLE-FLOWERED VARIETIES.

4574 **Butterfly.**—A taller growing double variety, brilliantly marked and striped. Ht. 1½ ft.

4575 **Dwarf Golden.**—Fine dwarf bedding variety. Ht. 1 ft.

4576 **Dwarf Orange.**—Selected colour; excellent. Ht. 1 ft.

4578 **Mixed, Carters Dwarf Varieties.**—Ht. 1 ft.

Price of the above ...	250 seeds. .10	500 seeds. .15	1,000 seeds .25

TALL DOUBLE-FLOWERED VARIETIES.

4584 **Tall Orange.**—Nice variety for cutting. Ht. 1½ ft.

4585 **Tall Large-flowering.**—Double striped. Ht. 1½ ft

4586 **Mixed, Carters Tall Varieties.**—An effective and welcome ornament to the mixed border, shrubberies, &c. Ht. 1½ ft.

Price of the above ...	250 seeds. .10	500 seeds. .15	1,000 seed .25

MARVEL OF PERU (*Mirabilis jalapas*).—Sow in heat early in the year, prick off into boxes, place in cold frame, and plant out in June. Throughout the day the plants are not very showy, but towards evening hundreds of flowers open on each bush-like plant, emitting a most distinctive and refreshing fragrance.

No.
4625 **Mixed, Carters Choicest.**—Bright colours. Ht. 2 ft.

	50 seeds.	100 seeds.	200 seeds.
Price ...	.10	.15	.25

MATHIOLA (Night-scented Stock).

Hardy annual, of easy culture. Sow in spring.

4603 **Bicornis.**—This should be in every garden, as it possesses a most delicious odour, especially toward evening, when it sends forth a delightful perfume, permeating the whole of the surrounding atmosphere with its beautiful fragrance. Ht. 1 ft.

	1,250 seeds.	2,500 seeds.	5,000 seeds.
Price	.10	.15	.25

See page 86 for Carters White Clover Perfume.

MAURANDYA.—Graceful half-hardy annual climber for the flower garden or conservatory. Sow in February, in heat, and pot off.

4628 **Barclayana.**—Purple; free bloomer.

	500 seeds.	1,000 seeds.	2,000 seeds.
Price ..	.10	.15	.25

MECONOPSIS (Welsh Poppy).—Quite hardy. Sow in spring, and plant out in moist soil.

4634 **Cambrica.**—Annual. Large flower; golden yellow. Ht. 2 ft.

	500 seeds.	1,000 seeds.	2,000 seeds.
Price ...	.10	.15	.25

MEDEOLA (Smilax).—Half-hardy perennials. The long graceful stems of these beautiful climbers make them of great service in house decorations.

4640 **Asparagoides myrtifolia.**—The new Smilax, for light effect. This beautiful myrtle-leaved greenhouse twiner is a very rapid grower, and produces sprays with the greatest freedom. The foliage is very hard and will last fresh many days after being cut.

	10 seeds.	20 seeds.	40 seeds.
Price ...	.10	.15	.25

4641 **Asparagoides.**—For table decoration.

	100 seeds.	200 seeds.	400 seeds.
Price ...	.10	.15	.25

MESEMBRYANTHEMUM.—Annual. Sow in spring, in pans of very light sandy soil, and prick off.

4644 **Cordifolium variegatum.**—For carpet bedding.

4645 **Tricolor.**—Rose variety. Lovely for edging.

	500 seeds.	1,000 seeds.	2,000 seeds.
Price of the above ...	.10	.15	.25

MICHAELMAS DAISIES.— Perennial. Well-known autumn flowers. The plants throw a wonderful quantity of bloom. They are quite hardy and of easy culture. Should be grown by all. Splendid for cutting.

4651 **Carters Mixture.**—In choicest varieties. Ht. 2 ft.

	500 seeds.	1,000 seeds.	2,000 seeds.
Price ...	.10	.15	.25

MIGNONETTE.

No.
4660 **Carters Perfection.**—A giant red-flowered variety with a delicious scent. This fine strain is a very great improvement, and owing to its robust habit the seedlings require plenty of room, when they will make bushy plants resembling Intermediate Stocks. The spikes of bloom are larger than any other variety, and the habit much less straggling. If the seed-pods are kept pinched off, the beauty of the plant will extend over a long period, and with care in this respect will continue until cut down by frost.

	250 seeds.	500 seeds.	1,000 seeds.
Price	.10	.15	.25

4661 **Carters White Queen.**—A distinct and beautiful variety, producing large spikes of white bloom, exquisitely scented. Ht. 1¼ ft.

4662 **Golden Queen.**—For a long time the leading yellow variety. More branching in habit than *Golden Gem.*

4663 **Carters Red King.**—The finest and richest red; a great improvement on the crimson *Victoria* variety. Deliciously scented. Ht. 1¼ ft.

4664 **Machet.**—An excellent variety for pot work; strong, dense blooms, glossy green foliage.

	250 seeds.	500 seeds.	1,000 seeds.
Price of the above ...	.10	.15	.25

4665 **Carters Victoria.**—Produces a fine, shapely spike of bloom Excellent colour. Highly scented.

4666 **Crimson Giant.**—Fine hardy variety of the greatest use for general purposes. Ht. 1 ft.

4667 **Carters Garden Sweet.**—This is a selected stock of the original Mignonette of gardens. Delicious odour.

4668 **Carters Spiral.**—First-class free-blooming variety, with long slender spikes. Makes a good exhibit. Ht. 1 ft.

4669 **Goliath.**—Magnificent blossoms. Richly scented.

4670 **Golden Gem.**—The finest dwarf golden varieties. Ht. 6 in.

4671 **Hybrid Tree.**—Hardy variety for pots or borders.

4672 **Carters Mixed.**—All varieties.

	1,000 seeds.	2,000 seeds.	4,000 seeds.
Price of the above ...	.10	.15	.25

See page 86 for Carters Mignonette Perfume.

MIMOSA.—*See* Sensitive Plant.

MIMULUS.—Half-hardy annual. To those who know only the original kind, the present magnificent specimens will come as a delightful surprise, the blossoms being of grand size and richly coloured. Besides being of service in beds and borders, they make nice pot plants. Sow in early spring, in pans under glass, and prick off into boxes, and plant out when hardened. For pot work, the seedlings should be pricked out, and potted off in good light compost, and kept in warm frame.

No.
4606 **Carters Queen's Prize.**—Mixed. Magnificent. This lovely large-flowered variety originated at our Nurseries, and we were awarded the First-class Certificate of the Royal Horticultural Society for our efforts.

4607 **Garden.**—Mixed. Select stock.

4608 **Cardinalis.**—Brilliant scarlet annual for conservatory.

4609 **Cupreus.**—Brilliant deep scarlet. For edging fountains, rockeries, &c. Ht. 6 in.

4610 **Tigridioides.**—For pots or rockeries.

4612 **Moschatus or Yellow Musk.**—Half-hardy perennial. Fragrant variety. May be grown in pots, or planted out in beds and borders. Sow in spring under glass.

	1,250 seeds.	2,500 seeds.	5,000 seeds.
Price of the above ...	.10	.15	.25

MINA.—Half-hardy annual climbers. Sow in pots in heat, in spring, and transplant.

4648 **Lobata.**—Red and yellow. Ht. 6 ft.

	10 seeds.	20 seeds.	40 seeds.
Price ...	.10	.15	.25

MIXTURE OF FLOWER SEEDS.—*See* page 87.

MONKEY FLOWER.—*See* Mimulus.

MYRTLE (Myrtus).—Evergreen shrub. Sow in spring under glass.

4654 **Communis.**—White, fragrant.

	500 seeds.	1,000 seeds.	2,000 seeds.
Price ...	.10	.15	.25

NASTURTIUM.—Nasturtiums, both climbing and dwarf, are of the easiest culture, and anyone desirous of having a display of the most brilliant flowers, without any trouble beyond sowing the seed, should select this delightful family, as they will give off their best efforts through the brightest of the summer, merely needing the seed-balls picked off. If these are permitted to mature, the beauty of the plant is soon lost.

DWARF NASTURTIUM.

This beautiful annual originated at our Essex seed farms. These make the most beautiful bedding and border plants, and if sown at intervals from March to June the display of bloom will last until cut down by frost.

No.

Golden Foliage.

4692 **Carters Golden Queen.**—Rich golden-hued foliage. Very compact; flowers bright yellow. A very effective variety.

4693 **Carters Cloth of Gold.**—Yellow foliage; scarlet flower. Bright and effective.

Dark Blue-green Foliage.

4696 **Carters Empress of India.**—This has been justly described as a sensational variety. Foliage dark bluish green, with flowers of an intense crimson scarlet. Raised at our seed farms, and awarded the First Class Certificate of the Royal Horticultural Society

4697 **Carters Scarlet King.**—Fine dark foliage; brilliant scarlet flowers, well thrown up above the leaves.

4698 **Carters Vesuvius.**—Dark leaved, with salmon-pink flowers, with dark spot on base of upper petals.

4699 **Carters Dark Leaved Varieties, Mixed.**

Green Foliage.

4702 **Carters Lilliput.**—An extra dwarf, floriferous variety. All colours mixed.

4703 **Tom Thumb Crimson.**—Dense maroon crimson.

4704 **Tom Thumb Crystal Palace Gem.**—Pale sulphur, with a carmine spot.

4705 **Tom Thumb Pearl.**—Light cream, nearly white.

4706 **Tom Thumb Rose.**—Rose colour, with a bluish tint.

4707 **Tom Thumb Scarlet.**—The freest bloomer of all this section.

4708 **Tom Thumb Spotted.**—Dark orange, with chocolate spot.

4709 **Tom Thumb Yellow.**—Fine, clear, yellow. Good bedder.

4710 **Carters Dwarf Mixed** (*Tom Thumb*)—All the best colours.

Green Shaded Foliage.

4713 **Chameleon.**—Flamed, and beautifully marked.

4714 **Golden King.**—Beautiful rich, dark gold colour.

4715 **King Theodore.**—Intensely dark crimson or chocolate.

4716 **Ladybird.**—Golden colour, with scarlet spot.

4717 **Ruby King.**—Ruby rose, novelty in colour.

4718 **Spotted King.**—Rich golden yellow, with crimson spot.

4719 **Terra Cotta.**—A rich salmon-brown flower; nice habit Bright green foliage.

4723 **Mixed.**

	¼ oz.	½ oz.	1 oz.	¼ lb.	1 lb.

CLIMBING NASTURTIUMS AND TROPÆOLUMS.

The Climbing Nasturtium has long been a popular annual flowering plant, as when once the seed is sown it requires no further attention It is invaluable for covering unsightly spots, as when the position does not admit of its climbing, it is equally at home as a creeper. The seed must not be sown until all chances of frost are over.

4730 **Crimson.**—A very attractive colour.

4731 **Scarlet.**—Dazzling brightness.

4732 **Spotted.**—Golden, with dark spot.

4733 **Yellow.**—Rich and shining.

4735 **Carters Choice Mixed.**—All shades.

Ordinary.

4739 **Dark Varieties.** 4740 **Light Varieties.**

4741 **Mixed Tall.**—All shades.

4744 **Defiance.**—A new variety Deep crimson-scarlet; leaves blue green.

4745 **Brilliant.**—Crimson-scarlet.

4746 **Ivy-leaved.**—Effective scarlet flowers.

Nice Climbers out of doors in Summer, or in the Conservatory during Winter.

4751 **Tropæolum Fireball.**—Scarlet.

4752 **Tropæolum Lobbianum, Mixed.**

	¼ oz.	½ oz.	1 oz.	¼ lb.	1 lb.
Price of the above ..	.10	.15	.25	.60	2.00

NEMESIA.—Half-hardy annual. Nearly related to the Linaria. Free blooming dwarf bushes for pot culture and open borders. Sow in spring under glass, and transplant; or sow out of doors in May, in patches, where they are intended to flower.

4678 **Carters Large-flowered Mixed.**—Is the finest strain of this most popular flower yet introduced, both for size and massive build of the individual flowers, also for the richness and variety of colours. Ht. 1 ft.

No.
4677 **Strumosa grandiflora.**—Spotted.

4681 **Nana compacta grandiflora, Orange Prince.**—Gained an Award of Merit of the Royal Horticultural Society. Ht. 6 to 8 in.

4679 **Blue Gem.**—Although rather small flowered, one of the best blue annuals for bedding.

4682 **White Gem.**—An excellent companion to above.

Price of the above ..	250 seeds. .10	500 seeds. .15	1,000 seeds. .25

NEMOPHILA.—Hardiest of annuals, and of the easiest culture. Makes a very effective front row to a bed or border, and should be sown out of doors in spring, in patches, where they are to flower.

4684 **Holborn Blue-bell.**—Ultramarine, white throat. Ht. 6 in.

4685 **Atrocaerulea.**—Bright blue, with minute spots. Ht. 6 in.

4687 **Insignis.**—Blue. A popular hardy annual for pots or borders.

Price of the above ..	750 seeds. .10	1,500 seeds. .15	3,000 seeds. .25

Please order by Number and Price only.

No. 4755 Nicotiana affinis.

NICOTIANA (*Tobacco*).—Stately half-hardy perennial. Grown as foliage plants for sub-tropical garden. Sow in pans, in heat, prick off into boxes, harden off, and plant out when frosts are gone.

4755 **Affinis.**—The beautiful white species, deliciously scented in the evening. Ht. 2 ft.

4756 **Affinis hybrida.**—It is one of the most valuable introductions, and can be recommended to all. Finest mixture of all colours, as white, rose, pink, red, crimson, violet, light blue, dark violet, &c.

4757 **Sylvestris.** — White blossoms, drooping in bunches like *Fuchsia fulgens*. Ht. 3 ft.

4758 **Colossæ.**—Magnificent deep green foliage. Ht. 6 ft.

4759 **Atropurpurea.**—Dark midrib to leaves. Ht. 6 ft.

4760 **Havana.**—Delicate foliage. Ht. 3 ft.

4761 **Macrophylla.** — Grand foliage; makes a bold specimen Ht. 6 ft.

4762 **Virginian.**—Popular variety; for general use. Ht. 6 ft.

4763 **Sanderæ.**—Dark pink flowers. Ht. 3 ft.

4765 **Carters Mixed Varieties.**—Tobacco.

Price of the above ...	1,000 seeds. .10	2,000 seeds. .15	4,000 seeds. 25

NIEREMBERGIA.—Half-hardy perennial. For hanging baskets. Sow in spring, and pot off

4772 **Gracilis.**—Delicate silver lavender, like miniature Petunias.

Price ..	500 seeds. .10	1,000 seeds. .15	2,000 seeds. .25

NIGELLA.—*See* Love-in-a-Mist.

NIGHT-SCENTED STOCK.—*See* Mathiola.

NIGHTSHADE.—*See* Solanum.

OENOTHERA.—*See* Evening Primrose.

ORNAMENTAL GOURDS.—*See* Gourds.

ORNAMENTAL GRASSES.—*See* Grasses.

PAEONIA (PAEONY).—Hardy tuberous perennials. Sow in autumn, in pots or pans of sandy soil in cold frame, and plant out in spring.

4788 **Carters Choice Mixed.**—Saved from the best varieties.

Price ..	10 seeds. .15	20 seeds. .25	40 seeds. .45

PAMPAS GRASS.—*See* Grasses.

PANSY.—It is now more than half a century since the late Mr. James Carter took this plant in hand with a view to its improvement in size and range of colourings, and one of our earliest successes was *Jet Black* (*see* No. 4806). We also introduced the *Peacock* (*see* No. 4792). Both are still amongst the best in cultivation. Pansies will succeed in any soil that is not too hot and dry, and if a special compost is made for them it should consist of one-third rich loam, one-third leaf mould, and one-third well-decayed dung. In early spring the seed should be sown in frames or in boxes for summer and autumn blooming, and later on sowings may be made about July out of doors in a partially shaded place, transplanting in October or November into where they are intended to flower the following season. The final position should be an open one, and the plants not less than 6 in. apart. There should be no check in their progress either by cold winds, very hard frosts, or long droughts. Nor should they be watered during the hottest months with very cold water. We have classed each type so that Pansy lovers have an opportunity of securing a large and varied choice, all representing the very best strains in cultivation.

4791 **Carters Giant Curled.**—Large flowers of striking form and immense fullness, giving them the appearance of being somewhat double. They are variously coloured in all the richest shades, markings, and lacings. Quite a new class of the greatest beauty.

4792 **Carters Peacock.**—The only variety possessing the true peacock blue colours. Introduced by our House.

4793 **Carters Fancy Striped.**—Elegantly striped, splashed, and mottled, a very curious combination of colours that cannot fail to elicit astonishment. The flowers are large and freely produced, and the habit of the plant dwarf and compact.

4794 **Silver Edged.**—Deep maroon, with pure white margin; very effective and profuse bloomer, but not so large in size as *Carters International Prize*.

Price of the above	125 seeds. .15	250 seeds. .25	500 seeds. .45	1,000 seeds. .75

PANSY—*Continued.*

No.
4795 **Carters Prize Show.**—The largest blotched and richly belted types. Very fine for exhibition or cultivation in pots.

4796 **Lord Beaconsfield.**—A lovely Pansy, the lower petals being a rich dark velvet blue, and the upper ones a silvery blue.

4797 **President Carnot.**—One of the prettiest grown. All blue flower with a wide belt of white round the outer edges. Very effective in beds and borders.

4798 **Carters International Prize.**—A superb mixture of the largest and best types in every class. Will produce enormous blooms in all the richest colourings and markings. As the name suggests, it is the best of all English and Continental strains, grown under our personal supervision, and acclimatised in this country.

4799 **Fairy Queen.**—Rich lavender blue, edged with white. Very effective and profuse bloomer, but not so large in size as *Carters International Prize.*

4800 **Brilliant Bedding.**—A rather dwarf strain of neat habit. The blooms are of large size in the brightest and most telling shades, no dull coloured types being present.

	125 seeds.	250 seeds.	500 seeds.	1,000 seeds.
Price of the above...	.15	.25	.45	.75

PANSY—*Continued.*

The following selection includes all the largest of the self-coloured varieties, and have been selected by us as the most meritorious and desirable varieties for bedding in separate colours. No effort is spared to keep these self-colours up to the highest state of perfection.

No.
4805 **Carters Blue.**—True blue; distinct shade; very large.

4806 **Carters Jet Black.**—The first and best; rich velvet texture.

4807 **Carters Pure White.**—A lovely flower, without eye; very pure.

4808 **Carters Rich Yellow.**—Bright, rich and pure; a very effective shade.

4809 **Carters Rich Purple.**—Large and showy; bold massive flowers; very fine.

4811 **Mixed Pansy.**—Ordinary; very free flowering.

	125 seeds.	250 seeds.	500 seeds.	1,000 seeds.
Price of the above...	.10	.15	.25	.45

PAPAVER.—*See* Poppy.

PEA, EVERLASTING.—*See* Everlasting Pea.

PEA, SWEET.—*See* Sweet Peas.

PELARGONIUM.—*See* Geranium.

PENTSTEMON.—Hardy herbaceous plants. Brilliant flowers, somewhat like Foxglove, mostly with white throats. Continual bloomers. Make a fine border flower. Average ht. 2 to 3 ft. Sow seeds in a pan of light soil in early spring, and transplant. All with the exception of *Murrayanus* will bloom in the first year from seed.

4817 **Carters Annual Flowering Mixed.**—Saved from a prize collection, which includes all the best colours. Some of the blooms may be expected to measure quite 2 in. across.

4818 **Gentianioides Dwarf, Choice Mixed.**—Useful for borders. Ht. 1½ ft.

4819 **Gloxinioides.**—All shades mixed.

4821 **Murrayanus.**—Unique species; amber-scarlet tubes. Perennial.

4822 **Perennial Mixed.**

4823 **Barbatus Torreyii.**—Tall robust variety, very showy; brilliant scarlet. Ht. 3 ft.

	250 seeds.	500 seeds.	1,000 seeds.
Price of the above ...	.10	.15	.25

PERILLA.—Ornamental foliaged hardy annual. Raise seedlings in heat, prick off into boxes, harden off, and plant out in June.

No.
5094 **Compact Curled.**—Rich colour; dark purple foliage. Ht. 1 ft.
5095 **Nankinensis.**—Metallic purple-bronze leaves. Ht. 1½ ft.

	750 seeds.	1,500 seeds.	3,000 seeds.
Price of the above ...	.10	.15	.25

PETUNIA.—Carters grand strains of Petunia, as frequently exhibited at the Royal Horticultural Society Shows, and awarded, in conjunction with Carters other Improved Flowers, highest awards. *Carters Emperor* Petunias formed part of our Gold Medal Exhibit at the Royal Horticultural Society's Chelsea Gardens Exhibition, 1913. *Queen of Roses* and *White Pearl* have also been greatly admired in our similar exhibits. The Society's Large Silver Cup was awarded to our display of 1914, and the Large Silver-Gilt Cup to our 1915 exhibit.

4834 **Carters Empress.**—For conservatory or bedding. We have been many years perfecting this magnificent type, which originated from our *Emperor* strain, which now embraces many delicate shades of colour, in pink, rose, and carmine. The elegant pencilling in the throat is the feature of this fine introduction. Robust and compact, valuable for bedding. Blooms 6 in. across.
4835 **Queen of Roses.**—Rich cerise; very chaste, quite a feature of our summer exhibits.
4836 **Purple Prince.**—Rich velvety, with scalloped edge.
4837 **Crimson King.**—Very showy; rich.
4838 **Clematis Blue.**—Rare shades of light and dark blue.
4839 **Carters Emperor Strain.**—Single, for conservatory or bedding. A great improvement upon the old-fashioned Petunia. Flowers twice as large, and containing every range of colour found in Petunias. A bed of these is an object of great beauty during summer, and they are equally effective as pot plants.
4840 **White Pearl.**—Very pure and fragrant; free blooming. Will also be remembered in our many floral exhibits.
4841 **Green Bordered.**—Curious combination of purple and green.
4842 **Laced and Fringed.**—Very pretty, deep fringed edges.
4843 **Striped.**—Effective and showy.
4844 **Carters Splendid Double Petunia.**—A superb mixture, producing from 25 to 40 per cent. of double flowers.

	100 seeds.	200 seeds.	400 seeds.
Price of the above ..	.25	.45	.75

BEDDING VARIETIES, PRODUCING FLOWERS IN GREAT PROFUSION.

4851 **Carters Marbled.**—The largest blossoms are of great beauty; in four colours, beautifully blended.

	500 seeds.	1,000 seeds.	2,000 seeds.
Price ...	.25	.45	.75

4852 **Carters Holborn Star.**—A new and attractive bedding Petunia of the character of *Inimitable*, with stars on a background of richest purple crimson. Compact and floriferous.
4853 **Countess of Ellesmere.**—Rose with white throat.
4854 **Compacta grandiflora.**—A mixture of delicate shades.
4855 **Morning Star.**—Carmine rose with white star.
4856 **Crimson.** 4858 **Striped.**
4857 **Dark Violet.** 4859 **White.**
4863 **Mixed ordinary varieties.**

	500 seeds.	1,000 seeds.	2,000 seeds.
Price of the above ...	.10	.15	.25

PHACELIA.—Hardy annual. Sow in spring in open air and transplant.
5104 **Campanularia.**—Ultramarine blue. A most showy deep blue flower, beautiful for beds and edgings. Ht. 1 ft.

	1,000 seeds.	2,000 seeds.	4,000 seeds.
Price ...	.10	.15	.25

PHEASANT EYE.—*See* Flos Adonis.

PHLOX DRUMMONDI.—The great advance recently made in both the size and colourings of this popular annual should ensure its again becoming a favourite for growth in beds and borders. It makes a most effective edging if the growths of the taller types are kept pegged down. Another point of importance in the culture of this pretty flower is the fact that it does not like being watered with cold pipe water, especially overhead; it spoils the foliage and ruins the truss. This section may be expected to reach the height of 1 ft.

CARTERS ANNUAL LARGE FLOWERED.

4936 **Carmine.**—Bright and effective. 4939 **Rose.**
4937 **Pink.**—Soft and delicate. 4940 **Scarlet.**
4938 **Marbled.**—A curious combination. 4941 **White.**
4942 **Yellow.**—The nearest approach.
4943 **Rose, White Eye.** 4944 **White, Dark Eye.**
4945 **Purple, White Eye.** 4946 **Scarlet, White Eye.**
4947 **Carters Choicest Mixed.**

Price ...	.25	.45	.75

4984 **Mrs. Sinkins.**—Double white. Sweetly scented. Seedlings are very robust and free flowering.

	20 seeds.	40 seeds.	80 seeds.
Price ...	.15	.25	.45

POLYANTHUS PRIMROSE.

—The strains offered represent the highest state of perfection to be attained in each section. There is no other flower which produces such a chaste, brilliant, and enduring effect during the early spring months, either singly or in masses in beds, about the same time as the Hyacinths and Tulips. Sow in spring or summer, in prepared seed bed, and transplant when large enough.

5066 **Carters Golden and White.**—A wide range of cream, white, and yellow shades.

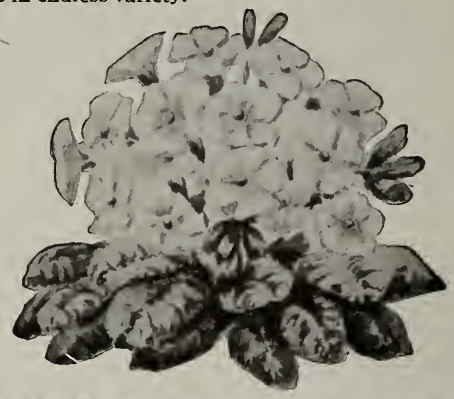
5067 **Carters Pure White.**—A good true white type; very effective for bedding.

5068 **Carters Dark Crimson.**—This clear self deep-coloured selection is splendid for spring bedding where a well-defined deep crimson groundwork is required. It is very effective with the paler shades in Early Flowering and Darwin Tullips.

5069 **Gold Edged.**—The flowers in this strain are smaller and more regular in outline than the varieties offered above. The individual blooms are edged and laced with gold.

	150 seeds.	300 seeds.	600 seeds.
Price ...	.15	.25	.45

No.
5065 **Carters Dark Shades.**—A remarkable range of deep rich colours; rich crimson, deep purple, rosy lilacs, and scarlet shades in endless variety.



5070 **Munstead Strain.**—We have been honoured with the distribution of the re-selected of Miss Jekyll's famous strain of *Munstead* Polyanthus Primrose. Every possible shade of white, cream, yellow, and orange is represented in this large-flowering race, and such a variety is shown that it is a difficult matter to find two plants of the same shade. We strongly recommend this *Munstead* Strain for bedding purposes, and they are even more suited for growing in woodland walks and other such shady positions. The raiser has made such strides with this strain within the last few years that quite a number of distinct and new colours especially among the orange shades, are now represented.

	100 seeds.	200 seeds.	400 seeds.
Price ...	.25	.45	.75

5071 **Blue Shades.**—A very wide range of shades is contained in this mixture, from pale lavender through all gradations of clear and deep blue to rich royal blue.

5075 **Carters All Colours Mixed.**—This well-selected strain is of very hardy constitution, but the plants do not exhibit the wide range of colour found in the more choice strains.

	150 seeds.	300 seeds.	600 seeds.
Price of the above, except where otherwise noted.	.15	.25	.45

See page 86 for Carters Honeysuckle Perfume.

CARTERS GARDEN PRIMROSE.

The Primrose is one of those plants that resent too much coddling, and sometimes when great care is taken they refuse to grow. The simplest plan is to sow them in a partially shaded place, from May to July. Just scratch the seed in with a rake and firm the surface, under the influence of genial showers they will soon come up. The Blue Primrose may be sown in borders at the same season.

5082 **Blue.**—To obtain the best results seedlings should be raised each year, sowing in March, as the blue is more intense the first season than in subsequent years.

	75 seeds.	150 seeds.	300 seeds.
Price ...	.25	.45	.75

5083 **Yellow.**—The lovely Old English Primrose of the woods.

5085 **Carters Choice Mixed.**—Contains every obtainable colour New shades are constantly occurring as the result of our continuous hybridisation.

	250 seeds.	500 seeds.	1,000 seeds.
Price of the above ...	.15	.25	.45

POPPY.—These showy hardy flowers continue to absorb the attention of the greatest number of amateur gardeners, and deserve the position from their varied and intrinsic beauty. Sow thinly in patches, rows, or beds in spring where the plants are intended to bloom during early summer. The show may be extended if the seed pods are kept cut off. When used as cut flowers they should be picked early in the morning before opening out.

SINGLE ANNUAL VARIETIES.

No.
4869 **Carters Shirley Poppy** (*Silk or Ghost Poppy*).—This lovely garden annual Poppy has probably received its various names from its delicate texture and almost shadowy forms. The shades of colour are endless, and we offer a strain of unusual beauty, which has been rigidly selected from the stock of the original nominator, the Rev. W. Wilks, Secretary to the Royal Horticultural Society. It makes a delightful border plant, and is fine for sowing at the sides of grassy walks or along paths where Nature's growths give a wilderness-like effect to the surroundings.

4870 **NOVELTY.** **Shirley Poppy, Raynes Park Hybrids.**—A unique strain of very robust habit, which contains a large number of new shades. An outstanding feature is the wide range of smoke, blue, and slate variations, which are quite new among Shirley Poppies.

4872 **Tulip** (*Glaucum*).—A bijou variety.

4873 **Victoria Cross.**—A variety of remarkable beauty: scarlet with broad white cross.

Price of the above...	1,250 seeds. .10	2,500 seeds. .15	5,000 seeds. .25	10,000 seeds. .45

DOUBLE ANNUAL VARIETIES.

PÆONY-FLOWERED GIANT.

No.
4880 **Rich Scarlet.**
4881 **Bright Lilac.**
4882 **Pure White.**
4883 **Pink.**
4884 **White, striped Scarlet.**
4887 **Carters Choice Mixed.**

4888 **NOVELTY.** **Munstead Cream Pink.**—A lovely double form selected by Miss Jekyll. The variety requires no better recommendation than the high opinion of this eminent horticulturist. Ht. 3 ft.

4889 **Carters Picotee.**—A worthy companion to the *Shirley*. Mostly semi-double, of brilliant markings and variegations.

CARTERS NEW FEATHERED.

Each blossom gives the appearance of a ball of finely cut feathers. Ht. 2 ft.

4893 **White.** 4894 **Light Rose.** 4895 **Salmon Rose.**

Price of the above...	1,250 seeds. .10	2,500 seeds. .15	5,000 seeds. .25	10,000 seeds. .45

4900 **Double Carnation.**—A very beautiful type. Rich pink.

4901 **Double Carnation.**—Mixed.

4902 **Carters Scarlet Cardinal.**—A magnificent Poppy, the petals being dense and delicately cut. Rich scarlet.

4903 **Carters Rose Cardinal.**—A lovely rose shade, elegantly fringed.

4907 **Double Mixed.**—A bed of these makes a grand display.

4909 **French** (*Papaver Rhœs, fl. pl.*).—Known as the Ranunculus Poppy. Ht. 1½ ft.

4911 **Mikado.**—Double scarlet, with white edgings. Ht. 1½ ft.

4912 **White Swan.**—Double. Pure white. Delicately cut and fringed.

4913 **Carters Superb Annual.**—This mixture never fails to attract attention in our trial grounds, and contains every form and colour found in Annual Poppies.

Price of the above...	1,250 seeds. .10	2,500 seeds. .15	5,000 seeds. .25	10,000 seeds. .45

PERENNIAL.

4919 **Iceland, Carters Choice Mixed.**—The merits of this species are great; of easy growth, adapted for pot or garden work, first class as cut flowers, and neat in appearance. Sow in patches where plants are to bloom, or in prepared seed bed, and transplant. They make good rockery plants. A superb mixture of all colours. Ht. 1 ft.

4920 **Iceland, Golden.**—Pale golden.

4921 **Iceland, Orange.**—Terra-cotta.

4923 **Iceland, White.**—Pure white.

4926 **Oriental, Scarlet** (*Papaver orientale*).—This is the gorgeous Perennial Poppy of the carriage drive and shrubbery; scarlet and black. Ht. 2 ft.

4927 **Oriental Princess Victoria Louise.**—Delicate salmon-coloured flowers. Ht. 3 ft.

4928 **Oriental, Mixed.**—Different colour.

Price of the above ...	1,000 seeds. .10	2,000 seeds. .15	4,000 seeds. 25

POPPY MALLOW.—*See* Callirhoe.

DO YOU KNOW THE CARTER SYSTEM of making Golf Courses, Lawns, etc.? Write for our pamphlet, "The Making of a Lawn," which deals with the making and renovation of grassy lands, post free.

POTENTILLA (CINQUEFOIL).—Hardy herbaceous perennials. Average ht. 1 ft. Sow in prepared seed-bed, and transplant.

5118 **Double Varieties.** 5119 **Single Varieties.**

Price of the above...	500 seeds. .10	1,000 seeds. .15	2,000 seeds. .25

POT MARIGOLD.—*See* Calendula.

PRICKLY POPPY.—*See* Argemone.

PORTULACA.—Half-hardy annuals. Both the double and single are specially adapted for rock-work and covering the groundwork of large beds. These plants delight in a sunny aspect, and are extremely useful for edging purposes. Sow seed in a warm border about the end of April, or in pans or boxes in spring, in warm frame, prick off and plant out when the frosts are over. Ht. 6 in.

CARTERS LARGE-FLOWERED SINGLE.

CARTERS LARGE-FLOWERED DOUBLE.

5966 **White.** 5968 **Golden.** 5971 **Rose.**
5967 **Striped.** 5970 **Scarlet.** 5972 **Yellow.**
4831 **Carters Large-flowered Double Mixed.**

	1,250 seeds.	2,500 seeds.	5,000 seeds.
Price of the above ...	.10	.15	.25

PRIMULA.—Sow in pans of finely-sifted soil in spring, and pot off singly into thumb pots when large enough to handle. They require to be raised in heat and kept growing in cool house or frame through the summer. A cool bottom for pots to stand on is essential. Use a compost of leaf mould and rich fibrous loam when shifting into larger pots.

5004 **Carters Princess May.**—A dainty pink colour, with enormous blooms of great substance, fine truss, and a robust grower. *Princess May, Carters Coral,* and *King Edward* are the three finest Primulas grown

PRIMULA—*Continued.*

No.
5005 **Carters Giant Coral.**—This Giant Primula is the result of a cross between *Princess May* and *Holborn Salmon.* The trusses of rich coral red flowers of immense substance and size, with a beautiful light green eye, together with a strong habit and dark green foliage, make it a very valuable addition to our Giant Primulas.

5006 **Carters Holborn Crested.**—A very distinct and beautiful Primula of the Giant section. The large pink flowers, beautifully fringed, carried on a fine truss thrown up well from the vigorous green crested foliage, make it unique among Primulas.

5009 **Carters Salmon.**—Immense size and lovely colour.

5011 **Carters Crimson.**—Excellent habit and brilliant colour.

5012 **Carters Blue.**—The First Class Certificate of the Royal Horticultural Society was granted to our House for this grand break.

5014 **The Duchess.**—White with zone of rosy carmine.

Greatly reduced Photograph—Blooms 3 in. across.

5016 **Carters Prize Single Mixed.**—This splendid mixture contains all the finest varieties and most beautiful forms of this popular greenhouse annual, for which our house has long been famous. New seedling forms and art shades are introduced, in addition to the choicest standard varieties. All varieties not of the highest merit are rigorously excluded, with the result that this mixture will be found unsurpassable for the compactness and vigour of the plants and the beauty and variety of the individual blossoms. When pricking out the seedlings, take care not to discard the smaller plantlets, as these frequently produce some of the newest and most delicate shades.

5017 **NOVELTY.** **Carters Oakleaf.**—This variety marks a decided step forward in the cult of the Primula. Its deeply laciniated foliage makes it appear at all times an object of lightness, gracefulness, and beauty, being in strong contrast to the majority of Primulas. The flowers, which are of a rich rose-pink colour, are firmly fixed in the calyx, the truss being carried well above the foliage on a stiff stem, making it by nature of its lightness invaluable for all decorative work, especially for table.

5007 **Carters King Edward.**—The finest White Primula we have yet seen. The flowers possess immense substance, well thrown up.

5013 **Carters White Elaine.**—Grand truss, dark palm foliage; robust.

5024 **Carters Prize Fern-leaved Single, Mixed.**

5034 **Carters Prize Double, Superb Mixture.**

	75 seeds.	150 seeds.	300 seeds.
Price of the above ...	.50	.85	1.50

PRIMULA—*Continued.*

No. 5045 Primula Malacoides "King Albert."

No. 5045 **NOVELTY.** **PRIMULA Malacoides "King Albert."**—Much larger and more free-flowered than the type. The beautiful clean soft rose blooms have an almost circular outline, which greatly adds to the value of this variety as a decorative plant. This beautiful Primula is not by any means a difficult subject to cultivate. The seeds hould be sown in succession, making, say, three sowings during July and August, in finely sifted soil, and kept moist until thoroughly germinated. A cool shady frame kept close is the best place in which to raise the seedlings, gradually giving more air as the seedlings grow. A cool pit or frame is the very best place until November, when the plants may be placed on a shelf in a cold house, and not kept too moist, as damping is very liable during the dull months. As soon as the buds are seen pushing upwards, a very slight feeding of manure may be given and also a warmer atmosphere.

Award of Merit R.H.S., 1916

Per pkg., .50.

Primula Malacoides Rosea.—Very deep pink.
Primula Malacoides Lilacea.—New shade.
Primula Malacoides Alba.—Pure white.
Primula Malacoides Pink.—A beautiful shade.

CARTERS STELLATA (Star Primula)

This is both delightful and graceful when in flower, and it makes a useful decorative plant on the conservatory stage in spring. Free flowering.

5046 **NOVELTY.** **Fairy Queen** (*Duchess Type*).—We consider this a great advance in the Stellata section. The plants are particularly robust, bearing large graceful sprays of bloom in the greatest profusion. The individual blooms are creamy white and have a pale rose centre, which gives a very light and pleasing effect.

5190 **Calabrica.**—Hardy annual. The old favourite; rose.
5191 **Calabrica alba.**—Hardy annual. White.
5192 **Ocymoides.**—Perennial rock plant. Pale pink; trailer.
5193 **Vaccaria.**—Hardy annual. Valuable for cutting; used for decoration with Sweet Peas. A beautiful soft pink flower, most graceful in vases. Also makes a nice pot plant for the greenhouse;

Price of the above ...	1,000 seeds.	2,000 seeds.	4,000 seeds.
	.10	.15	.25

SCABIOUS.—This bright-flowering plant is usually treated as an annual in our gardens. During recent years it has been greatly improved both in habit and range of colours, and is fast becoming one of the most popular of border flowers. When given plenty of room and the seed-vessels are kept regularly picked off, it will last through the whole of the summer. Owing to its sweetness the bees are very fond of it, and its floral favours also attract all the most beautiful types of butterflies in the neighbourhood. Sow the seed in heat in February and March in a pan or small box, and transplant the seedlings 3 in. apart in larger boxes; harden off as spring advances, and set out in the border towards the end of May. They may also be sown where intended to grow during March and April.

CARTERS LARGE-FLOWERED DWARF DOUBLE.—Ht. 1½ ft.

No.
5246 **Carters Cherry Red.**
5247 **Carters Crimson.**
5248 **Carters Carmine.**

SCARLET DAISY.—*See* Gerbera

SCHIZANTHUS.—During the last few years the Schizanthus has leapt into popularity owing to the remarkable advance which has been made both in the habit of the plants and diversity of colours now available. By sowing in spring, summer, and autumn a succession of bloom may be obtained throughout the year. Our *Butterfly* and large-flowered strains, together with the distinct *Retusus* forms, are the most suitable for greenhouse and winter garden decoration.

CARTERS LARGE-FLOWERED.

For pots or hanging baskets.

No.
5278 **Carters Large Butterfly-flowered.**—This surpasses any other strain for its size of flowers, gorgeous colouring, and diversity of shades. The habit is bold and branching, forming bushes from 1½ ft. to 2½ ft. high, and of equal diameter.

5279 **Carters Large-flowered.**—Choice light shades, containing innumerable shades of white, cream, primrose, flesh pink, rose, carmine, and cerise.

5280 **Carters Large-flowered.**—Choice dark shades. All rich, pure, dark forms. The washy purples and dull magenta shades found in Schizanthus have no place in this strain.

5282 **Papilionaceus.**—Free bloomer; bright coloured.

5283 **Pyramidalis, Tom Thumb.**—Dwarf, bushy variety.

5284 **Tigridioides.**—The choicest Kew species. Ht. 2 ft.

5285 **Retusus.**—A greenhouse variety. Salmon-rose. Ht. 1½ ft.

5287 **Wisetoniensis.**—Makes a fine greenhouse decorative plant.

Price of the above ...	.10	.15	.25	.45

No. 5370. Carters Monarch.

CARTERS GIANT TEN-WEEK.

CARTERS MONARCH.—For beds or borders these magnificent Stocks are invaluable. Well-grown plants attain a height of 3 ft., carrying splendid spikes of bloom 1½ ft. to 2 ft. in length, the proportion of double blossoms being extremely high. These varieties are hardy, and do well sown in the open ground.

5370 **White.**
5371 **Crimson.**
5372 **Dark Blue.**
5373 **Light Blue.**
5374 **Rose.**

5377 **Bismarck.**—Blooms slightly later than most Ten-week Stocks, thus forming a valuable variety for succession. Of robust habit, having numerous trusses of large blooms borne round the central stem, forming a snowy pyramid, being a charming contrast to the distinct wide foliage.

5378 **Triumph Ten-week.**—Brilliant crimson. Of very vigorous growth, branching habit, about 70 per cent. producing very large double flowers. Very striking. Ht. 1 to 1½ ft.

Price of the above—

125 seeds.	250 seeds.	500 seeds.	1,000 seeds.
.15	.25	.45	.75

EARLY LARGE-FLOWERED WINTER.

We very highly recommend this class of Stocks to all who have not grown them. They were first brought into prominence by the advent of that charming pink variety *Beauty of Nice*. The following varieties all resemble this variety in habit and profusion of bloom. We know of few Stocks which produce such a high percentage of double flowers. Although usually treated as winter varieties, they are admirably suited for summer bedding if treated as ten-week varieties. Sow in July and August for winter flowering, and in March and April for summer displays.

5381 **Crimson King.**—Brilliant fiery crimson.

5382 **Queen Alexandra.**—Delicate rosy lilac.

5460 **Almond Blossom.** 5461 **Dark Violet.** 5462 **Snow White.**

EARLY LARGE-FLOWERED WINTER—*Continued.*

No.
5380 **Beauty of Nice.**—Plant of robust growth. Very free flowering. Flowers very large, fine double, fragrant, and delicate fleshy-pink colour. Extremely valuable for decorative work. Ht. 2 to 2½ ft.

CARTERS SELECTED LARGE-FLOWERED SWEET PEAS.

During 1914 Carters Sweet Peas were awarded a Silver Cup by the Royal Horticultural Society at Holland House Show; Gold Medal, Shepperton; Gold Medal, Sherborne; and a Gold Medal at Sevenoaks. Gold Medal, Bournemouth, 1913. Three Large Gold Medals and Two Silver Gilt Medals have been awarded our Sweet Peas by the National Sweet Pea Society since 1908.

With a view to assisting those of our customers who are not quite conversant with Sweet Peas in their now extremely numerous varieties, we offer our selection of large-flowered varieties as under.

Although all good for exhibition, we chiefly have in mind their suitability for garden decoration and cutting purposes. With this end in view, we have selected giant-flowered types borne in threes and fours on very long stems. All are bright colors and pleasing shades, which do not scorch in the sun. The plants are of robust habit, and if the bloom is judiciously cut will produce large quantities of beautiful flowers until late autumn.

5720 **Carters Extra Early White.**
5721 **Carters White.**
5722 **Carters Primrose.**
5723 **Carters Deep Pink.**
5724 **Carters Orange-Scarlet.**

THE HIGHEST HONOURS TO CARTERS EXHIBITS
Royal International Horticultural Exhibition, London.

TWO LARGE GOLD MEDALS to Carters Flowers and Japanese Garden.
LARGE SILVER CUP to Carters Vegetables.
THE HORTICULTURAL CLUB CUP to Carters Japanese Garden.
LARGE SILVER MEDAL to Carters Method of Seed Testing.

The above Awards constituted a record for any Seed House at this most successful Exhibition.

VERBENA.—Perennial. Few plants are more generally liked than the Verbena, as it makes a first-class bedder, brilliant in colours, excellent habit, and of long duration in bloom. Sow in heat in spring, prick off into boxes in cool frame, harden off, and plant out. It may be also grown as a pot plant from seeds sown in summer for flowering in the greenhouse the following spring.

No.
5784 **Carters Mammoth.**—Choice mixture of all shades.

5786 **Mammoth.**—Scarlet shades. Magnificent blossom.

5787 **Mammoth.**—Brilliant rose.

5788 **Carters Dark Blue.**—Large-flowered.

5789 **Carters Pink.**—Large-flowered.

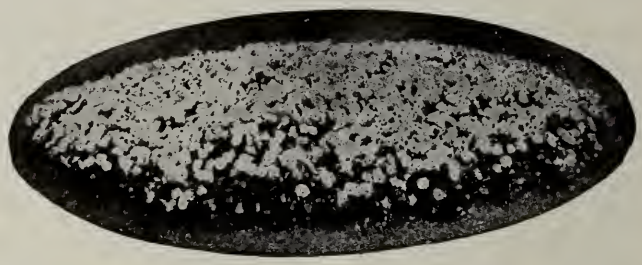
Price ...	500 seeds. .10	1,000 seeds. .15	2,000 seeds. .25

VIOLA.—Hardy perennial. Every large extent of bedding includes one or more of the Violas, and their enlivening effect is remarkable. Sow seeds in pring, in pans of light sandy soil in a cold frame, prick off, and plant out in May or June. Ht. 6 in.

Extreme care is taken in saving all the superb shades below, which come fairly true from seed.



5813 **Carters Purple Bedding.**

5814 **Carters Light Blue Bedding.**

5815 **Carters Golden Bedding.**

5816 **Carters White Bedding.**

5820 **Cornuta, Mauve Queen.**—The original Viola, small-flowered.

5821 **Cornuta, Purple Queen.**—The original Viola, small-flowered.

5824 **Carters Choicest Mixed.**—Superb flowers of all shades.

5826 **Odorata.**—Sweet Violet.

5827 **Odorata alba.**—White Violet.

5828 **Odorata, The Czar.**

5829 **Carters Sweet Scented Violet** (*Princess of Wales*).—Award of Merit, R.H.S. This plant produces large flowers of a rich blue shade on long, vigorous stems. Very fragrant.

Price of the above ...	250 seeds. .10	500 seeds. .15	1,000 seeds. .25

See page 86 for Carters Violet Perfumes.

VIOLET.—*See* Viola.

VIRGINIAN STOCK.—Annual. The hardiest of annuals, adapted for edgings. Sow in spring.

5847 **Crimson King.**—Rich rose crimson.

5848 **Red.** 5849 **White.**

5850 **Carters Mixed.**

Price of the above—			
⅛ oz. .10	¼ oz. .15	½ oz. .25	1 oz. .45

VIRGIN'S BOWER.—*See* Clematis.

VISCARIA.—Hardy annual of brilliant colour and effect. Sow in spring where plants are to bloom.

5853 **Cardinalis.**—Vivid carmine-lake. Ht. 1 ft.

No. 5854 Viscaria, Carters Lilac.

5854 **Carters Lilac.**—A charming pale lilac variety which cannot fail to become popular, as the shade is one which is all too rare among annuals.

5855 **Oculata.**—Metallic lilac.

Price of the above ...	1,000 seeds. .10	2,000 seeds. .15	4,000 seeds. .25

WALLFLOWERS.—The Wallflower is very popular, and should find a place in all collections of spring-flowering plants. For two months, May and June, it adds its best charms, and makes beds and borders quite cheery by its presence and fragrance. For real usefulness we recommend the selectious shown on this page. Sow the seed of the annual varieties in February and March, and keep growing until time for planting out in May. For indoor purposes sow the seed in September and pot off when ready, keep them well nourished, and as spring approaches they will grow rapidly and prove a valuable addition to the greenhouse with their fragrance and presence.

CARTERS DWARF SWEET-SCENTED LARGE FLOWERED.

For beds and borders. Ht. 9 in. to 1 ft. Plants to stand 1 ft. apart. Excellent in a bed to themselves or as a front to the taller varieties.

5858 **Carters Dwarf Golden.**—A very select stock of good habit and bright colour.

5859 **Carters Dwarf Blood-red.**—Large flowered. An excellent deep-coloured companion to the above.

5860 **Carters Dwarf Purple.**—Large flowered. This variety should be more grown; it forms a pleasing combination with pale yellow Tulips.

5861 **Golden Tom Thumb.**—Superior bedding. A splendid stock of this popular variety. Ht. 9 in.

5863 **Vulcan.**—A dwarf, neat-habited, maroon-flowered variety. Makes a splendid bedding plant. Ht. 9 in. to 1 ft.

5865 **Carters Mixture of Dwarf Varieties.**—In this strain the various shades and colours are carefully blended. All the plants are of very neat habit and free flowered.

	250 seeds.	500 seeds.	1,000 seeds.
Price of the above ...	.10	.15	.25

See page 86 for Carters Wallflower Perfume.

CARTERS TALL SWEET-SCENTED.

The tall strain is very effective planted in front of shrubberies, along borders, or in the centre of beds edged with the dwarf varieties above. Ht. 1½ ft. except where otherwise stated.

The varieties starred bear giant flowers and are very choice re-selected strains.

5871 **Carters Winter Blooming Deep Red.**—A brilliant Wallflower, and should be greatly appreciated for its early flowers when blooms in the garden are scarce. Ht. 1½ ft.

5872 **Ellen Willmott.**—This is a recent introduction of which we have an extremely high opinion. The very large flowers are of a rich shade of ruby, very distinct from existing forms of this colour. Ht. 1½ ft.

5873* **Carters Tall Blood-red.**—A very rich coloured strain, large flowered, and of good habit.

5874 **Carters Tall Golden.**—An excellent bright golden companion to our *Blood-red*.

5879 **Harbinger.**—The well-known early-flowering market variety. Colour mahogany brown.

5880 **Old Gold.**—Deep golden yellow. Compact in habit and very free flowering. Ht. 1¼ ft.

5881 **Carters Winter Blooming Golden Yellow.**—Makes a beautiful contrast when associated with our *Winter Blooming Deep Red*. Ht. 1½ ft.

5882* **Fire King.**—A brilliant fiery red. The colour is so intense that beds of this variety in the sunshine have almost the appearance of being on fire.

5883* **Carters Tall Purple.**—Large flowered. Rich ruby; a particularly telling shade for bedding.

5884* **Carters Tall Salmon Pink.**—A beautiful combination of salmon-pink and apricot.

5885* **Carters Mixture of Tall Varieties.**—Contains all the best colours and shades found in our named varieties.

5886 **Primrose.**—Delicate colour.

	250 seeds.	500 seeds.	1,000 seeds.
Price of the above ...	.10	.15	.25

DOUBLE.

5895 **Carters Tall.**—Large, variously coloured spikes. Ht. 1¼ ft. to 1½ ft.

5896 **Carters Dwarf.**—Large branching growth, all colours. Ht. 9 in. to 1 ft.

5897 **Double Mixed.**—Magnificent spikes of blossom. Ht. 1 ft. to 2 ft.

Doubles should be planted closer together than Singles.

	75 seeds.	150 seeds.	300 seeds.
Price of the above ...	.10	.15	.25

CARTERS PERFUMES.

are the sweet scents, carefully and skilfully prepared, of old-time favourite English garden flowers. They are highly concentrated, and do not, like inferior perfumes, become stale or stain fabrics.

Carters favourite perfumes of English garden flowers are:—

Clove Carnation
Freesia
Gardenia
Heliotrope
Honeysuckle
Hyacinth
Lilac.
Mignonette
Moss Rose
Narcissus
Parma Violet
Sweet Pea Blossom
Wallflower
White Clover
White Rose
Wood Violet

Carters Perfumes are supplied in bottles each being in a single dainty, but inexpensive box (the value being in the perfume) at the following prices:—

Size	No. 3. Cut glass.	No. 4. Cut glass.	No. 5. Cut glass.
Price per bottle	3.75	6.25	7.50 each.
Price post paid	3.90	6.50	7.75 each.

THE MEANING OF OUR TRADE-MARK.

The founder of our firm, James Carter, was, we believe, the first to guarantee the germination of his Garden Seeds nearly a hundred years ago. The practice is still followed with the advantage of more scientific and up-to-date methods. The sign, Carters Tested Seeds, seen in the photographs of our buildings, is in a significant position, as it is placed immediately over our Laboratories at Raynes Park, wherein the scientific skill of our Botanists and Analyst, aided by the finest apparatus in the world (always open to inspection), should assure for this title the very best recommendation. We were awarded the Large Silver Medal for our own invented apparatus for Seed Testing at the recent Royal International Horticultural Exhibition in London, and more recently awarded a Silver Cup by the Royal Horticultural Society at Chelsea. All our seeds, after passing through our Laboratory Tests, are grown in our Grounds at the same time as our customers grow them, to full maturity, so that we may assure ourselves of the quality and trueness of each variety. By examining our trials from time to time we know exactly how the produce of our Seeds should appear in the gardens of our customers all over the world, making allowances for the various climates, and by the aid of our comparative tests (we try all seeds of repute), we assure ourselves that our customers are growing "the best and only the best" and "Tested."

BULBS FOR EARLY SPRING PLANTING,

FOR SUMMER AND AUTUMN FLOWERING.

AMARYLLIS.

A showy tribe of bulbous plants, and exceedingly effective for conservatory decoration. Pot up the dry bulbs when received in good loamy soil, and expect them to bloom the following summer, or earlier if pushed on in heat. When potting, use a compost of turfy loam and leaf-mould, coarse sand, and well-rotted cow-dung.

If by parcel post add postage at zone rates; weights given against each sort. Single bulbs mailed free.

Bella Donna (*Bella Donna Lily*).—Soft pink. Weight 6 lb. per doz. Each, .20; per doz., 2.00

Formosissima (*Jacobae Lily.*)—Crimson. Weight 3 lb. per doz. Each, .20; per doz., 2.00

Purpurea (*Vallota*).—Splendid scarlet. Weight 3 lb. per doz. Each, 30; per doz., 3.00

Mixed Seedlings.—From choice sorts. Weight 6 lb. per doz. Each, .75; per doz., 8.00

ARUM (Calla or Richardia).

The Arum Lily is a magnificent flower for decorative purposes and can be easily grown in pots.

If by parcel post add postage at zone rates; weight 3 lb. per doz. Single bulbs mailed free.

Mrs. Roosevelt.—This is an exceedingly hardy and beautiful variety producing handsome soft lemon-coloured flowers and foliage of dark green, marked with splendid transparent silver blotches, making it a most attractive plant for decorative purposes. Each, .35; per doz., 3.50

Dracunculus (*Dragon Arum*).—Purple-black flowers, large leaves with mottled stems Each, .25; per doz., 2.50

Large White Calla (*Trumpet Calla*).—The best known and most popular variety. Each, .25; per doz., 2.50

Elliottiana.—Yellow-flowering. Each, .40; per doz., 4.00

Sanctum or Black Calla. Each, .25; per doz 2.50

Carters Crown Jewels Double Begonia.

BEGONIAS.

If by parcel post add postage at zone rates: weight 7 lb. per 100. Dozens mailed free.

The tuberous-rooted Begonia has become a plant of such importance, owing to the rapid improvement it has undergone, that no garden or greenhouse can be considered complete without it.

Tubers may be started into growth from January onwards, but the sudden plunging into a very hot temperature is not conducive to a good strong plant, therefore they should be put into a medium temperature. Place them in boxes filled with leaf-mould, and as soon as the tubers are started pot into small pots in a mixture of equal parts of leaf-soil and loam, with the addition of a little silver sand. When the roots reach the sides of these pots they should be re-potted into a larger size, using a little heavier compost than before. After a few weeks again re-pot them, this time into their flowering pots, using a compost of about two parts rich loam, one part leaf-mould, with a little sand or broken mortar rubble to keep the whole porous, and some broken charcoal and dried cow manure. Pot moderately firm, and place in a cool house, keeping it close for a few days until root action commences, afterwards giving ample air, and damping floors and stagings on warm days until flowering commences.

CARTERS CROWN JEWELS BEGONIA BULBS.

The blooms are of giant size, combined with perfect form.

Carters Crown Jewels Begonias represent the highest state of excellence both in single and double forms.

Single Begonias.—Choice named ... Each, .65; per doz., 6.50
Single Begonias.—Choice seedlings ... ... Per doz., 4.50
Double Begonias.—Choice named ... Each, .65; per doz., 6.50
Double Begonias.—Choice seedlings ... ... Per doz., 4.50

SINGLE BEGONIAS.

Bright Scarlet. **Dark Crimson.** **Pink.**
Copper. **Pure White.** **Yellow.**
Mixed.—All colours.

Price of the above, per doz., .85; per 100, 6.00

DOUBLE BEGONIAS.

Copper. **Red.** **Yellow.**
Pink. **Rose.** **White.**
Mixed.—All colours.

Price of the above, per doz., 1.25; per 100, 8.00

CARTERS NEW FRINGED BEGONIAS

A magnificent single strain for bedding or for pots. Flowers very large and of great substance, with the edges of each petal beautifully frilled or fringed. A great improvement on the ordinary single Begonia, and of particular value where the rather formal character of ordinary Begonias is considered a disadvantage. The moderate price enables them to be extensively used for bedding.

Scarlet. **Yellow.** **White.**
Orange. **Rose.** **Salmon.**
Mixed.—All colours.

Price of the above, each, .15; per doz. 1.50: per 100, 10.00.

GLOXINIA BULBS.

If by parcel post add postage at zone rates: weight 4 lb. per 100. Single bulbs mailed free. All for delivery after December 15th.

This beautiful flowering plant is very popular and exceedingly attractive in conservatory decoration. It has been greatly improved in the size and colours of the blossoms in recent years, and includes almost every shade. When grown from tubers it is treated somewhat like the Begonia, although during the younger stages of growth the plant prefers a moist, warm atmosphere. Directly the flower buds commence to burst they may be transferred to a drier situation, such as the conservatory staging affords. The soil recommended should be of a rich, loamy description, mixed with sand and leaf-mould, and they may be fed with liquid manure up to the time the buds appear.

Our stock of Invincible Prize Gloxinias embraces the greatest variety of colouring and form, including rich crimson, white, and blue grounds, elegantly mottled, and a great variety of beautiful parti and self colours. The flowers are of immense substance, and will be found immeasurably superior to other strains.

Gladiolus America.

Baron Hulot.

Gladiolus Halley.

Mrs. Francis King.

GLADIOLUS.—AUTUMN FLOWERING GLADIOLUS

During the past few years giant strides have been made in the raising of new varieties in various shades of blue, red, pink, scarlet, crimson, yellow and white, and the sorts offered by us are selected for their splendid colouring and robust constitutions.

If by parcel post add .10 per doz. or .75 per 100. Single bulbs mailed free.

	Doz.	100	1,000
America.—Pale pink throat tinted magenta.	.60	4.00	35.00
Annie Wigman.—Pale Sulphur Yellow with small blotch	1.00	7.50	
Attraction.—Deep Rose with white throat	.75	5.00	45.00
Augusta.—White Tinted Rose, one of the best	.50	3.50	32.00
Baron Hulot.—Deep Violet Blue slightly streaked white	.85	6.00	
Blanche.—A sterling white faintly marked, flowers very large.	2.50	18.00	
Blue Vista.—A new clear glistening white with distinct Iris Blue markings in throat. Very beautiful	2.00	15.00	
Charmer.—Large broad-petaled flower. Color, mauve-pink with lighter shading in throat	2.00	15.00	
Dawn.—Clear Shell Pink. Very beautiful	1.75	12.00	
Empress of India.—Deep Maroon with dark markings	1.50	10.00	
Europa.—Finest White of perfect form with a spike of wide open flowers (magnificent)	2.50	18.00	
Fire King.—Rich Salmon Red intensely brilliant	1.50	10.00	
Giant Pink.—A Dark Pink with brilliant throat markings of deep red	.70	4.50	40.00
Halley.—Magnificent large flower, color light salmon, throat and portion of three lower petals flushed sulphur with magenta markings	.60	4.00	35.00
Independence.—A brilliant Begonia Pink with throat richly marked	.60	4.00	35.00
Isaac Buchanan.—A splendid Yellow of dwarf habit. Most attractive	1.25	8.00	
Jean Dieulafoy.—A lovely Cream with dark blotch. Excellent for display	1.75	12.00	
Jean Bart.—Bright Crimson Red, ivory white blotch	1.50	10.00	
Kunderi Glory.—Delicate Blush Pink, lower petals frilled and fluted.	1.00	7.50	70.00
Klondyke.—Clear Primrose Yellow with crimson blotch. Flowers round on a good spike. An early bloomer of dwarf habit	.75	5.00	45.00
Lily Lehman.—Pale Sulphur Yellow, passing to cream with rose flakings.	1.50	10.00	
Loveliness.—A Clear Cream tinted sulfrans pink. Very soft and delicate flowers, large and well formed on spike	1.50	10.00	
May.—Pure White delicately flaked rose excellent for early flowering	3.50	25.00	
Melrose.—Very large and fine flower. Color, white flaked pink with bright crimson centre.	1.75	12.00	
Mrs. A. C. Beal.—A Clear Buff Yellow with distinct tongue of scarlet on lower petals. A very graceful spike	2.00	15.00	
Mrs. Beecher.—A Deep Rosy Crimson with white throat. Flowers large	1.50	10.00	
Mrs. Francis King.—Salmon Scarlet shaded lower petals crimson blotched	.50	3.50	30.00
Mrs. Frank Pendelton.—Flushed Salmon Pink with maroon blotch	1.50	10.00	
Niagara.—Cream deeply suffused pink	1.50	10.00	
Panama.—Rose pink. Beautiful flower	.90	6.50	60.00
Peace.—Splendid large white flower with pink flush, lower petals feathered mauve	1.00	7.50	65.00
Pink Perfection.—Lovely Pale Pink shade. Very beautiful	1.50	10.00	
Princeps.—Blood Red Crimson with white blotch on lower petals	1.00	7.50	70.00
Rochester White.—A splendid Pure White	2.00	15.00	
Rosella.—A large open delicate Mauve flowered stained purple white	2.00	15.00	
Scarsdale.—A long graceful spike of deep Jacinthe shading to lavender with rose tintings	1.00	7.00	65.00
Schwaben.—The largest and strongest flowered Yellow grown. Citron Yellow with purple tongue on lower petals. Highly recommended.	2.50	18.00	
Snow King.—One of the finest pure White introductions	1.00	6.50	60.00
Victory.—Sulphur Yellow deeply shaded on lower petals	1.00	6.50	60.00
War.—Deep Blood Red shaded very deep crimson	5.50	40.00	
Wild Rose.—A very remarkable variety, color bright rose with blush tint blending beautifully	1.75	12.00	
Willy Wigman.—Delicate Cream with dark red blotch.	.85	6.00	55.00
Winsome.—Large round flowers of exquisite blush pink shaded carmine throat blotched crimson	2.25	16.00	

CARTERS IMPROVED BUTTERFLY GLADIOLUS.

By careful hybridization and selection we have succeeded in producing a most unique strain of hybrid Gladioli containing an almost endless variety of colours. The new blue shades are in pleasing proportion, as are the more delicate cream and rose ground varieties.

Carters Butterfly Strain, although large-flowered, is quite free from any suggestion of coarseness.

Strong Flowering Bulbs.
Per doz., .55; per 100, 3.50; per 1,000, 30.00

HYBRID MIXTURES.

Primulinus Hybrids.—Showing exquisite colorings from soft primrose to clear rose.	.60	4.00	35.00
Primulinus Hybrids.—Yellow and Orange shades a beautiful combination of these shades	.85	6.00	50.00
Groff's Hybrids.—A splendid mixture of the large flowered hybrids	.40	2.50	22.50
Carter's Pink and Rose Mixed	.45	3.00	25.00

Carters Striped and Variegated Shades Mixed	.45	3.00	25.00

Gandavensis Hybrids.—Choice mixed, embracing all shades of colour.
Per doz., .40; per 100, 2.50; per 1,000, 20.00

Lemoine's Blotched Varieties.
Per doz., .40; per 100, 2.50; per 1,000 20.00

Childsi.—Finest mixed hybrids.
Per doz., .50; per 100, 3.25; per 1,000, 27.50

SCARLET BRENCHLEYENSIS.

Large handsome spikes of brilliant scarlet. This popular variety still holds its own on account of its vivid colouring and fine spike, the flowers opening uniform, and giving superb effect in borders. We offer some exceedingly fine bulbs.

Monster Bulbs. Per doz., .45; per 100, 3.00; per 1,000, 25.00
Large Bulbs. Per doz., .35; per 100, 2.25; per 1,000, 17.50

HYACINTHUS CANDICANS.

A tall-growing bulbous plant, with long spear-like leaves. Planted in shrubberies or borders from autumn to early spring on rich soil, it throws up a candelabra-like spike of white bell-shaped flowers the following summer which are very effective, and make a splendid background for Gladiolus. Ht. from 3 to 5 ft.

If by parcel post add postage at zone rates; weight 20 lb. per 100.
Per doz., .50; per 100, 3.50; per 1,000, 30.00.

Lilium Auratum. *Lilium Speciosum rubrum.*

CARTERS LILIUM AURATUM.

The beautiful Golden-rayed Lily of Japan.

This grand Lily has now been brought to such a popular price that it should be largely grown in every garden. In soils suitable to its taste it will thrive in increased vigour each season in borders, and should be extensively cultivated in such spots. It can be seen in its full beauty in association with ornamental shrubs and bold-loaved herbaceous plants. It flowers rather later in summer than some of its relations.

We have again made arrangements for large consignments of this beautiful Lily to reach us direct from the growers, and are certain to handle the pick of the Japanese harvest.

All bulbs are carefully sorted by hand, and are examined personally before despatch.

Fine Gigantic Bulbs.—11 to 13. Weight 7 lb. per doz.
Each, .30; per doz., 3.00; per 100, 20.00

Large Bulbs.—9 to 11. Weight 5 lb. per doz.
Each, .20; per doz., 2.00; per 100, 15.00

Good Flowering Bulbs.—8 to 9. Weight 3 lb. per doz.
Each, .15; per doz., 1.50; per 100, 10.00

If by parcel post add postage at zone rates; the weights being given against each subject. Single bulbs mailed free.

CARTERS LILIUM SPECIOSUM

Next to the *Lilium Auratum* we must place the *Lancifolium* or *Speciosum* so exquisite in form and so easily cultivated. Specimens frequently may be seen flowering on balconies in the large cities late in summer, and coming at a time of year when flowers are somewhat scarce makes it doubly welcome. It thrives well out in the border, and, with its pure chaste white, orange, crimson-spotted, and rose-spotted flowers, is very attractive.

Speciosum album.—Splendid pure white. Ht. 3 ft. 9 to 11. Weight, 3 lb. per doz. Each, .30; per doz., 3.00; per 100, 20.00

Speciosum roseum.—White, spotted light rose. Ht., 3 ft. 9 to 11. Weight 3 lb. per doz. Each, .20; per doz., 2.25; per 100, 16.00

Speciosum rubrum.—White ground, heavily spotted crimson. Ht. 3 ft. 9 to 11. Weight 4 lb. per doz.
Each, .20; per doz., 2.25; per 100, 16.00

Speciosum album Kraetzerl.—Finest pure white variety. Ht. 3 to 4 ft. 9 to 11. Weight 3 lb. per doz.
Each, .30; per doz., 3.00; per 100, 20.00

Speciosum Henryll.—The orange yellow *Speciosum*; soft orange yellow. Ht. 7 to 8 ft. 9 to 11. Weight 4 lb. per doz.
Each, .70; per doz., 7.00; per 100, 51.00

Speciosum Melpomene.—Very beautiful; spotted rich crimson. Ht. 3 ft. 9 to 11. Weight 4 lb. per doz.
Each, .25; per doz., 2.50; per 100, 18.00

Speciosum magnificum.—Spotted dark crimson; a very fine variety, rather richer in colour than *Melpomene* and slightly earlier. Ht. 4 ft. 9 to 11. Weight 4 lb. per doz.
Each, .25; per doz., 2.50; per 100, 18.00

LILIUMS IN VARIETY

If by parcel post add postage at zone rates; the weights being given against each subject. Single bulbs mailed free.

Batemaniae.—Clear orange apricot. Weight 2 lb. per doz.
Each, .20; per doz., 2.00; per 100, 14.00

Canadense (*Canadian Lily*).—Reddish orange to yellow, black spots. Weight 2 lb. per doz.
Each, .15; per doz., 1.50; per 100, 10.00

Croceum (*Orange Lily*).—Brilliant orange, spotted dark crimson, flowering in June. Ht. 3 to 4 ft. Weight 2 lb. per doz.
Each, .20; per doz., 2.00; per 100, 14.00

Elegans Prince of Orange.—Orange, spotted black. Ht. 1½ ft. Weight 1 lb. per doz. Each, .15; per doz., 1.50; per 100, 10.00

Elegans atrosanguineum.—Dark crimson. Ht. 1½ ft. Weight 1 lb. per doz. Each, .20; per doz., 2.00; per 100, 14.00

Elegans Aurantiacum Vernum.—Clear apricot color without spots or flakes. Very fine. Doz., 2.25; Per 100, 16.00

Japonicum Brownl.—White, trumpet-shaped, outer petals tinged with brown. Ht. 3 ft. Weight 3 lb. per doz.
Each, .50; per doz., 5.00; per 100, 35.00

Pardalinum.—Tall handsome variety; orange scarlet, spotted black; extra strong. Ht. 5 to 6 ft. Weight 2 lb. per doz.
Each, .15; per doz., 1.50; per 100, 10.00

Superbum.—Rich orange, with dark spots. Ht. 4 to 5 ft.
Each, .20; per doz., 1.75; per 100, 14.00

Tigrinum, fl. pl.—Rich orange scarlet, crimson spots; very double. Ht. 3 to 4 ft. Weight 2 lb. per doz.
Each, .15; per doz., 1.50; per 100, 10.00

Tigrinum Fortunll.—Bright orange scarlet, brown spotted, Ht. 4 to 5 ft. Weight 2 lb. per doz.
Each, .15; per doz., 1.50; per 100, 10.00

Tigrinum splendens.—Rich orange scarlet, densely studded with bright crimson spots. Strong bulbs. Ht. 3 to 4 ft. Weight 2 lb. per doz. Each, .15; per doz., 1.50; per 100, 10.00

Umbellatum.—Varied shades of orange and orange scarlet. Ht. 2 to 3 ft. Weight 2 lb. per doz.
Each, .20; per doz., 2.00; per 100, 15.00

LILY OF THE VALLEY

A crown is the description given to a single rootlet. They are generally sold in bundles of 25, and are the best for pots and forcing. When throwing up blossoms grown in this manner, they are most serviceable in a number of ways for decorative purposes. A clump is a large conglomerated mass of roots that will throw up a quantity of flowering spikes, either forced or when planted out of doors. Clumps are preferred for a permanent bed in the garden.

If by parcel post add postage at zone rates; weight of crown 2 lb. per bundle of 25, 6 lb. per 100; weight of clumps 5 lb. each.

Carters Finest Selected Crowns.—For forcing. In bundles of 25.
Per Bundle, 1.00; per 100, 3.50; per 1,000, 32.00

Good Flowering Crowns.
Per 25, .85; per 100, 3.00; per 1,000, 28.00

Large Clumps.—Very fine. Each, .35; per doz., 3.50.

RETARDED LILY OF THE VALLEY

By availing ourselves of the modern method of cold storage we are enabled to supply forcing roots of this pretty decorative plant throughout the year. One advantage these retarded roots have over those handled in the ordinary way is the quick time in which the flowers are produced. We have seen dormant crowns put into heat and brought into beautiful bloom within three weeks, but we recommend from four to five weeks as the average time for a perfect flower spike.

Giant Flowering Retarded Crowns for all Seasons.
Per 100, 4.00; per 500, 18.00; per 1,000, 34.00

DO YOU KNOW THE CARTER SYSTEM of making Golf Courses, Lawns, etc.? Write for our pamphlet, "The Making of a Lawn," which deals with the making and renovation of grassy lands, post free.

MONARCH OF THE EAST.

(As originally named and offered by us.)

This remarkable plant exhibits one of those extraordinary traits in Nature that few are able to understand, for the magnificent flowers actually come out of the dry bulb without being placed in soil and water.

Monarch of the East. *Bulb and Decorated Bowl.*

The flower sheath sometimes reaches a length of nearly 2 ft., is of a red-brown colour, tipped with red and yellow, whilst the inner parts of the flower are equally as brilliant. The bulb of this extraordinary plant needs only to be placed in some fancy receptacle, WITHOUT WATER, in a warm room, or on a mantelshelf, when without showing either leaves or roots, the flower makes its appearance early in the year, thriving entirely upon the nourishment contained within the bulb.

Directly after the flower fades, and a growth appears to be coming from the bulb, it should be potted in a large pot in rich soil and freely watered. Later on an umbrella-shaped leaf will be formed on a stout stalk, spotted with a granite-like colour, and sometimes reaching a height of 3 ft.

If by parcel post add postage at zone rates; weight of bulbs, 2 lb. each; weight of bulb and bowl, 3 lb. each, packed.

Extra Strong Bulbs .. .. Each, .25; per doz., 2.50

Decorated China Bowls, for placing these Bulbs in. Each, .25 and .35

MONTBRETIA.

The Montbretias are very pretty tuberous-rooted flowering plants, bearing showy spikes of blossom during August. Very useful for cutting. They are easily grown in a sunny open border, or indoors in pots. When established in borders a wealth of spikes may be expected.

If by parcel post add postage at zone rates; weight 3 lb. per 100. Dozens mailed free.

Crocosmiaeflora.—Scarlet and orange shaded. Per doz., .25; per 100, 1.50

Eldorado.—Fine deep orange yellow. Per doz., .25; per 100, 1.50

Elegans.—Yellow and vermilion. Per doz., .30; per 100, 1.75

Etoile de Feu.—Vermilion, golden centre. Per doz., .25; per 100, 1.50

George Davidson.—Golden yellow, fine handsome flower. Per doz., 1.00; per 100, 7.00

Golden Sheaf or Gerbe d'Or. Per doz., .25; per 100, 1.50

Lady Hamilton.—Distinct yellow, with golden centre; very effective variety, with erect habit Award of Merit, R.H.S. Each, .25; per doz., 2.50

Pottsii.—Scarlet. Per doz., 25; per 100, 1.50

Rosea.—Soft pink; beautiful. Per doz., .30; per 100, 1.75

Mixed.—Containing a fine variety of colours. Per doz., .25; per 100, 1.50

CARTERS CATALOGUE OF BULBS

Contains particulars of beautiful Bulbous Flowers for Autumn Planting and Spring Flowering.

Do you receive a copy? If not, please write us.

DOUBLE SWEET-SCENTED TUBEROSES.

Beautiful pure white flowers.

The Sweet-scented Double White Tuberose (*Polianthes tuberosa*) has become exceedingly popular. They possess both a character and a perfume distinct from any other flower, and can be induced to bloom at various seasons. At one time they were only obtainable from the south of Europe; now they are specially cultivated in different parts of the world, and can easily be forced into bloom for the Easter festivals. Those who do not cultivate these flowers for winter decoration can procure the bulbs in the spring, when they will come into flower during the summer. The double-flowered Tuberose may be had in succession by potting the tubers and standing them in a cold frame, covering them 4 in. deep with cocoanut fibre refuse; but they will start much more quickly and with greater certainty in a gentle bottom heat.

Double Tuberose.

Carters Extra Large Bulbs ... Per doz., .50; per 100, 3.00

If by parcel post add postage at zone rates; weight of bulbs, 10 lb. per 100.

SPIRÆA.

The dormant roots or clumps can be placed singly into 6-in. pots or a size larger if necessary. If given plenty of water as soon as they commence to grow, and kept in heat, they will become effective very quickly.

Snowdrift.—Produces in profusion a mass of elegant feathery white blossoms of the greatest value for decorative purposes. Each, .25; per doz., 2.75; per 100, 20.00

Gladstone.—Beautiful snow-white flakes of blossom; large and compact. Each, 25; per doz., 2,75; per 100, 20.00

Astilboides floribunda.—An improved form; very free flowering. Each, .25; per doz., 2.50; per 100, 18.00

Japonica.—Extra strong clumps for forcing or borders. Valuable for table decoration. Each, .25; per doz., 2.50; per 100, 18.00

THREE CHARMING SPIRAEA NOVELTIES

Queen Alexandra.—Produces long, feathery plumes of bright pink flowers. Each, .25; per doz., 2.75; per 100, 20.00

Peach Blossom.—Produces flowers of a lighter shade of pink than the foregoing variety. Extensively used for house and table decoration. Large, dormant roots. Each, 25; per doz., 2.75; per 100, 20.00

Avalanche.—Very fine new variety, having large trusses of pure white flower. Strongly recommended. Each, 30; per doz., 3.00; per 100, 22.50

If by parcel post add postage at zone rates; weight 2 lb. each.

TIGRIDIA (Tiger or Shell Flower).

Some beautiful hybrids of this showy flower have appeared during recent years. The bulbs, which are supplied in a dry state, are usually planted in pots in April, or in groups in the garden in a rich, sunny border. They maintain a succession of bloom throughout the summer and early autumn, when they must be taken up and placed in dry sand to winter.

Canariensis.—Yellow, spotted .. .. Per doz., .30; per 100, 2.00

Grandiflora alba.—White, spotted; beautiful. Per doz., .30; per 100, 2.00

Lilacea.—Purplish lilac, spotted .. Per doz., .30; per 100, 2.00

Immaculata alba.—Pure white.. .. Per doz., .25; per 100, 1.50

Pavonia (*Tiger Flower*).—Scarlet .. Per doz., .25; per 100, 1.50

Rosea.—Bright rose .. .. Per doz., .30; per 100, 2.00

Speciosa.—Red and yellow.. .. .. Per doz., .30; per 100, 2.00

Immaculata lutea.—Pure yellow .. Per doz., .30; per 100, 2.00

AIDS TO SUCCESSFUL GARDENING.

BLIGHT AND INSECT DESTROYERS, REMEDIES, ETC.

(Application instruction on all containers.)

Abol Insecticide. A well known English non-poisonous insecticide and fungicide, very strongly recommended.
qt., 1.25; ½ gal., 2.25; 1 gal., 4.00

Aphine, used with much success on Red spider, thrip, white, green and black fly .. .. .. pt., .65; 1 qt., 1.00; gal., 2.75

Aphis Punk Nikoteen, a well-known tobacco paper much in demand and used with great satisfaction generally. Put up in boxes each containing 12 sheets. Box of 12 sheets, .75; carton of 12 boxes, 7.50

Arsenate of Lead, paste considered a most economical insecticide for leaf-eating insects, mixes easily; kills quickly and will not burn foliage. lb., .40; 5 lb., 1.75; 10 lb., 3.00; 25 lb., 6.50; 50 lb., 12.50

Black Leaf Forty, a highly concentrated solution of Nicotine sulphate Strongly recommended for use on all aphis and sucking insects.
1 oz. bottle, .25; ½ lb. tin, .75; 2 lb., 2.50; 10 lb., 10.75

Bordeaux Mixture, Liquid, for blight, mildew, rust, scab and fungus diseases. Also acts as a deterrent to insects on fruit and vegetables.
1 qt., .50; gal., 1.25; 5 gal., 5.00; 10 gal., 9.50

Bordeaux Mixture, Dry, used in the same manner as liquid Bordeaux and for the same affections. 1 lb. makes 5 gal. of liquid.
1 lb., .45; 5 lb., 2.00; 10 lb., 3.75; 25 lb., 8.50

Bowkers Pyrox. The best and safest all-round spray against all leaf-eating insects, prevents blight and fungus troubles on evergreen, deciduous or fruit trees without injury to fruits, highly recommended.
1 lb., .40; 5 lb., 1.75; 10 lb., 3.25; 25 lb., 7.50; 50 lb., 14 00

Bug Death, used in place of paris green. It is claimed to have the same effect. The manufacturers claim it also acts as a fertilizer as well as a insecticide. Apply in dry powdered form as purchased. We recommend its application by the (Dicky Bug Death Shaker).
1 lb., .25; 3 lb., .65; 5 lb., .85; 12½ lb., 1.75

Bug Death Shakers (Dickey's), a tin cylinder which holds about 3 lbs. of Bug Death Powder .. .. Price, .35

Carter's Lawn Sand, a combination of fine sand and finely ground and dried chemicals; which destroys shallow rooted weeds in lawns.
5 lb., .60; 10 lb., 1.00; 25 lb., 2.25; 100 lb., 8.50

Carterite Weed Killer, specially prepared formula for the destruction of daisies and fleshy rooted weeds.
5 lb., .65; 10 lb., 1.20; 25 lb., 2.50; 100 lb., 9.00

Cooper Solution, a very practical and useful fungicide for mildew, blight, and rust on fruit, flowers and vegetables. 1 qt. makes 25 gals. of spraying solution. 1 qt., 1.25; 1 gal., 3.75; 5 gal., 15.00

Cattle Comfort, a successful remedy against insects which annoy horses, cattle, dogs, etc. Destroys lice on poultry and is healing to all animal and poultry sores. 1 qt., .60; ½ gal., 1.00; gal., 1.75

Creosote, unequaled for destroying the eggs of Gipsy moths and similar insects, extensively used in Forestry work.
1 qt., .30; 1 gal., 1.00; 5 gal., 3.75

Cut Worm Killer, a prepared powder for sprinkling near plants. Its odor is enticing and cut-worms take to it in preference to vegetation. Chickens and birds are not effected by eating the worm killed by this powder. 1 lb. box, .30; 5 lb. box, 1.25; 25 lb. box, 5.00

Fir Tree Oil Soap, very much like fir tree oil except that it is in a soap form. Dissolve according to direction in warm water and use as a spray or wash. ½ lb., .50; 1 lb., .85; 2 lb. can, 1.50

Fish Oil Soap, used extensively for all forms of scale, is an excellent spring and summer spray and can be used with success when stronger preparations are dangerous. Dilute in water and use as a spray or wash. 1 lb., .25; 5 lb., 1.00; 14 lb. bucket, 2.50

Flowers of Sulphur, very serviceable for greenhouse use, a great help in checking mildew, also used with lime and salt as a remedy for scale. 1 lb., .15; 10 lb., 1.25; 25 lb., 3.00; 100 lb., 10.00

Formaldehyde used to prevent fungoid diseases such as potato scab and blight, grain and corn smut, etc. The dilution for most purposes is 1 to 15 or 20 gal. of water. About 1½ gal. of this will treat 1 bushel of potatoes. .. 1 pt., .50; 1 qt., .85; 1 gal., 2.50

Fungine, an infallible remedy for mildew, rust, wilt, stem-rot and other blights affecting flowers, fruits and vegetables. Is effective under glass or outdoors. ½ pt., .40; 1 pt., .65; qt., 1.00; gal., 3.50

Grape Dust, Hammonds, used to prevent the spread of mildew, mold, rust, mite, black spot and other foliage diseases; is effective under glass or outdoors. 5 lb. packages, .75; 10 lb., 1.25; 25 lb., 3.00

Hellebore (Powdered), an excellent preparation for the destruction of rose-bugs, currant worms and other soft shelled insects. Apply either dry or in liquid form. ¼ lb., .25; ½ lb., .45; 1 lb., .75; 5 lb., 3.50

Herbicide—Weed Killer, harmless to stone, woodwork, or shoes and perfectly odorless. For use only in roadways, paths and gutters. One thorough application will kill all weeds and roots of same; the best time to apply is shortly after a rain. One gallon when diluted 1 to 40 parts water will cover 100 to 150 square yards.
1 qt., .60; 1 gal., 2.00; 5 gal., 8.00; 25 gal. cask, 30.00

Imperial Soap Spray, one of the best insecticides for the destruction of all sucking insects. Contains no mineral poison and can be used safely on all flowers, plants and trees. 1 gal. diluted will make 30 to 35 gals. for spraying. 1 qt., .75; 1 gal., 2.50; 5 gal., 9.50

Kerosene Emulsion (Liquid), for scale and all sucking insects which infest flowering plants, vegetables, small fruits, shrubs and roses. Dilute 1 to 30 parts water. Pt. .30; 1 qt., .50; 1 gal., 1.50; 5 gal., 5.50

Lemon Oil Insecticide, one of the best and cheapest insecticides on the market, used by the leading growers. It destroys mealy-bug, scale, thrip, red-spider, green and black fly. Very highly recommended. 1 pt., .65; 1 qt., 1.00; 1 gal., 3.50; 5 gal., 15.00

Lime Sulphur Solution, for the destruction of the San-Jose and other forms of scale. 1 gal. makes 10 to 15 gal. of spray, Can be used either as a winter or a summer spray; for summer spray dilute 1 to 25. 1 qt., .40; 1 gal., 1.00; 5 gal., 3.75; 10 gals., 6.50

Nico Fume Liquid, this preparation is for both spraying and vaporizing in much the same way as Nicoticide and is used by the leading growers. ½ pt. .50,; 1 pt. 1.50; ½ gal. 5.75; 1 gal. 10.75

Nico Fume Paper, this is a paper treated with nicotine which gives off dense fumes of strong nicotine when ignited. Very much preferred by many who do not care to spray or vaporize.
Per box of 24 sheets, .85; 144 sheets, 4.00; 288 sheets, 7.50

Nicoticide, a wonder insecticide generally used for spray or vaporizing purposes. (Special fumigating lamp for this purpose sold at 1.00 each.) Nicoticide is very effective in destroying thrip, aphis, white fly, green fly, red spider, etc.
¼ pt., .75; ½ pt., 1.35; 1 pt., 2.50; ½ gal., 8.75; 1 gal., 16.00

Nicoticide Fumigator and Lamp Complete, for vaporizing 1.00

Nikoteen, one of the best forms of nicotine preparations. Used extensively for spraying and vaporizing. A very successful remedy for the pea lice so troublesome in the vegetable gardens. Dilute with water as per directions. ¼ pt., .45; 1 pt., 1.50; ½ gal., 5.50; 1 gal., 10.50

Paris Green, the chief merit of this article is its deadly effect on the potatoe bug and on all leaf eating insects. When used in liquid form use 1 pound to 50 gals. of water. And in dry form mix 1 lb. with 50 lbs. of Land Plaster. ¼ lb., .20; ½ lb., .35; 1 lb., .65; 5 lb., 3.00

Readeana Rose Bug Exterminator, used for destroying rose bugs, green fly, black fly, mealy bug, mildew, etc.
4 oz. bottle, .35; 8 oz. bottle, .60; 24 oz. can, 1.50; 1 gal., 4.50

Scalacide, one of the best scale destroyers on the market and very extensively used by Forestry Dept. of Cities and Towns. Use one gal. Scalacide to 20 gals. of water. This preparation does not clog nozzles of hose or pumps and is easily prepared for use.
1 qt., .50; ½ gal., .85; 1 gal., 1.50; 5 gal., 6.25; 10 gal., 11.00

Slug Shot (Hammonds), a standard remedy for rose slugs, currant and cabbage worms and all insects that infest the vegetable or flower garden. 1 lb., .20; 5 lb., .60; 10 lb., 1.00; 100 lb., 8.75

Sulpho Tobacco Soap, a combination of tobacco extract and sulphur, non-injurious to the tenderest plants. Excellent for destruction of all insects effecting soft-wooded and flowering plants. Dissolve in warm water. 3 oz. pkg., .10; 8 oz. pkg., .25; 1 lb., .45

Sulphate of Copper (Blue Stone), used extensively for Insecticide formulas .. .. 1 lb., .25; 5 lb., 1.00; 25 lb., 4.00

Tobacco Dust (For Burning), used by all the leading florists.
1 lb., .10; 10 lb., .75; 50 lb., 3.00; 100 lb., 5.50

Tobacco Dust (for Dusting), used with much success on all vegetables and flowering effected by lice or caterpillars.
1 lb., .10; 10 lb., .75; 50 lb., 2.75; 100 lb., 5.00

Tobacco Stems, for fumigating or mulching. Is used as a mulch around sweet peas and other plants to prevent destruction by the cut or wire worm. 25 lb., 1.00; 100 lb. sack, 2.75; bale, 4.75

Tree Tanglefoot, a safeguard for trees, vines and shrubs against gypsy, brown tail and Tussock Moth, Caterpillars. Also against Cankerworm, Ants, Borers, and other creeping insects.
1 lb., .45; 3 lb., 1.20; 10 lb., 3.50; 20 lb., 6.50

Vermine, a soil sterilizer and germicide for all soil vermine, destroys effectually white grub, cut worm, eel worm, wire worm, slugs, maggots, wood lice, and ants. Used extensively in the greenhouses, gardens, lawns. ½ pt., .40; 1 pt., .75; 1 qt., 1.25; 1 gal., 3.50

Weed Killer, Stirlingworth, one of the best weed destroyers offered, very effective on driveways, gravel or dirt walks. 1 lb. makes 10 gal. of liquid. 1 lb. .60; 3 lb., 1.50; 5 b., 2.25

Worm Eradicator, a preparation for removing earth worms from lawns, putting greens, tennis courts, etc. It at the same time acts as a stimulant and gives new life and color to the turf. Plenty of water should be used in washing this powder into the turf. For this operation select a day when the worms are working near the surface. Following a good rain is the ideal time. Special circular on request. 25 lb., 3.50; 50 lb., 5.75; 100 lb., 10.00

XL All Liquid Insecticide, this well-known English preparation kills mealy bug, red spider, green and black fly, caterpillars and all insect pests in the greenhouse or gardens. It is perfectly safe to use on all plants and is known as the perfect insecticide for spraying purposes and goes further than any other.
Pt., .85; qt., 1.50; ½ gal., 2.75; 1 gal., 5.00

XL All Vaporizing Compound, an English patent claimed to be the easiest ,the most effectual and the cheapest method of fumigating greenhouses or frames. Bottle sufficient for fumigating 10,000 cubic feet. 2.50
For fumigating 20,000 cubic feet 4.75

XL All Fumigator and Lamp, complete 1.00

NOTICE.—Owing to the present difficulties in obtaining supplies, and the constant advance in the cost of materials, the above prices are subject to change without notice.

CARTERS HORTICULTURAL REQUISITES.

FARMOGERM THE STANDARD INOCULATION

For Alfalfa, Clovers, Peas, Beans, Vetch, and Sweet Peas.

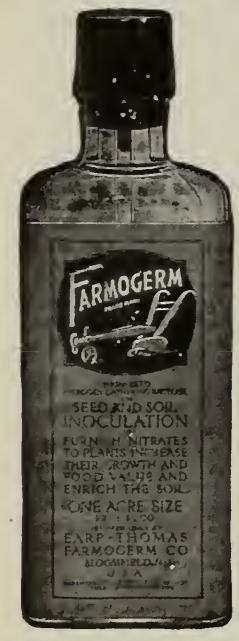
What Farmogerm is

Farmogerm is a pure culture, or growth of nitrogen-fixing bacteria that have been selected and bred up to transform large amounts of nitrogen from the air into soluble nitrates. These bacteria are grown in a jelly, or food, in which they remain active for long periods of time, and sent out in a bottle which admits the necessary supply of pure air, yet keeps out destructive contaminations. If alfalfa can be grown on hot, sandy land of South New Jersey why can't you grow it?

What Farmogerm Will Do

Unless the soil is very acid or wet, Farmogerm will:

1. Increase the yield and quality of legume crops, giving quicker growth and earlier maturity.
2. Increase the food value of legumes.
3. Make legumes grow in new localities where they cannot otherwise be grown successfully.
4. Supply nitrates to other crops growing with the inoculated legume crop.
5. Enrich the soil for future crops, thereby increasing the permanent value of the farm. Better crops—better soil — less fertilizer — less labor.



Increased Crops are a well-established certainty in all instances where inoculations are used together with proper culture methods. Not only is the crop increased in weight, but in its richness. The United States Department of Agriculture, Bulletin No. 71, substantiates these statements. Why not increase your farm yields without extra labor and at practically no extra cost?

Fertilizer Values of well-inoculated legumes have long been determined. It is shown in Bulletin No. 71, issued by the United States Department of agriculture that tests covering a large part of the country prove that legumes will deposit 1,000 lbs. of nitrates per acre. This means that your most expensive commercial fertilizer is absolutely unnecessary when you plant legumes, perfectly inoculated, sown and planted in properly prepared land.

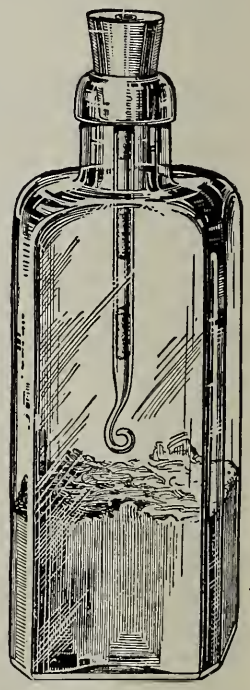
Peas, Beans and Sweet Peas will yield earlier, longer, and better when treated with Farmogerm. Farmogerm is endorsed by Farmers, Federal and State Agricultural Departments, and private estate owners and superintendents. It is delivered to you in bottles, ready for use. You can inoculate the seed for ten acres in ten minutes.

PRICES

5 acre bottles, **9.00.** 1 acre bottles, **2.00.** Garden bottles, **.50.**

"I have been recommended to you by the Massachusetts Agricultural Experiment Station, Amherst, Mass., the use of your culture to inoculate the soil for alfalfa, instead of soil that has grown alfalfa."—R. GILLESPIE, Hopkinton, Mass.

When ordering Farmogerm state clearly if it is required either for **Alfalfa, Garden Beans, Garden Peas, Sweet Peas, Clovers, Vetches, Soya Beans, Cow Peas or all crops.**



HOW FARMOGERM IS USED

The best way to use Farmogerm is by inoculating the seed before planting. It comes to you ready for use, and all you have to do is to mix the Farmogerm with a little water and sprinkle it on the seed and mix the seed until all are moist. Then plant in the usual manner as soon as possible after the seeds are dry enough to handle. Any long delay means loss of bacteria and poorer inoculation.

The bottles of Farmogerm are intentionally only about one-third full. Full directions for use accompany each bottle.

While the operation of inoculating the seeds with Farmogerm is very simple, yet a reasonable amount of care should be taken, and the directions given should be carefully followed to secure the best results.

If the crop has already been planted and inoculation is desirable, Farmogerm may be used by diluting it with water and mixing it with some soil taken from the planted field, and then distributing the inoculated soil on the field. By using soil from the planted field, all danger of introducing weeds and plant diseases is avoided, as by this plan new soil is not spread on the field.

CHEMICALS, FERTILIZERS, MANURES, ETC.

Ashes, Canada Hardwood, apply this material at the rate of one to two tons per acre, according to necessity. One good application will do more good than numerous applications of small quantities.
100 lb. bag, 2.00; ½ ton, 15.00; ton, 28.00

Blood Dried, splendid for the culture of flowering plants such as carnations, roses, snapdragons, chrysanthemums, etc. Contains high percentage of nitrogen.
10 lb., 1.50; 25 lb., 3.00; 50 lb., 5.50; 100 lb., 10.00

Bone Fertilizer (Fine Ground), a fine ground bone of the best quality available.As a top dressing for roses it has no equal. Is also used extensively in soils for chrysanthemums, carnations, snapdragons, etc.
10 lb., .60; 25 lb., 1.25; 50 lb., 2.25; 100 lb., 3.50; ton, 55.00

Bone, for vines and large fruits. Strongly recommended to high grade fruit growers. 28 lb., 1.75; 56 lb., 3.25; 112 lb., 6.00

Bradleys Special Potatoe Manure.—Use in the hills or drills, mix well into soil before planting. Second application can be scattered on about July 1st. .. .. 100 lb. bag, 4.00; ton, 65.00

Bradleys Special Manure, for vegetables. For use on all truck and farm crops. Use at the rate of one ton per acre.
100 lb., 4.00; ton, 65.00

Bradleys Special Manure, for corn. Especially desirable for sweet corn, fodder corn, millet, etc. Use broadcast at rate of 1,000 lbs. per acre. .. .. 100 lb., 3.50; ton, 55.00

Bradleys Special, for grass and grain. As a top dressing use at the rate of 1,000 lb. to acre and broadcast it. 100 lb., 4.00; ton, 65.00

Bradleys Extra Complete Manure, suitable for all vegetables, flowers, plants and shrubs. Scatter on surface and work in with rake or hoe. Use 800 lbs. to the acre. 100 lb., 4.50; ton, 70.00

Bradleys XL Super-phosphate of Lime. For use on soils where lime is deficient use from 1,000 lbs. to acre. 100 lb., 3.50; ton, 55.00

Bradleys Corn Phosphate.—Broadcast at the rate of 1,000 lbs. to acre on light soil and 800 lbs. on heavy soil. 100 lb., 3.00; ton, 50.00

Carters Plant Fertilizer or (Veg-Vita), a highly concentrated plant food sold only in sealed packages and especially recommended for Greenhouse and House plants. .. Can, .30 and .50 each

Carters Complete Grass Manure, No. 1, a complete grass food as it contains all that is necessary for the growth of fine grasses. Does not force or burn, use at rate of 2 oz. to square yard and rake into the surface before seeding.
100.lb., 6.50; ½ ton, 62.50; 1 ton, 120.00

Carters General Purpose Manure, No. 3, specially prepared for the rejuvenating of lawns or for areas where a strong tough, hard wearing turf is required. Use at the rate of 600 lb. per acre.
100 lb., 5.25; ½ ton, 50.00; 1 ton, 98.00

Carters Anti Clover Manure, No. 2, this preparation is also a complete grass food. Its constituents are so balanced that it effectually checks the growth of clover. Sow at the rate of 2 oz. per square yard mixing with two or three times its own bulk of sifted soil when treating the lawns. 100 lb., 6.75; ½ ton, 65.00; 1 ton, 125.00

Carters Tip Top Fertilizer, a fertilizer which is very much in demand by market gardeners and florists for all commercial growing purposes. .. .. 100 lb. bag, 3.75; ½ ton, 35.00; 1 ton, 65.00

Carters Triumph Fertilizer.—This is Carters special for private gardens where the product raised must be the best and suitable for exhibition purposes. 100 lb., 4.00; ½ ton, 38.50; 1 ton, 75.00

Carters Worm Eradicating Fertilizer.—The ingredients of Carters Worm Eradicator are so carefully balanced that not only does it destroy the worms but its fertilizing properties immediately improve the growth and texture of the turf. Use ½ lb. to square yard and water into surface freely. 25 lb., 3.00; 50 lb., 5.75; 100lb., 10.00

Carters Ant Eradicating Fertilizer, used for destroying ants in the lawn or putting greens. The ingredients of the products also helps greatly in the production of a good turf.
2 lb. can, .75 each; or 7.50 per doz.

Carters Special Guano (Equalized), a very high grade product which is much in demand by the best growers. A very strong and dependable chemical.
14 lb., 1.75; 28 lb.,·3.00; 56 lb., 5.50; 112 lb., 10.00

Clays Fertilizer, a well known English product very much in demand with private growers and exhibitors of flowers and vegetables. Very highly commended by leading horticultural authorities.
14 lb., 2.00; 28 lb., 3.75; 56 lb., 6.50; 112 lb., 12.00

Cotton Seed Meal, used extensively as a fertilizer.
Price, 100 lb., 4.75; ½ ton, 40.00; 1 ton, 75.00

Dissolved Black Bone, this is a perfect food for fruits and vines. Is also a good top dresser if used with two or three times its bulk of sifted loam. .. .. 100 lb., 5.50; ½ ton, 5.00; ton, 95.00

Humus, one of the very best top dressings for lawns, putting greens, tennis courts etc. or for renewing thin or improverished top soils. 1 cubic yard of Humus will cover 144 square yards with a ¼" covering, Pamphlet with full information sent on request.
100 lb., 1.50; ½ ton, 11.00; ton, 20.00

Lime Agricultural (Hydrated)—This lime is especially prepared for use on the soil and is a combination of Calcium Hydrate and Calcium-Carbonate finely pulverized. For heavy soils use 1 to 2 tons per acre, light soils, ½ to 1 ton per acre according to need.
100 lb., 1.50; ½ ton, 12.00; ton, 22.00

Limestone (Pulverized), this product is in much demand by leading agriculturists. It is made from pure white limestone and has many advantages over burnt or custic lime, and may be applied at any time of the year without danger and is suitable for all crops.
100 lb. bag, 1.25; ½ ton, 10.00; 1 ton, 18.00

Muriate of Potash.—Very scarce and in great demand. Extremely soluble. Apply at the rate of 200 to 400 lbs. per acre. *Supply Doubtful.* 1 lb., .25; 10 lb., 1.25; 25 lb., 2.75; 100 lb., 10.00

Nitra-Potash, a combination of Nitrate and Potash and a very desirable product which is very inducive to quick, clean, healthy growth. Use at the rate of 250 lb. to 500 lb. per acre.
10 lb., 1.50; 25 lb., 3.50; 100 lb., 12.00

Nitrate of Soda. Scarce and in much demand, being extremely soluble and immediately available. It is usually applied after the plants are above ground.
10 lb., 1.50; 25 lb., 3 25; 50 lb., 6.50; 100 lb., 12.00

Phosphate, High Grade Acid or Rock, used generally with other fertilizers to increase the phosphoric acid analysis sold in 200 lb. bags only. 200 lb., 4.50; ½ ton, 20.00; 1 ton, 38.00

Salt (Agricultural), valuable as a topdressing for asparagus or for killing weeds on gravel walks or driveways. Apply in spring.
100 lb., 1.50; ½ ton, 14.00; 1 ton, 26.00

Scotch Soot, a fertilizer and fungicide and an excellent preventative and remedy for mildew, blight and spot when mixed with sulphur and lime, one third of each. As a fertilizer it promotes growth and heightens color of both flower and foliage. Sold in original bags by *Freight only.* 10 lb., .65; 25 lb., 1.50; 50 lb., 2.75; per bag, 5.00

Sheep Manure (Rams Head Brand), a soluble and quickly available plant food and strongly recommended for all purposes where a first class fertilizer is required. As a top dressing for general lawns it is unequalled. Use at the rate of 600 to 800 lbs. per acre.
100 lb., 2.75; ½ ton, 24.00; 1 ton, 45.00

Sulphate of Ammonia, mixed with other chemicals it is an excellent grass food being highly soluble. It is a quick nourisher, light rains or dews bring prompt results. Supply Doubtful.
Prices on application

Sulphate of Potash (High Grade)—For the past season it has been impossible to obtain this chemical, present indications are that supply even now is very doubtful. Prices on application

Tankage, Fine Ground, a very rich and strong chemical fertilizer used by all the leading growers of roses, carnations, etc.
10 lb., 1.00; 50 lb., 4.50; 100 lb., 8.00

Thompson's Vine, Plant, and Vegetable Manure, in original bags containing 14 lb., 1.75; 28 lb., 3.00; 56 lb., 5.50; 112 lb., 10.00

Thompson's Chrysanthemum Manure, in original bags containing 14 lb., 2.25; 28 lb., 4.00; 56 lb., 7.50, 112 lb., 14.00.

NOTICE—Prices Net f. o. b. on cars Boston and subject to alteration without notice.

SOILS, PEAT AND POTTING MATERIALS

Coarse Crystal Sand, best	1.50 1 bushel bag
Cocoa Nut Fibre, best	1.50 1 bushel bag
Orchid Peat or Fern Root	3.00 per barrel
Fibrous Loam, best sifted and prepared ..	1.50 1 bushel bag

TERMS OF BUSINESS.

NEW CUSTOMERS.

New Customers are requested to send cash with order or else furnish satisfactory references, and in order to save time, those pertaining to Boston are preferred. If this is not done, we will assume that our customer wishes to pay cash on delivery, and, in consequence, the goods will be sent C. O. D.

REMITTANCES.

Post Office Money Orders, Bank Drafts, Registered Letters, or Express Money Orders are acceptable, and we must disclaim all responsibility when remittances are made in any other way. All cheques, etc., should be drawn in favour of "Carters Tested Seeds Inc."

PRICES AND TERMS.

The prices quoted in this catalogue are those prevailing at this date and are subject to change without notice. All terms of payment are net cash.

ORDERS.

Purchasers should order early to ensure a prompt, seasonable shipment of their goods. Do not wait until season is too far advanced; send your order in now for future shipment. All orders should be written separately from general letters or letters of inquiry. Please write the name and address in full, also be very particular to give the number of street or Post Office Box when goods are to be sent by mail, and **when ordering goods forwarded by express or freight always state clearly the express or freight station**

DELIVERY OF GOODS.

When orders are accompanied by cash we deliver free to any Post Office, Railroad, Express Office, or Freight Station at our expense, all vegetable and flower seed orders at the **packet, ounce, quarter pound, half pound, and pound prices,** also bulbs at the single and dozen rates, **except where otherwise noted.** Purchasers must pay transit on pint, quart, peck, and bushel lots, also on plants and bulbs unless otherwise noted. Tools, fertilizers, and insecticides, etc. are all f.o.b. Boston. Note, we will, upon inquiry, advise Customers of the approximate cost of the mailing or express charges of any special items.

CHANGE OF ADDRESS

Please notify us of any change of Permanent Address, in order that we may be able to forward our Catalogues with regularity. The favour of your kind recommendation of our House to those of your friends requiring Seeds for the Garden or Farm, or Plants and Bulbs for the Garden or Conservatory, is respectfully solicited. We shall be pleased, at all times, to forward our Catalogues to any address we may be favoured with.

NOTICE TO PURCHASERS.

All letters are opened under directions of one of our principals, and the orders given out under special supervision. Bulb and plant orders are sometimes delayed by severe cold or hot weather, and they at all times take longer to execute than seed orders in consequence of the care in counting and packing. Customers should always retain a true copy of the order sent to us.

It is also our earnest desire that all the requirements and directions of customers be scrupulously attended to by our assistants, **and we practise the utmost personal supervision to see that they are carried out.** We therefore respectfully request that we be informed if at any time there is cause for dissatisfaction, that we may have it rectified at the earliest possible moment.

AS TO CORRESPONDENCE

Any proper letter of inquiry will receive our careful attention and be answered promptly, but our friends will favour us by stating all questions clearly and briefly.

ACCIDENTS IN TRANSIT.

Glass, Pottery, and other goods liable to breakage are sent out securely packed, but beyond that we cannot be responsible for damage in transit. Notice of damage should be at once made to, and compensation claimed from the express or freight companies which delivered the article. Never sign for goods damaged in transit.

CONDITIONS OF GUARANTEE OF QUALITY

We guarantee our Seeds and Bulbs according to the quality purchased to be of the highest average standard of vitality of the season, and it is open to the purchaser to confirm this by submitting the samples to professional analysis at his own expense. We cannot, however, be in any way responsible for the produce of seeds sold under this guarantee, or for errors of description and it must therefore be clearly understood that our responsibility ceases upon the final acceptance of the goods, and while we exercise the greatest care to have all seeds, bulbs, plants and shrubs true to name, we can give no warranty, express or implied, as to description, quality, productiveness, or any other matter of seeds, bulbs, and plants we send out, and will not be held responsible for the crop. If the purchaser does not accept the goods on these terms and conditions, they must be returned at once and money will be refunded.

POSTAL RATES.

Rates of Postage on Books, Seeds, Bulbs, Plants, Roots, and Scions Cuttings, eight ounces or less, one cent for each two ounces; all over eight ounces, Parcel Post rates.
